

ALLEGED SWINDLERS ARRESTED

MEN ACCUSED OF BUNCOING
SCORES OF PERSONS TAKEN
INTO CUSTODY.

Little Rock, Feb. 24.—That their field of operation extended over the entire country and their victims number nearly a hundred, and that almost \$1,000,000 has been secured in the last two years, is the declaration of the officials who caused the arrest yesterday of J. C. Maybray and three alleged confederates, leaders. It is charged, of a thoroughly organized band of swindlers on a charge of using the mails to defraud. In searching the effects of Maybray last night records were found giving the names, the authorities declare, of men who were victimized, as well as those of over 300 others, stationed in every state in the Union and several provinces of Canada, whom, the officials assert, acted as agents of the men.

During their residence in Little Rock the quartet occupied a home in Pulaski Heights, a fashionable suburb. A suite of offices in a downtown office building completed the back-ground for their offices, which, it is alleged, were to arrange bogus wrestling matches and foot and horse races. When arrested the men gave their names as J. C. Maybray, F. M. Clark, J. M. Johnson and Isadore J. Warner. They were identified by T. C. Cavanaugh of New Orleans, who declared that he lost \$25,000 on a previously arranged wrestling match.

New York, Feb. 24.—President Roosevelt and Mrs. Roosevelt and daughters, Mrs. Nicholas Longworth and Miss Ethel Roosevelt, were in the city today to attend the funeral of Stewart Douglas Robinson, the president's nephew. The young man was killed by a fall from the window of a dormitory at Harvard university Saturday night. Mrs. Roosevelt and her son Kermit came over from Washington yesterday, and the president and his daughters, Rear Admiral W. S. Cowles and Mrs. Cowles and Secretary Loeb arriving this morning.

The funeral party proceeded to the Protestant Episcopal church of Holy Communion, where the funeral ritual was read by Rev. Henry Motter.

STORM IN THE SOUTH WRECKS AND KILLS

Memphis, Tenn., Feb. 24.—That the storm of wind and rain which has prevailed in eastern Arkansas, northern Mississippi and western Tennessee was most severe was confirmed by advices received early today. The town of Fisher, in Polk county, was practically destroyed, only two buildings remaining intact, while six persons were killed and a number of others were more or less injured. Near Augusta the dead number six and several others were injured.

In Mississippi considerable damage was done to property.

In Memphis trees were uprooted and telegraph and telephone wires tangled, but no casualties occurred.

IMPRISONED WORKMEN LIBERATED FROM DITCH

Seattle, Feb. 24.—The nine men imprisoned in a sewer tunnel cave-in on the grounds of the Alaska-Yukon-Pacific exposition since 9:30 o'clock yesterday morning, were liberated at 6:30 this morning, and the body of one dead man was recovered. At least one more corpse is known to still be buried in the shaft. Those released are:

REFUSES TO CONCUR.

Sacramento, Feb. 24.—The senate refused this morning to concur in the amendments to Senator J. P. Sanford's joint resolution which struck out the request to congress to establish a federal line of steamers between California ports and Panama.

The senate thus goes on record a second time as favoring government-owned steamships to compete with the transcontinental railroads in the handling of freight.

S.S.S. PURELY VEGETABLE

It is a generally recognized truth that medicines made from vegetable ingredients are a great deal better adapted to the delicate human system, and safer in every way, than those composed of strong mineral mixtures and compounds. Mercury, potash, arsenic, etc., which are used in the manufacture of most blood medicines, are too violent in their action, and frequently derange the system by disturbing the stomach and digestion, affecting the bowels, and when used for a prolonged period often cause Rheumatism. S. S. S. is the only blood medicine guaranteed absolutely and purely vegetable. It is made entirely of roots, herbs and barks, selected for their purifying and healing qualities. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Contagious Blood Poison, and all other blood diseases, because it cleanses and purifies the blood, and at the same time builds up the entire system by its fine vegetable tonic effects. S. S. S. may be taken by young and old with absolute safety, and with the assurance that it will cure the diseases and disorders due to an impure and poisoned blood supply, even reaching down and removing hereditary taints. Book on the blood and any medical advice free to all who write.

INAUGURAL ADDRESS IS COMPLETE

TAFT'S SPEECH HAS UNDERGONE
ITS FINAL REVISION AND IS
READY FOR DELIVERY.

New York, Feb. 24.—With the most important news feature of the Taft inauguration in abeyance the selection of a secretary of the treasury, President-elect Taft today took advantage of his coveted opportunity to catch up with his correspondence and prepare a portion of one of the magazine articles he has contracted to write.

The inaugural address of Mr. Taft reached its final revision today. The document is a declaration of the policies which the new administration will endeavor to carry out.

