PRICES ON STOCKS ADVANCE

LIGHT BUYING HAS EFFECT OF STIRRING UP MARKET IN SOME QUARTERS.

New York, Jan. 28.—Prices of stocks were lifted in various quarters today. The dealings were not active at any time, but the demand was unsettled by the various reports of railroad deals, and the offerings were so inconsiderable that light buying sufficed to make an impression on prices. The plethoric condition of the money market relieved the holders of stocks from any pressure in securing financial resources. Interest rates are declining. The interior keeps up an abundance of shipments to this center, for which no employment is found at home. New York trust companies are prepared to comply with the 15 per cent reserve requirement, which goes into effect on February 1, compared with the 10 per cent cash reserve now held, and these institutions hold large additional deposits with depository banks. Their own deposits have now risen well over a billion dollars, and the difficulty of placing their resources has given rise to discussion of a reduction of the rate of interest paid on deposits from 3 per cent now offered.

The pressure toward the sources of issue of bank notes is another index of the redundancy of the circulation. The call upon the United States treasury for current redemption of bank notes is so great and the drain upon the gold holdings so severe as to give the department officials much concern. This rush of notes to current redemption is not a symptom of distrust of bank notes, but only of the lack of demand for them in the circulation. It is the usual custom for depository banks to sort out notes of other banks as they come to them and send them to the treasury for redemption. From that point they are sent back to the issuing banks and so kept in circulation. It is because of this that the heavy injection of new notes into circulation during the panic in the latter part of 1907 has never gone into retirement. But their current redemption is now on an unprecedented call. The steady rejection of these notes from the money circulation is due to inactive business. This and other signs of slow business discourage large buying of securities, but the easy money market makes a disinclination to sell.

Yesterday's sale of the Chesapeake & Ohio to the Hawley interests gave fresh vitality to stories of deals, and the election of E. H. Harriman to the New York central directorate met an expectation long held by the financial district. The influence of these two incidents was traceable through most of the price movements during the day. The Gould group was conspicuous and New York Central made response. There was another reduction in the quotations for copper at the New York metal exchange, and the quarterly dividend of United States Steel was not noted for the successive declines in the monthly earnings for the quarter. The metal industrials were heavy in consequence. London was somewhat disturbed by the stiffening money market and signs of congestion in new investment issues.

The pressure to find employment for the growing accumulations of money resulted in a bond market of extraordinary breadth, strength and volume. Total sales (par value), \$8,996,000.

United States 2s registered declined 1/4 and the coupons 3/4 per cent on call.

Grain and Provisions.	
Chicago, Jan. 27.—Political news from abroad of a disquieting nature had a tendency to strengthen the wheat market here today. Renewed talk of possible war in the Balkans was partly responsible for active covering by leading shorts, which resulted in a strong tone. The decline of 3-16	

In consols furnished a basis for the war scare. The market, however, was also bullishly affected by the failure of European grain markets to reflect the weakness here yesterday and by the activity and strength of the corn market. There was a slump in prices about midday, following a break at Minneapolis, but the market soon rallied again and continued strong. May closing at \$1.07 1/2 and July at 97 1/2.

Additional large purchases of corn by the local house which supported the market yesterday caused a decidedly strong tone throughout the day.

Oats were firm in sympathy with wheat and corn, but the volume of trade was not large. The market closed firm, with May at 52 1/2@52 1/2 and July at 46 1/2.

Profit-taking in January pork had a weakening effect on provisions, but at the close the market was steady, although January pork was off 2 1/2¢, compared with the previous close.

Wool Market.
St. Louis, Jan. 27.—Wool—Slow. Medium grades, combed and clothing, 19 @22¢; light fine, 16@20¢; heavy fine, 10@16¢; tub washed, 22@31¢.

Metal Market.
New York, Jan. 27.—The English tin market was lower, with spot quoted at \$125.15 and future at \$127.10. The local market was dull, with spot quoted at \$27.50@27.75.

There was a decline of 1/2 ct in the London copper market, with spot closing at 59 1/2 and futures at 60 28 1/2. The local market was weak and nominally lower, with take at \$119.11.12, electrolytic \$13.50@13.62, casting \$13.27@13.50.

