BRIDGE BUILDING IS PROGRESSING RAPIDLY

The south end of the new bridge presents a busy scene these days, for there is a big force at work on the excavation for the Penwell block, which is to be erected at the corner of South Third street and Higgins avenue, and the bridge crew is at work on the south pier of the new bridge. For this reason the spectators who have been hanging over the railing on the north end of the temporary bridge have all gone over to the other end where they can more easily overlook the operations of the bridge builders. Yesterday the piling was again at work putting in the piling for the southern pier and today and tomorrow they will have finished there and the cement filling will be put in. This pier will be the last and as soon as the south abutment is finished and the north abutment strengthened everything will be in readiness for the building of the bridge proper. It is expected that work on the pedestals will be started Wednesday.

HEALTH ASSOCIATION TO MEET HERE IN MAY

A letter has been received by the members of the Woman's club from Dr. D. T. Tuttle, secretary of the Montana Public Health association at Helena, stating that a two days' meeting of the association will be held in Missoula on May 16 and 17. The program of the second day will be devoted to the subject of tuberculosis. The Woman's club is asked to co-operate with the health association in advertising these meetings and to assist in having them well attended. The club will take up the matter at the next regular meeting on Saturday of this week, and will definitely decide on the course of action to be followed.

EXPRESS THEIR SYMPATHY.

By a strange coincidence death overtook John McCabe, the brakeman who was killed while trying to uncouple a train near Ravalli a few days ago, on the same night that his application for membership in the Brotherhood of Railway Trainmen was to have been acted upon by the local organization. News of his death reached the order before the application was called up. The members of the order and those of the Ladies' auxiliary to the B. of R. T. have expressed their deepest regrets for the accident and their sympathy for the bereaved sister and relatives.

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constituting the system. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; unless cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

JUDGE F. C. WEBSTER RETURNS

LARGE ACCUMULATION OF BUSINESS DOCKETED FOR THE COURT TERM.

Judge F. C. Webster of the district court, who has been on a vacation to California, and who returned on Sunday to Missoula, found his court overflowing with business yesterday and immediately turned from rest to strenuous work. There were several new criminal informations filed directly in the district court this morning, a number of hearings in other criminal cases, and then the settling of the cases for trial from both the criminal and civil calendar. Hearing denunciations and arguments in old civil cases took up considerable time also yesterday, and lastly the jurors were drawn and the list turned over to the sheriff's office to be served. The jury will report next Monday morning at 10 o'clock.

County Attorney Mulrooney filed information direct in the following cases:

State against Joseph Brown, murder in the first degree. Brown is accused of killing Robert Gilruth near Lolo on February 28. He was arraigned yesterday afternoon and was given until 2 o'clock this afternoon to plead.

State against Henry McKay, robbery. McKay is alleged to have held up Edward Peterson on March 5. He was not arraigned today, and he was asked for time to secure and consult an attorney.

State against M. H. Pridoux, grand larceny. In the information it is alleged that the defendant unlawfully appropriated to his own use \$200 belonging to W. A. and F. E. Simons. The case has grown out of trouble between Pridoux and the Simons brothers, who were formerly associated in a stage line business on the Flathead reservation. Pridoux will be arraigned March 26.

The following criminal cases were set for trial as indicated: John C. Kelly, burglary, March 25; S. B. Protine, assault in the first degree, March 25; Z. D. Brown, burglary, March 24; P. Murphy, gambling, March 22; O. H. Ratcliff, assault, March 26; Louis May, gambling, March 22.

Two Damage Suits.

Two new personal damage suits were filed with Clerk of the Court Conlon yesterday, both plaintiffs being laborers who sustained injuries while engaged in construction work. Everett Walls brings suit against the contracting firm of Roberts Bros., who were engaged in work along the St. Regis-Paradise cut-off of the Northern Pacific. He alleges in the complaint that on October 21, 1908, he sustained injuries to one leg by being struck with a steam pipe which broke at a defective joint, and as a result will be a cripple for life. He asks for damages \$15,000 and costs.

James H. Arnold filed a similar action against W. E. Dauchy, W. F. Carey and Winston Bros. company, and asks for \$25,000 damages for injury to his right arm, which was afterwards amputated. Plaintiff alleges that while he was working in a pit with a steam shovel crew a rock from an overhanging bank fell and struck his arm. He claims that the defendants are responsible for the accident, as they failed to keep the projecting bank cleaned away to prevent the rocks above from falling on the workmen.

IN THE THEATERS

Homer B. Mason, the jolly leading comedian of "A Stubborn Cinderella" company, is a graduate of the class of 1902 of the Brooklyn Polytechnic institute. He is also a member of the Alpha Chi Sigma fraternity. In every respect Mr. Mason is today just as enthusiastic regarding college as any freshman.

