CURES COUGHS

READ WHAT A PROMINENT ATTORNEY SAYS OF DR. BELL'S PINE-TAR-HONEY.

Gentlemen:—Having suffered for some weeks with a very annoying, hacking cough, I procured a 3 cent bottle of your Dr. Bell's Pine-Tar-Honey. After a few doses I was much relieved and the cough entirely disappeared, and never returned, I having used only the one bottle.

Judge E. H. PURYEAR,  
Paducah, Ky.

EVER FROM FAR AWAY MEXICO WE RECEIVE TESTIMONIALS. Colima, Col. Rep. Mexico. Dear Sir:—The Pine-Tar-Honey liberated me from certain death. Gentlemen for six months I suffered from a cough that attacked me more strongly on cold nights, making me suffer great pain. I consulted all the doctors of this city, but none gave me permanent relief. I then took Dr. Bell's Pine-Tar-Honey. Having bought a 3 cent bottle I commenced to take it and noted an incredible relief; with two or three doses I could go to my class. Everybody who sees me says I owe my life to Dr. Bell's Pine-Tar-Honey. Very truly yours, Enrique Sierra y Vizcarra.

Is Pure Pine-Tar and Pure Honey, combined by a scientific process with various other ingredients. The contents printed on every bottle.

### MARKET MOVEMENTS STAGNANT

SPECULATIVE OPERATIONS ARE LESS THAN ANY TIME SINCE ELECTION.

New York, Feb. 17.—Only scanty material for comment could be found in today's torpid stock market. Speculative interest was more stagnant than at any other time since before the national election. The few stocks that moved appreciably from some special cause were without any sympathetic effect on the general list. They drifted idly backward and forward on nominal transactions, representing nothing more than the tentative efforts of the room traders to scalp a small fractional profit. The bond division still offered a sharp contrast to the stagnation of the stock market, although the volume of transactions there also fell away from the recently prevailing level of activity. The expected Chicago, Burlington & Quincy bond issue, which appeared overnight proved to be \$15,000,000 against previous estimates of probably \$20,000,000 or upward, and the offering was closed as soon as opened, previous applications having been larger than the total issue. As the allotment price of 98½ compared with a price above par for bonds previously issued under the same mortgage, the prompt rise in the price of the new issue to a premium over the is-

sue price was not surprising. The halt in the trade revival appears to nullify the effect of abundant money resources in that department of the securities market. The contents of the annual report of the Pressed Steel Car company and the unfavorable views expressed by its president over railroad prospects kept attention fixed on the subject today. Another reduction in copper quotations here and in London was a contributory factor. The gloomy feeling in the steel trade was deepened by reiterated reports of a coming out in prices. Published reports of the program being followed by E. H. Harriman to build up his health had the effect of arousing some misgivings on that subject. The banks are surrendering government deposits to the treasury in advance of the date fixed in the call, which means Feb. 25 as the period for compliance. Money rates are unaffected. The declining interest rates are common to all the world's great money centers and this was coincident today with universal dullness in the stock markets. Bonds were irregular. Total sales, par value, \$5,390,000. United States bonds were unchanged on call.

**Grain and Provisions.**  
Chicago, Feb. 17.—Although leading bulls gave the wheat market support on all weak spots demand was not active and prices during the greater part of the session were a trifle below the closing figures of the previous day. A feature of the trading was the renewed selling of the July delivery which caused that option to rule comparatively weaker than the May delivery. Poor demand for cash wheat here, and an extraordinary slack demand for flour at all the prominent milling centers in this country, were the chief factors in the situation. During the day the May delivery sold between \$1.12½ and \$1.14½, and closed at \$1.14½. July closed at \$1.00½.

Oats scored a further advance on bidding by leading longs and cash interests, May advancing to 54½c, a new high point for the season. At the close the market was 3½c above yesterday's final quotations. May closed at 54½c and July at 48½c.

Provisions were weak because of moderate sales by western packers. The selling was based largely on liberal receipts of live hogs at all western packing centers. Prices at the close were 507½ to 12½c below the previous close.
