

MUCH MARRIED MAN IN TROUBLE

COMMERCIAL TRAVELER IS ARRESTED FOR BIGAMY AND EMBEZZLEMENT.

St. Louis, Feb. 2.—Thomas H. Bolin, a commercial traveler, charged with having two wives in the west, one in St. Louis, another on the Pacific coast, and with having embezzled \$1,200 from the branch office of an Indiana concern in Provo, Utah, was arrested today following an attempt to spread a false report of his having been killed by an automobile.

The name was recognized by the Yakima authorities as an alias which Bolin had used and on telegraphic information from Yakima the local police arrested him.

PRESIDENT ROOSEVELT DID NOT STRIKE HORSE

Washington, Feb. 2.—For the first time making public a disclaimer of published reports that President Roosevelt, while riding in Rock Creek park, near this city, struck the horse ridden by a young woman who happened to ride near his party, the White House today gave out a letter received from the young woman's mother.

UNFOLDS THE STORY OF HER LIFE.

MRS. STIRLING RELATES EXPERIENCES OF HER MARRIED EXISTENCE.

Edinburgh, Feb. 2.—The Stirling divorce case today entered upon the third week of its hearing. Mrs. Stirling continued to deny the allegations made by her former husband's lawyer. Several times she broke down as she unfolded the story of her married life. The objectionable attitude of Douglas Stirling, her husband's brother, also irritated the witness, and she broke out into a heated denunciation, and at the suggestion of the presiding judge Douglas Stirling left the room.

Mrs. Stirling characterized as "dreadful lies" all the allegations of misconduct with Lord Northland, and she finally denied that she had promised to give a confession to an attorney for Mr. Stirling, who talked with her after her return from America in August of last year.

Continuing, the witness said that the statement made by Mrs. Atherton last week that she (Mrs. Stirling) had purchased a revolver and declared she would shoot Lord Northland unless he married her was a fabrication. She admitted having purchased a pistol after she had left her husband, and said she was so miserable that she had contemplated taking her own life.

"There has been throughout a conspiracy to get rid of me by hook or by crook," she declared. "There is absolutely no foundation for the stories of improper conduct with Lord Northland, but even if I had been guilty no one would or could have blamed me, for if ever a woman was thrown at a man's head, I have been thrown at the head of Lord Northland."

In the cross-examination Mrs. Stirling admitted driving and dining alone with Lord Northland. She said this was due in a measure to her love for him, but largely out of pique aroused by the neglect of her husband.

NO MARRIAGE LICENSES WITHOUT HEALTH BILL

Salem, Ore., Feb. 2.—A bill requiring that applicants for marriage licenses in this state be provided with a certificate of good health from a licensed physician unanimously passed the senate today.

OREGON SHORT LINE WILL BUILD BRANCH

Dillon, Feb. 2.—The people of this part of the state and Lombl county, Idaho, deem the proposed Armstead-Salmon railroad an assured fact. The capitalists behind the proposition have inserted advertisements in the daily papers calling for bids on construction work. A contract will be let immediately for a 750 foot tunnel at the top of the divide and for building 120 miles of roadbed and laying the track on the same.

TO INSTALL WIRELESS.

Paris, Feb. 2.—The French government as a result of the use made of wireless telegraphy, following the sinking of the steamer Republic off Nantucket, January 23, is studying the entire question of wireless communication with the idea of introducing a bill to oblige French navigation companies to install wireless apparatus on all their ships above a certain tonnage.

SCHLEY TESTIFIES AT HEARING

GIVES EVIDENCE REGARDING ABSORPTION OF COAL COMPANY BY STEEL TRUST.

Washington, Feb. 2.—Grant B. Schley of New York, one of the men who manage the syndicate that was said to have controlled a majority of the stock of the Tennessee Coal & Iron company when it was absorbed by the United States Steel corporation, was a witness today before the special committee of the judiciary committee, which is making an inquiry into the president's authority for permitting the merger.

He said that suspicion was directed against the company's stock during the panic of October and November, 1907, and there came a demand from several banking firms, according to Mr. Schley, for the removal of the stock and the substitution of other securities. As a result Mr. Schley suggested that the J. P. Morgan interests should purchase the Tennessee Coal & Iron stock and issue steel bonds in its stead in order to relieve the market.

The stock was purchased by the association of business men at 110, and in the two years it was held by them they expended, according to Mr. Schley, between six and seven millions in betterments, which ran the price of their stock up to about 119 or 120.

FLATHEAD LUMBER OUTPUT.

Kalispell, Feb. 2.—According to the annual report of the Montana larch and pine manufacturers by their secretary, A. E. Boorman some interesting figures are disclosed relative to the lumber industry in Flathead county. Shipments for the past year show a decrease over 1907, due to the general situation of the country and to freight rates in a great measure. The report shows that the amount of stock on hand on January first at the various mills included in the association amount to the enormous figures of \$9,392,745 feet, and that the shipments made from these same mills during the past year amounted to 3,062 cars; and that the total cut for 1908 amounted to 86,569,062 feet. No figures have been compiled on the cut or shipment of ties for this past year, but an idea of this branch of the business can be had from the fact that over thirty-five million feet of ties and mining timbers were made in this county during 1907. The total lumber shipments for this year exclusive of the tie timber amounted to eighty-three million feet. Another interesting part of the report shows that the largest cut in any one month of the past year was twelve million feet during the month of June, and that the minimum for any one month was two and a half million feet during December.