The address contains approximately 5,000 words and will occupy little short of an hour in its delivery. The address has been submitted not only to the men who have accepted places in the Taft cabinet, and in each case received their hearty approval, but Mr. Taft has also read the paper to Mr. Roosevelt and others of his personal friends and advisers. It is pronounced a strong state paper.

ANTICIPATES NO WAR WITH THE JAPANESE

Spokane, Feb. 23.—William H. Acuff, president of the Washington Mill company and head of the Pennsylvania Society of Spokane, who represented the Spokane Chamber of Commerce at the trade congress in Japan, said on his return from the Orient that there will be no war between this country and Japan, adding that it is idle for Americans to speculate upon such an event. He was at Yokohama during the time the American fleet was in that harbor. "And," he continued, "I heard 10,000 Japanese sing 'America' in the English language. I may add that the people of Japan are friendly toward Americans, and I know from high sources that they want no war with us."

Mr. Acuff received assurances from officials of the department of agriculture that Japan will send several prominent men to the seventeenth National Irrigation congress in Spokane, August 9, to 14; also that the country will forward apples for competition at the National Apple show in this city next December.

DEBATE IS ARRANGED.

MOUNTAINEERS FIGHT WITH GYPSY BAND

Cullacian, Mexico, Feb. 24.—Two women and three men were killed and another woman injured in a battle between a gang of mountaineers and a band of gypsies on the road to Mazatlan, news of which has just reached here. Encountering the gypsies on the road, the mountaineers demanded that the gypsy women attend a nearby dance with them. Upon the refusal of the women to accompany them, the mountaineers opened fire and two of the women fell dead and another badly wounded. The mountaineers then fled but were pursued by the gypsy men, who finally succeeded in killing three of the murderers of their women.

KAISER WILHELM II RUNS AGROUND IN FOG

New York, Feb. 24.—While trying to grope her way into New York harbor through a blinding fog today, the steamer Kaiser Wilhelm II from Bremen, ran aground on the edge of Godfrey channel and was stuck fast for several hours. There were nearly 1,000 passengers on board. As the bottom of the bay was either mud or sand, it is believed the steamer suffered no damage. The accident was reported by wireless. The steamer was floated soon after noon and an attempt was made to take her out through the channel, where she might anchor in open water until the fog lifted.

WOMEN ARE RESCUED.

Chicago, Feb. 24.—Three women, unconscious from smoke, were carried from the building by firemen when fire broke out at the Normandy hotel, 13-17 North Clark street, today. The flames leaped across the Northwestern elevated tracks, which pass between, and ignited a new terminal building being built.

HOLY ROLLERS PLAN BIG MEETING

ARE ESTABLISHING COLONY ON
BALLARD BEACH AND WILL
HOLD A REVIVAL.

Seattle, Feb. 24.—For the purpose of holding a camp meeting the band of religious fanatics commonly known as "Holy Rollers," who have been holding their meetings in a little church under the leadership of T. H. Gurley, have started a colony on Ballard beach. Fifteen families are living there in shacks recently erected, a school house attended by 25 children and in charge of two teachers is already in operation, and several of the "Holy Rollers" are constructing a launch which they will use in building a floating tabernacle.

The tabernacle will be made large enough to hold 1,000 persons, and will be anchored in the water opposite the colony. The camp meeting will be attended by "Holy Rollers" from all over the state.

When the summer season opens hundreds of other "Holy Rollers" will erect tents on the beach in which to live. A temporary meeting house is already in service.

The colonists say they have leased the property.

RELATES STRANGE STORY.

Chicago, Feb. 24.—That she was seized by two men Wednesday, threatened with death, forced to swallow a drug and carried to a house near Lincoln park, where she remained unconscious for 20 hours, is an extraordinary experience related to the police today by Marie McInroe, 19 years old. The story told by the girl resembles in its weird details the story of Miss Gingles, who was bound to a bathtub in a hotel last week. Miss McInroe was about to be married and she said that jewelry given her by her fiancé had been stolen.

WITHDRAWS RESOLUTION.

Sacramento, Cal., Feb. 24.—In the state senate today Senator A. Caminetti withdrew his resolution calling upon the federal relations committee to report at once on the joint resolution calling upon congress to enact a general Asiatic exclusion law. Senator Caminetti explained that the committee substitute recently offered to the senate had been perfectly satisfactory to him.

PARTIAL AGREEMENT HAS BEEN REACHED

Washington, Feb. 24.—A partial arrangement has been reached by the conferees on the naval appropriation bill. Important items that remain in dispute include provisions for keeping half the navy on the Pacific coast, requesting the use of the marine corps on battleships, looking to the establishment of a naval base on the Pacific coast and prohibiting the government from buying powder from a monopoly except in times of "war." As the house adopted it, the last provision of the exception specified "emergency" instead of "war."

The senate amendment appropriating \$250,000 to enlarge the government powder factory and several amendments to improve the Puget sound Bremerton navy yards on the Pacific coast were adopted.

