THE NEW KIND OF REPORTER.

The following interesting incident as illustrating the new policy in journalism is cited by Will Irwin in an article on "The New York Sun," which appears in the American Magazine. "On that critical day in the life insurance fight when the Frick report was read in committee, a New York Sun reporter caught one of the committeemen and went up with him to the station. The newspapers were scouring heaven and earth to find out what was in the Frick document; a copy was worth fine gold. As the committeeman reached the train gate, he turned and said: "Don't tell anyone that I put you on—there is a stack of those reports just inside the committee room. Five dollars to the scrub woman and you turn the trick, I think." "The reporter, a little new on the Sun, did not like this piece of business; nevertheless, he telephoned to George Mallon, the city editor, and laid it before him. "The Sun man who would do that trick would get fired," said Mallon."

For several years I was afflicted with kidney troubles and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased as my urine became normal. I cheerily recommend Foley's Kidney Remedy. For sale by Garden City Drug Co.

A JEW'S APPRECIATION OF JESUS.

A remarkable story of ghetto life in New York appears in the American Magazine. The story is by James Oppenheim, and the following is an interesting incident from it: "The Jew doctor smiled sadly. 'Is that the kind of a physician Miss Grabo is going to be?' " 'Why not?' she challenged. He laughed a bit. " 'Well, I guess I'm an old-fashioned doctor,' he murmured, 'for I have queer ideas about things. Do you know my definition of a doctor?' " 'What is it?' " 'Why, he's ust an ordinary man like Jesus, who lays his hand on the

One of the world's flesh and his soul on—'he paused, and held his breath, 'bruised hearts and broken souls.' " 'Like Jesus?' she cried, shocked. " 'You, a Jew, say that?' " 'Why not?' she smiled. 'Jesus was a Jew. And as a doctor I reverse him. He was our greatest doctor—he cured multitudes! I wish there was one such in these roaring slums.' Eddy Improvement

We believe we are warranted in making the assertion that there is not another property in the lead-silver belt of the Coeur d'Alene that is being as well financed as the Eddy, or one in which the management is doing as much to promote the interests of its stockholders and costing them as little. When you realize that on two thousand eight hundred dollars collected, on an assessment, they have bought eight claims of the most valuable ground in Western Montana, with a fine mineral showing on which they have driven 150 feet of tunnel, proving the extent and value of the ledge, working continuously from two to five men all the time since last May, surveying for patent, etc. (Their ground is nearly all surveyed for patent.)

With over four hundred thousand shares of the treasury stock remaining unsold to protect the company against any contingencies that may arise in the way of wanting equipment or paying for help, while waiting returns from shipment, we ask the stockholders if, in your judgment we will be doing wrong to advance the price of this stock to 15c on March the first?

The management, of course, has not made all these purchases and improvements on the small returns which the assessment brought in. We have sold very little stock to outside people, preferring rather to purchase it ourselves and take advantage of the raise in price which we are sure will come from location, not considering its natural advantages which are better than nine-tenths of the properties offering stock. Read Robt. Sibley's report for reference.

We have protected this stock so that it has never been forced down in price as some of the Coeur d'Alene stocks have been, rather paying for the work ourselves and taking stock when it went below a certain price, than letting it out on the open market to be knocked around by small investors, who, imagining they must have money, unload at any price. The Eddy stock stands better today and the company is in better shape than almost any company doing business in the West.

This office will be ready to make a good report of the work done and the showing made, on March the first, when the price of the stock will be advanced, and you, who hold this security, will be able to take a fair profit on a small investment and feel that for once you have associated yourselves with a live bunch. Money invested in Eddy stock at this time, not only gives you an interest in the four claims at Eddy, but the eight claims at Saltese, which are all held under the same company, and the same management. We are not offering your any gold bricks, or any get-rich-quick schemes, but are offering you stock in a company as represented above, for 15c with a possibility; yes, an assurance, of its being worth 50 cents or better in less than one year, and this with all reasonable assurance, and we are not asking you to pool your stock, either. You buy it, pay for it, so it will be issued in your name. We will not try to control your property, but will gladly transfer your stock free of cost any time you sell to another. We don't want you to tie up your money. Just invest it. Whenever you are satisfied with the profit, let loose and give some one else a chance.

A. M. STEVENS, Secretary.
