ville, Illinois, who doesn't care for postal savings banks. There is no use of Uncle Sam's trying to go into the banking business without the approval of Uncle Joe.

A WONDERFUL WORK.

Elsewhere this morning The Missoulian prints an interesting story relative to the work of the Bitter Root District Irrigation company.

The Union theater, having served its purpose, passes out of the local play world.

The federal court is learning that the Washoe people have expended thousands of dollars in the endeavor to purify the smelter smoke.

If the smoke farmers had tried to be good with half the sincerity the smelter people have manifested, there would have been no smoke case.

The anti-gambling law having been declared constitutional, local officers are everywhere responsible if the law is not enforced.

Senator Cummins chips into the game a little early, but senatorial precedent has been pretty badly shattered, anyway.

The paper part of the electric railway construction being completed, the pick and shovel chapter will soon be preparing.

If you overlook the Red Apple banquet, you not only miss a good thing, but you neglect a fine opportunity to boost.

When we pay the bill for raising the wreck in Havant harbor, we shall once more remember the Maine.

Whose word will you accept regarding our naval efficiency, Admiral Evans' or a magazine writer's?

The remaining seats at the Red Apple banquet are few; if you want to attend, get your ticket now.

The present movement in Missoula real estate is the forerunner of lively business when spring comes.

Moreover and furthermore, the canal work is progressing and Bill Taft says it is well done.

There is a noticeable lack of team work these days between the weather man and the calendar.

We also remember the Oregon and the whole world will remember the voyage of Sperry.

The city council has a busy season ahead in the matter of issuing building permits.

The Red Apple banquet will be redder and brighter than ever this year.

Today is the time to purchase your ticket to the Red Apple banquet.

Another and greater crowd had assembled in the immediate vicinity of Stephens. These people were curious to see what would be the outcome of the threats made by the unemployed and the woman suffragists to indulge in demonstrations.

Urgent whips had been issued by the leaders of the house, and there were only a few absentees.

BRONCHITIS VICTIM

Little Daughter of Mrs. Hastings of Fitchburg Suffered for Years. Could Not Attend School Winters.

COMPLETELY CURED BY VINOL.

"For many years my little daughter suffered from bronchitis. Every winter she was out of school more than she was in, until at last I had to take her out of school entirely. We had one of the best doctors in the city, and while he would bring her out of the acute attacks all right, they kept occurring. At last she got so very bad that it did not seem as though she could stand any more spells. Knowing that Vinol is cured by little nephews of congestion of the lungs, I decided to try it for my daughter. I did so and she could soon see a great difference. She took four bottles in all and it has completely cured her. That was a year ago and she has not had an attack of bronchitis since and seems strong and well." Mrs. J. E. Hastings, Fitchburg, Mass.

Answer This Question

When thousands of women say that they have been cured of their ailments by a certain remedy, does this not prove the merit of that remedy?

Thousands of women have written the story of their suffering, and have told how they were freed from it by Lydia E. Pinkham's Vegetable Compound.

Without great merit this medicine could never have gained the largest sale of any remedy for woman's ills—never could have become known and prized in nearly every country in the world.

Can any woman let prejudice stand between her and that which will restore her health? If you believe those who have tried it you know this medicine does cure.

Read this letter from a grateful woman, then make up your mind to give Mrs. Pinkham's medicine a chance to cure you.

Brooklyn, N. Y.—"I am a firm believer in Lydia E. Pinkham's Vegetable Compound. I was a great sufferer from organic female troubles for years, and almost despaired of ever being well again. I had bearing-down pains, headache, backache and pains in my abdomen, and tried Mrs. Pinkham's Compound as a last resort. The result was astonishing, and I have used it and advocated it ever since. It is a great boon to expectant mothers. I have often said that I should like to have its merits thrown on the sky with a search-light so that women would read and be convinced that there is a remedy for their sufferings. My husband joins me in its praise. He has used it for kidney trouble and been entirely cured."—Mrs. E. A. Bishop, 1915 Atlantic Ave., Brooklyn, N. Y.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands of women to health. Address Mrs. Pinkham, Lynn, Mass.

REAL ARCADIA WILL GRACE VALLEY

(Continued from Page One.)

than ever before planned, after months of working out the details in the east, and organizing their forces there. They are particularly enthusiastic over the undertaking that has been made, and is being made, by the Bitter Root people who are boosting their own valley and its merits, until the professional knocker is becoming an unpopular sort of person.

Where co-operation of that kind may end is not hard to see. With its great reputation for beauty of scenery, climate and for its great crops of fruits and grain, together with the great impetus from the up-to-date and far-sighted Bitter Rooters, even rival fruit districts like Yakima and Wenatchee must soon admit our supremacy and Missoula must take its rank before very long as the second city of Montana," said Mr. Nichols yesterday.