SEEKS THE RELEASE OF MEXICAN EDITOR

San Antonio, Texas, Feb. 24.—The national socialist organization has launched a movement for the release of Antonio P. Arujo, sentenced to the federal penitentiary at Leavenworth, Kan., for being a leader in the recent Mexican revolutionary outbreak. The effort is similar to that conducted in behalf of Moyer and Haywood during their recent trial in Idaho. Arujo, as editor of a Mexican paper, published at Austin, Texas, severely criticized the administration of President Diaz.

JAPS CONGRATULATE THE FLEET

NATIVE PAPERS EXPRESS THEIR
HAPPINESS AT ITS SAFE ARRIVAL HOME.

Tokio, Feb. 24.—Special dispatches describing at length the reception of the American battleship fleet on its arrival at Hampton Roads after its world-grinding voyage, have been printed in the Japanese newspapers, accompanied by congratulatory editorials. The Jiji, which represents the highest thought in Japan, says: "The voyage of the American fleet has created a new epoch in the naval history of the world. The warships were greeted in every port and every country as messengers of peace. Their trip is especially notable as marking the creation of a new epoch in the relations between Japan and the United States."

In recalling the visit of the fleet to Japan the Jiji says: "We extend congratulations to the officers and men of the American fleet who recently were the guests of Japan. They have learned something of the real Japan and we trust will be the medium of spreading a better feeling between the two nations and serve to prevent a renewal of the unkind anti-Japanese talk heard recently in the United States. The cable dispatches telling of the safe arrival of the fleet at Hampton Roads brings recollections of many pleasant days enjoyed during its stay here. All real Japanese join in sending congratulations."

HAS NOT INHERITED A GREAT FORTUNE

Wallace, Feb. 24.—Wallace citizens who are friends of J. D. Cradlebaugh, now in a Denver jail held on the charge of murdering Fred Walton, a prominent oil fellow and business man of this city, who ran away with Mrs. Cradlebaugh from Wallace, are indignant over the reports in Denver newspapers that Cradlebaugh has inherited upwards of \$100,000.

The report giving rise to scores of columns of printers' ink in the Denver Post and other publications of that city, arose from a local publication of the fact that a Cradlebaugh residing in California had written for information concerning the man charged with murder, thinking he might be heir to a sum of money which had been on deposit for several years in a Los Angeles bank. This sum of money amounts, according to inquiry, to \$100,000 instead of over \$100,000. While Denver is congratulating the prisoner on his acquisition of sudden wealth, his friends in this city are raising money to defend him in his coming trial by public subscription.

BELIEVE THEY HAVE RICH HEMATITE ORE

Spokane, Feb. 24.—Experts from Duluth and the great iron ranges in Minnesota will be sent to the mountains in Idaho early in April to make examinations of what is believed by mining men to be rich hematite ore ground. G. W. Thompson of Lewiston, Idaho, recently leased 8,000 acres of mineral lands from the state of Idaho on a basis of 15 cents royalty per acre, and during the next 20 years, and it is announced in Spokane that the Gaffney brothers and S. P. Fitzgerald, who also applied for 13 claims, and Thompson will expend \$200,000 in prospecting on the showings which indicate the presence of iron ore in commercial bodies. It is also learned that Pennsylvania and Minnesota capitalists are backing the project. The development of these lands will mean millions of dollars annually to the mineral output of the state of Idaho, which already supplies about 40 per cent of the total lead produced in the United States.

TWO FEET OF ORE.

Special to The Daily Missoulian.

Wallace, Ida., Feb. 24.—Two feet of gray copper ore carrying high values in silver and some azurite have been opened up in the upper workings of the Rainbow Mining company's property located east of the Argentine mine. While the showing is a splendid one it seems to be the capping of the vein, as much heavy iron and carbonates accompany the ore body, which has but shallow depth at this point. As the upper tunnel was constructed to get the course of the vein, contracts have now been let for the further opening of the lower tunnel which is already in 550 feet. It is anticipated that the lower workings will tap the vein in another 200 feet.

SECURES A DIVORCE FROM STRENUOUS WIFE

Spokane, Feb. 24.—Because his wife bearded the sentinels and invaded the large room of the Order of Foresters, where he was presiding as chief ranger at the trial of a member, broke up the meeting and forced him to go home, and addressing him as "imp" and "Indian," George F. Gillette was granted a divorce from his wife, Anna Gillette, by Judge William A. Hunkeler in the Spokane county superior court. They were married in St. Lawrence county, New York, January 21, 1885, and Gillette declared in his petition, immediately afterwards his wife began abusing him, continuing until life became unbearable. He was finally forced to leave their home in New York following the lodge room episode to escape the ridicule of neighbors and members of the order. By taking him home, the complainant adds, she broke up the trial and he was forced to resign his office, as it was likely his wife would come for him at any time during lodge meetings.