Lead was lower, at \$1.18 3/4 in London, but remained dull, at \$4.15@4.25, locally.

Spelter advanced to \$21.12 1/2 in London, but was dull, at \$5.05@5.10 locally.

Children Burned in Flaming House
Pittsburg, Jan. 27.—Four children were burned to death and their parents seriously injured today in a fire which destroyed the home of Sam Kendall, in Dunbar, Pa., east of this city. The dead:

EARL KENDALL, 11 years.
PEARL KENDALL, 7 years.
ANNA KENDALL, 4 years.
BABY, aged 2 years.

Mrs. Kendall leaped from a second-story window and was dangerously hurt. It is believed the fire started from a small gas stove, which was left burning when the family retired last night.

The parents made repeated efforts to reach each room occupied by their four children when the fire was discovered but were finally compelled to jump from the window to save themselves.

Hughes Withdraws Name of Mr. Wallis
Albany, N. Y., Jan. 27.—Governor Hughes today withdrew the nomination of Frederick A. Wallis as state superintendent of insurance. The nomination was withdrawn at Mr. Wallis' request. In a letter to Governor Hughes, Mr. Wallis said:

"While the criticisms which have been directed against me since my nomination are such and every one of them utterly without foundation and nothing can be developed which can reflect upon me in any manner whatsoever, I don't care to accept the office to which so much political opposition has been directed. I have, therefore, decided to continue in my present position with my company."

Chemicals Explode.
Los Angeles, Jan. 27.—Exploding chemicals in the manufacturing plant of the Los Angeles Fireworks & Casket company today probably fatally injured Fred Ebel, shooik buildings within a radius of two blocks and caused a fire which destroyed the structure.

Race Track Measure is Again Delayed
Sacramento, Cal., Jan. 27.—The Walker-Otis anti-race bill, which has already passed the assembly and is now in the hands of the senate public morals committee, will not be presented in the senate today. The bill will be released by the committee Thursday night and then sent to the senate. Action on the message will be taken after that body convenes Friday morning.

Ability of the morals committee to secure the senate chamber for the purpose of discussing the bill was responsible for the postponement.

Election Ratified.
Topeka, Kas., Jan. 27.—The election of Joseph L. Bristow of Salina as United States senator succeeding Chester I. Long for the six-year term beginning March 4 next, was ratified by the house and senate in joint session here today. The vote: Bristow, 115; Hugh P. Farrelly, democrat, of Chanute, 16. Senator Bristow addressed the judicial session following the ratification.

BASEBALL MANAGERS GOTCH IS WONDERFUL ARE ACTIVE WRESTLER

NORTHWESTERN TEAMS ARE SIGNING NEW TALENT FOR THE 1909 FRAY.

Bob Brown, manager of the Spokane team of the Northwestern league, has signed Lloyd "Kansas" Skillman, a big left-handed hurler, who was with the San Francisco team last season. Skillman is rated among the coming pitchers, and is expected to burn up the league this year.

Jensen, another of Spokane's pitchers, writes from Salt Lake that he is in fine fettle, and ready for the training trip right now.

Contracts have been mailed to all the men on the Spokane reserve list, and no hold-outs are expected.

The Scranton (Pa.) baseball team has laid claim to Buck Connors, the big first sacker who has signed to play for the initial corner for the "Indians" during the coming season.

According to Secretary Frank Farrell, the Spokane end of the deal has gone through and has been ratified by the powers that be and Connors will wear a Spokane uniform this season.

Vancouver has just signed another catcher for the season. Borris, who was with Fresno last year, is the man and comes to the Northwestern league with a good reputation as a back stop.

He batted .253 in the California league and handled his chances finely.

Old Joe Sugden, the ex-Vancouver back stop, has signed a new third baseman for the Vancouver team.

The new man answers to the name of Smith, and has been playing in the City league of Philadelphia. He will fight it out with Ole Snyder for the position at the difficult corner. Smith plays a third base of short stop, and is said to be a big fellow with a good eye.

