Eddy Improvement

Everybody likes to be with the winners. They are sure
to be whooping on the side of the upper dog no matter
how much they may say to the contrary and tell you about
helping the under dog. Since the Eddy company has be-
come active there are any amount of people who have been
in to see if they can put off buying stock for a month and
still get it at the old price. To this I must say NO. Now
is the time. We are not gambling with the future. The
Eddy company has as good ground as there is in the west
and what do you want us to uncover, another Hercules and
then take the same money? Unless there is money paid
down not a share of this stock will be held for one hour
and not a share will be taken out of the block until fully
paid. Since driving our prospect tunnel and seeing what
others have got we are satisfied that no better ground can
be found and that it is too near a sure thing to gamble with.