On third reading the bill creating Lincoln county was passed, as was that annexing Teton county to the Eighth judicial district.

The following bills were introduced: No. 113, by Romney—For the creation of position of commissioner of horticulture, the term to be four years, the salary to be \$2,500, and the office to be at Missoula.

No. 114, by Donlan—Making an appropriation of \$6,015 to pay owners in Gallatin county for horses killed by order of state veterinarian.

Truscott gave notice of a bill for the creation of the Fourteenth judicial district, to consist of Valley county.

A POSEY FOR MILADI WHO DRIVES.

All the smart broughams and luxurious electric coupes now have their supply of fresh flowers, renewed each morning when the equipage is made ready for the day's shopping, calling or drive in the park.

Just inside the doors, the receptacles being the small, cornucopia-shaped Japanese wai-pockets of green porcelain. Lilies of the valley, first violets this season, clusters of violets, carnations and single orchids are the flowers most seen in the smart carriages and, of course, the water is changed daily by the clever little groom who hops down and stands at attention whenever the carriage stops.

ARRANGEMENTS MADE FOR MEETING

NORTH AMERICAN CONSERVATION CONGRESS TO MEET IN WASHINGTON SOON.

Washington, Feb. 16.—The program of the North American Conservation conference, which opens in Washington on February 18, has been completed and the main features of it have just been made public. The president will receive the Canadian and Mexican commission at 10 o'clock on Thursday morning in the east room of the White House.

The evenings of the foreign delegates will be very fully occupied with various social functions that have been arranged by their compatriots and government officials in Washington.

The personnel of the delegations from Canada and Mexico guarantee the accomplishment of real results from the conference, for all the members are experts in the natural resources of their countries.

Canada will be represented by the Hon. Sydney Fisher, minister of agriculture of the dominion; the Hon. Clifford Sifton, ex-minister of the interior, under whose administration many of the regulations concerning the use of Canada's resources were adopted, and Dr. Henri S. Beland, a member of the Canadian parliament, who is a well-known authority on these subjects.

To represent Mexico, President Diaz has sent Romulo Escobar, Manuel A. De Quevedo, and Carlos Sollerier. Senor Escobar, who leads the delegation, is one of the foremost authorities in Mexico on the agriculture of the country. He has been at different times minister of the department of agriculture and of the department of forestry.

With his brother, he edits the farm paper El Agricultor Mexicano, and he presented a paper on "Agriculture in Mexico" at the time of the St. Louis exposition. Senor De Quevedo is the present minister of forestry.

DAINTY LACE BLOUSES.

Despite the vogue for one-piece frocks, the lace blouse is still high in favor with women of limited wardrobe. The simplest of these blouses are of heavy Tuscany or Brussels net laid in a succession of fine tucks running vertically if the wearer is stout, and horizontally if the wearer is slender.

Sometimes from four to six tucks are sufficient for each of the fronts, while the sleeves, broadly tucked from shoulder to wrist, are finished with a net ruche harmonizing with the jabot which relieves the front panel. More elaborate net blouses are combinations of tucks with cluny, Venice, imitation Irish or Italian lace.

On these blouses broad bands of lace are let into the shoulders from collar to sleeve top, while rows of alternating large and small medallions form the border of fichu drapery overlapping pin-tucked narrow center panels.

"SOMNAMBULIST"

A young man, cashier for a large mercantile concern, has just made up his cash for the day's business. He turns to the safe with the intention of locking the money in it and leaving for his home, finds that it is locked.

Not knowing the combination to the safe, he decides to take the money with him. Leaving the building, he makes his way home, where he spends the evening. Upon retiring for the night, he places the bag containing the money and valuable papers underneath his pillow and very shortly falls asleep.

During the night he awakes, still sleeping, and taking the bag of money from under the pillow, hides it behind a large painting which hangs on the wall of the room. When he awakes next morning his first thoughts are of the money. Reaching quickly under the pillow, he discovers that it is missing. A look of despair covers his face and he rushes frantically about the room in search of missing money. Calling his wife, he dispatches her with a note to his employer, who, not believing the young man's story, has him placed under arrest. While the young man is in jail, pending trial, he is visited by his wife. Upon arriving at his cell, she is surprised to see him walking in sleep. Still sleeping, he walks through the door she has just opened and is followed by her and two officers. He walks rapidly to his home and going directly to his sleeping apartment, takes the money from behind the painting where he placed it that fateful night. This of course clears him from the crime with which he has been charged and his old position and the confidence of his employer is restored to him.
