## CAUGHT ON THE RUN ABOUT TOWN

PEOPLE YOU KNOW AND SOME OF THE THINGS THEY SAY AND DO.

Contractor Oliver of the court house job has been spending a couple of days in town from Spokane. He has been making arrangements to start the work the first of next month, and promises that there will be no delay when once the start is made. "By the first of the month," said Mr. Oliver to a Missoulian reporter, "all of the material will be on the ground except the marble for the interior finish, and that has been ordered, so it will be here before it is required in the work. By putting on a large force of men, with everything on the ground that we need, there will be nothing to prevent the rapid construction of the court house, and I believe we shall be able to show you some of the fastest building that you ever looked at. The material is in good shape, because all of it will be on the ground when we start, and there will be a rapid change in the look of things around the square. We will have just as many men as can be worked on the job, and I look forward to a fine season's work. The delays have been discouraging but they were unavoidable, and I really think that by the end of August we shall be as far ahead as we would if we had pattered along through the winter. Of one thing you may be sure—you will have a fine court house when the work is done."

There is to be a special meeting of the local lodge of the Brotherhood of Locomotive Firemen and Engineers at Firemen's hall, opposite The Missoulian building, at 8 o'clock tonight. The meeting is called in honor of the presence in the city of A. Phillips, fifth vice president of the national organization of the brotherhood. Phillips was notified last night by telegram that Mr. Phillips will be here on No. 16 tonight, and with characteristic energy the boys started out to get the bunch together for a special session this evening. Everything will be a pink tonight and there will be some fast running in order to get a full representation at the meeting. Bonanza lodge is one of the best on the Northern Pacific line, and the boys want to make a showing tonight that will fit recognition of the presence of their distinguished visitor. On that account an urgent call is sent to all members of the brotherhood to be present at the session tonight. "Tell 'em not to wait for the call boy," said Fireman Riley last night, but to be ready to start on time, as the meeting will start according to schedule. We want all the boys on hand and it may be that we will not be able to reach all of them, so tell them to come without being called."

Missoula county's deputies are rejoicing with their contemporaries in other counties over the advance in their salaries which results from the enactment of a wise law by the Eleventh assembly. In this county the advance amounts to an average of \$25 a month, which is not hard to take and which will be used by the boys this season for the promotion of the baseball fund of the city fans—no, yes? But, whether they use the increase in salary for beefsteak or baseball, the deputies are happy, and they have good reason to be. They deserve the raise and they earn the money. If they want to spend it for baseball, Otis Worden will take their names and it will help some. If they don't want to use the additional salary for baseball, that is their business and they are entitled to do as they please. But Otis makes the suggestion merely that the deputies of the baseball team may be kept alive, and not because he expects to get all of this additional wealth. That would be too much. There are plenty of other ways in which the money can be used and that has nothing to do with the case. The suggestion of Mr. Worden is irrelevant, immaterial and has no bearing upon the point at issue, which is that the deputies are, as already stated, glad that their salaries are raised. And so is everybody else. So what's the use of talking about it? Nothing, only that we are all glad, and that's enough.

Industry with a big I is the word that fits City Treasurer Hatheway this week. He is industry, VERY BUSY, cupation taxes to collect in a week or two. He has chased up and down the line, armed with the decision of the supreme court and the city license ordinance, and butcher and baker and candlestick maker have had to contribute to his fund. It comes high but we have to do it; the city needs the money, and we are merry, merry citizens who like to dig up when duty calls. We are paying taxes for the privilege of living and there is no reason why we should not pay more taxes for the privilege—the blessed privilege of working. So Tom Hatheway stalked through the city yesterday with his license receipts in one hand and his bottomless sack in the other and made everybody produce. "Dig, brothers, dig up cash," that was the song he sang. "Dig or the city goes to smash," so the chorus rang. "Dig your dollars, dig them quick," as Tom scooped in the checks. "Dig up, though it makes you sick," and he grinned in a way to vex. But, by Heck, he got the money and now we can do business for the year ending April 1, 1909. If we go lively and get our license paid before the year is out. It's a great game; but don't blame the treasurer; he's only the creature of circumstance; he would not collect the license if he didn't have to. So pay him and look pleasant. Make him think you like it and he'll get real mad.

**RAPHELIE SITS UP.**  
The condition of Superintendent J. M. Rapelie of the Northern Pacific was so far improved yesterday that he was permitted to sit up in bed for a while.

**Notice.**  
To those who contemplate joining the Fraternal Order of Eagles, there will be an initiation of 50 members or more on the third Tuesday in April. W. S. HORD, Secretary.

## "THE GIRL QUESTION" PLEASURES BIG AUDIENCE

"The Girl Question" which appeared at the new Harolds theater last night is a good musical comedy—clean and entertaining from start to finish. That it thoroughly pleased the audience which completely filled the theater last night was evidenced by the manner in which it was received. The music of the play is catchy and pleasing; there are lots of pretty girls—that is they look pretty across the footlights; the costuming is varied,

unique and artistic. There is just enough of a plot to give the play continuity, and it is replete with humor and fun so that the audience is kept in a laughing good humor from the time the curtain rises on the first act until it falls upon the last. Several specialty features are introduced with good effect. Two black-face performers give an artistic exhibition of the old buck and wing brought up to date; "I Hate to Work on Monday," a clever comedy song sung by the typewriter girls, stenographers and post card kiddies, with an interlude played upon electric bells, was warmly received. The Eddie Foy burlesque ballet was a decided "hit," as was also the song, "Dear Old College Days," rendered by a chorus of male voices. The audience insisted upon having several encores responded to by the singers.

Miss Marguerite De Von, as Elsie Davis, a pretty cashier, is an artistic dancer, a fair singer and fills her role in a pleasing manner. Miss Elsie Scott as "Jo" Forster, a waitress, shares honors with the leading lady. Paul Nicholson, as Con Ryan, manager of a New York cafe and leading man, was particularly good in his part. Carl George, as Baron Max von Testmar, proved himself to be "it" when it comes to playing the role of a Dutch nobleman. It was an all-around good show, and every one who witnessed the production last night thoroughly enjoyed it.
