**AMERICANS, TAKE HEED.**

From "The Giant Trust of the Future," by Earl Mayo, in the February Metropolitan Magazine:

All over the country today the foundations are being laid for a trust of such vastly greater magnitude than any industrial combination now in existence that the greatest of these will seem of puny dimensions beside it. The United States Steel corporation, through its leadership of one of the most important of modern industries, ranks as the most notable manufacturing company in the country. Set at the steel producers were united in a single combination, it would not be worth comparison with this future trust of which the first faint beginning now appears, for the reason that the latter will dominate all lines of manufacture. If all the railroads were brought together into a single control, it would be a development of tremendous significance, but less significant than this future combination, which is even more surely on the way, for the latter will dominate transportation.

**A Horrible Holdup.**

It's quick to relieve and the surest cure for weak or sore lungs, hemorrhages, coughs and croup, bronchitis, la grippe, asthma and all bronchial affections; 50¢ and \$1. Trial bottle free. Guaranteed by Geo. Freidshamer.

**Commissioners' Meeting.**

Attest: D. T. CURRAN, Chairman.