Mr. Mason is quite an athlete, and while at college played fullback on his team for four years, earning an enviable reputation for himself, not only in that game but in field and track athletics as well. While at school Mr. Mason established an intercollegiate hammer-throw record on Long Island that has never been broken, when he hurled the 16-pound hammer 142 feet.

Mr. Mason still follows the game of football very closely and grows enthusiastic when mention of any of the big games is made.

"It is no longer a question of weight that counts in a game of football," says Mr. Mason, "but it is the speediest and trickiest eleven that goes off the gridiron with the big end of the score nowadays."

"Football is a fine game; it is the only sport for men with real blood in their veins."

As a result of his work on the gridiron Mr. Mason today cherishes a souvenir in a damaged left shoulder, which even now he is compelled to keep bandaged most of the time, a dislocation he received when he was earning laurels on the football field.

"A Stubborn Cinderella" will be at the Harnois theater Friday night, March 19.

THE WEATHER

The weather man is still partial to Missoula, as was made evident yesterday. It was a typical spring day, but rather out of place in March. The observations:

PREPARE THE BEST HOME REMEDY

RECIPE FOR RHEUMATISM AND KIDNEY TROUBLE—GIVES PROMPT RELIEF.

The following prescription for the cure of rheumatism and kidney and bladder troubles has no doubt been filled millions of times, viz.: Fluid extract dandelion, one-half ounce; compound sarsaparilla, one ounce; compound syrup sarsaparilla, three ounces. These simple, harmless ingredients can be obtained at any good prescription pharmacy at little cost and are mixed by shaking well in a bottle.

The dose for adults is a teaspoonful after each meal and at bedtime, drinking a full tumblerful of water after each dose. It is stated that this prescription is a positive remedy for kidney trouble and lame back, weak bladder and urinary difficulties, especially of the elderly people, and one of the best things to be used in rheumatic afflictions, relieving the aches and pains and reducing swellings.

A well-known authority states that this mixture acts directly upon the eliminative tissues of the kidneys, gives them power to sift and strain the poisonous waste matter and uric acid from the blood which is the cause of rheumatism.

If your back or sides ache and you suspect kidney trouble it would be wise to try this for a few days.

STARVING WON'T CURE RHEUMATISM

Dieting will not help Rheumatism—indirectly it is harmful. For by taking away the strengthening food you become less able to stand the pain. To diet simply means to "lock the barn door after the horse is stolen." The poisons which cause Rheumatism must be dissolved and removed before the pains will stop or you can expect to be well.

Hill's Rheumatic Pills are made from healing roots and herbs which quickly dissolve the poisons which cause Rheumatism. And then, by strengthening and gently stimulating Kidneys, Liver and Bowels, the poisons are passed from the body and every twinge, ache and pain along with them.

These Pills have never been advertised till now—merit alone has introduced and sold them. We have letters from over 18,000 grateful people who have been relieved from pain and made well by the wonderful remedy.

Hill's Rheumatic Pills have been in use for 73 years without a single change in the formula. They are the only remedy we know which really cures Rheumatism without leaving trouble just as bad in its place. Hill's Rheumatic Pills are purely vegetable. They contain no harmful minerals, such as iodides and silycates, to upset the digestion or weaken the heart. They cure by adding nature to throw off the poisons which cause Rheumatism. It only takes a short time, and you are free from every ache and pain and feel years younger as the deadly uric acid poisons are dissolved and passed off as nature intended.

Determine to know today what the harmless but wonderful healing herbs and roots used in Hill's Rheumatic Pills will do for you.

Test Them Free
We realize that there are hundreds of worthless nostrums on the market—that you may have been deceived into trying them and derived no benefit. If so, you have a right to be suspicious. To all such we will give a liberal sized package of Hill's Rheumatic Pills for a letter or postal describing their case. Address the letter to E. J. Kane, the makers, Dept. 100, Minneapolis, Minn. The package will come prepaid. Pay nothing then or at any time. When you find the aches and pains going, and see yourself becoming better and stronger each day—then you will KNOW and BELIEVE, and will be anxious to continue the remedy and be cured as we are to relieve your suffering.

You can then secure these Pills from your home druggist, George Frelshelmer.

J. H. FITZGERALD'S TOGGERY

When conservative, level-headed business men and professional men pick me out as their tailor it's not a matter of sentiment, but of value received.

There are quite a bunch of young fellows who pay a fancy price to those traveling "expert measure takers" under the impression they're getting something "better."

It's the most unbusinesslike thing they ever did, for the clothes they get are mostly ready-mades in disguise—made over to conform to the measurements sent in.

I want to demonstrate to them that the name Joe Fitzgerald on the label is better from a quality standpoint than any name those fellows put on.

And when it comes down to prices I can skin them all to a finish. Don't forget there are only four weeks to Easter—

And remember it's a good stunt to keep your money circulating at home. Yours truly, JOE, 223 Higgins Ave.