Dugdale, of the Seattle team, is busy signing promising youngsters to wear Seattle uniforms in 1909. He has just secured the signatures of E. Killip and L. H. Crocker, two boys who played in the Spokane City league last season. Ed Killip is a brother of Jack, the Spokane star, and showed great class here and in the bush last year. He has speed and with a good catcher to hold him up and coach him, should develop into a good man for Dugdale. Crocker is an outfielder who showed up well while in Spokane, and made a great record while with the fast Wardner-Kellogg bunch of independents during the closing weeks of the season last year. Crocker showed up well in his batting last season, and if he can get his eye on the sphere this year should make good from the start with Seattle.

McManus of Montreal, has signed for back stop work with Portland. McManus has had big league experience and was purchased by Portland to assist in developing new talent.

Longboat is Willin'.
Chicago, Jan. 27.—Tom Longboat has wired a favorable reply to the promoters of the Marathon races in Chicago, in which they asked the Indian to race the winner of the Dorando-Hayes contest scheduled for February 17. The Canadian said he would meet the victor in the coming race at any time in March. The date for the third big race will be set later.

Magistrate of City Summarily Removed.
New York, Jan. 27.—Otto H. Doege was today removed from his position as city magistrate by order of the appellate division of the supreme court on motion of counsel for the bar association of New York. The appellate division, on January 8, found the magistrate guilty of charges that he had illegally released prisoners whom he had committed to the workhouse, and an attempt had been made to bribe a newspaper reporter, who was writing a story reflecting on the magistrate's judicial actions.

The excellent showing of ore made at the 500-foot level has been greater than anticipated and further drifting on the vein under the ore shoots, exposed in the upper levels, should result in the opening up of a substantial quantity of high grade shipping ore.

The Speculator Mining company of Butte is operating the adjoining property and with the advent of eastern capital into the camp, this year should witness an unprecedented amount of active development work in the Clinton district.

The Cape Nome is looked upon as one of the most legitimate mining propositions in Montana and owing to the low price at which this stock is now offered for sale, it is requested that early applications be made to the secretary, as only a limited amount of stock is being placed on sale.

SPORTING NOTES

The advance guard of the Boston Nationals will leave for Augusta about March 7.

Johnny Kling, the Chicago catcher, is playing indoor baseball in Kansas City.

With McGann, Brown and Flynn the Milwaukee club is strong at first base. Robert Fowler, the Boston Marathon runner, has entered the hotel business at Tonkers.

Fitchers Cy Barger of Rochester and Stanley of Montreal will play with Providence next season.

The salary limit of the Ohio and Pennsylvania league has been fixed at \$1,500 exclusive of managers.

Nap Tucker has signed his Brooklyn contract, so Manager Lumley is sure of one good pitcher for his Dodgers.

Jack Ryan, Lew McAllister and Joe Knotts make a strong trio of back stops for the Buffalo Eastern league team.

Manager Lake of the Boston Americans has signed Thomas Madden, a promising young catcher. Madden played fine ball for Portland, Ore., last season.

Louis Durham, the Giants' new pitcher, wants to return to Minneapolis. Perhaps he is afraid that he will make good and be compelled to go on the stage.

Money must be a scarce commodity in England when two such fighters as Johnson and Langford are asked to mill for the sum total of \$6,000. The loser's end is \$2,000.

Tommy Burns has signed a contract to box under the management of Hugh D. McIntosh, the Australian promoter who pulled off the big mill between Burns and Johnson some weeks ago. Under the terms of the contract Burns is to remain in kangaroo land for a period of 10 years.

Alfred Shrubbs, the English runner who was to have raced Indian Tom Longboat on Tuesday night, says his foot is now in condition for the contest, and that he will be in form on the night of February 5. Shrubbs damaged the skin on his left foot in practice and feared blood poisoning.

President Harry Pulliam of the National league says the champion "Cubs" are an ungrateful lot. He says the players attempted to dictate to the commission what they wanted in the way of a souvenir for the feat of winning the world's championship last fall, and, failing, have made many uncomplimentary remarks regarding the style and quality of the emblems.
