## IRON WORKS GUARDED BY EMPLOYEES

STAND ALL NIGHT WITH CROWBARS AND HAMMERS TO KEEP RAILROAD MEN AWAY.

Seattle, Wash., March 19.—Twenty-five employees of the Vulcan Iron works armed with crowbars and hammers, stood through an all-night vigil last night in the plant of the company on Fourth avenue waiting for an expected attack on the plant by a pile-driving and track-laying crew employed by the Oregon & Washington Railway company, the Harriman corporation which is engaged in building a line from Seattle to Portland.

Outside the works the employees of the American Pile-driving company, which has the contract for building the pile trestle for tracks over the ground occupied by the Vulcan Iron works in the heart of the manufacturing district of Seattle, was within striking distance of the plant.

Notice was served by the Oregon & Washington on February 1 last, directing the Vulcan Iron works to vacate the premises, owned by the Harriman system, within 30 days. March 1 a notice was served on the company, signed by J. D. Farrell, vice president of the Oregon & Washington, to vacate within 24 hours. When the last notice came, I. Hulme, president, and H. P. Strickland, secretary and treasurer of the company, prepared for emergencies.

The issue between the Harriman corporation and the Vulcan Iron works reached a critical stage yesterday when a pile-driver of the contracting firm built a pile bridge to the property line of the iron works, within 30 feet of the central plant and office of the company, through which the Harriman agents expect to lay tracks within the next two weeks.

"When agents for Mr. Harriman purchased this ground two years ago," said Mr. Strickland today, "the right of way department promised that we would have six months' notice to vacate. The notice was served February 1. Inasmuch as we have 30,000 tons of material on the ground, it was manifestly impossible to comply with the terms of the notice."

## PASSES SECOND READING.

London, March 19.—By a vote of 157 to 122, the house of commons today passed the second reading of the bill giving every man and woman a vote, the only provisions being that they shall be 21 years old and shall have resided three months in their constituency. There is no chance of its becoming a law during the present session of parliament.

## WOMAN AND CHILDREN FACING DEPORTATION

Seattle, Wash., March 19.—Mrs. Annie Majurey, a pretty young woman born in Minneapolis, Minn., and her two children, both born in the United States, face deportation to Canada by the federal authorities on the grounds that they are liable to become public charges. Mrs. Majurey married a British subject, and the couple, after coming to Seattle from Vancouver, quarreled and separated. The humane society brought the matter before the juvenile court. This morning the court turned the family over to the government for deportation.

## ALLEGED MURDERER SENTENCED TO HANG

Seattle, Wash., March 19.—Smiling cheerfully and declaring he had nothing to say, Nick Patrick, convicted of murdering Harry Miller, marshal at Kent, on April 10, 1908, was this morning sentenced to be hanged at the state penitentiary at Walla Walla on May 21. Urged to confess the crime after the sentence, Patrick drew his finger significantly across his throat and said: "What's the use saying anything. They're going to break my neck anyway. I never killed him at all, but you hang me just the same."

## ROOT-GORDON CASE STILL HANGING FIRE

Spokane, Wash., March 19.—The Root-Gordon hearing was not resumed today, the grand jury awaiting the supreme court's ruling as to its right to employ a stenographer to record testimony. Minor cases were considered and several indictments returned. These were against Jack Hart, robbery; Dick Phillips, Joe McCassey, Jack McDonald and Frank Barnes, burglary; and Thomas Loomis, Dollie Bennett and Fred Scaler, brother of "Kid" Scaler, the pugilist, for immorality.

## ROBBERS TERRORIZE THE TOWN

DESPERATE BUT UNSUCCESSFUL ATTEMPT MADE TO LOOT ARKANSAS BANK.

Bald Knob, Ark., March 19.—While seven of their number rode about the streets discharging their weapons and holding the populace in terror, others of a band of robbers worked for more than an hour today in an unsuccessful effort to dynamite their way into the vault of the Bank of Bald Knob, abandoning their task after firing nearly a score of blasts, which demolished the outer door of the safe, but failed to force the inner doors. One citizen was wounded in the parting fusillade of the band as it rode away.

The first explosion aroused the citizens, who emerged from their homes, and were greeted by the bullets of the outposts. They quickly ran to shelter, while the robbers kept up an almost continuous fire, taking chance shots at any one who came within range. In the meantime those at work at the bank building continued to explode dynamite, but without success, other than to partially wreck the building as well as adjoining structures.

Before beginning operations the robbers destroyed telephone communication out of Bald Knob but overlooked a railroad telegraph wire. A message to Augusta, over this wire, brought a posse of citizens from that place, who joined several other posses hastily formed here, and immediately started in pursuit of the band.

## UPRISING IN CUBA PROVES A FAILURE

Havana, March 19.—The uprising in Santa Clara province that evidenced itself by the defection of seven members of the rural guard who fled to the woods with their arms and horses has resulted in complete failure. Early today the government received a dispatch from General Montenegro, at Remedios, saying that Sergeant Cortes, his two sons and the four other men making up the fugitive party, had come in voluntarily and surrendered at Pedro Rojas.

The prisoners probably will be tried before a special courtmartial.

## INSANITY IS CLAIMED.

Special to The Daily Missoulian. Wallace, Idaho, March 19.—The last feature in the "Sailor Kid" murder case is taking place today in the attempt by the prosecution to prove the recently acquitted man, Thomas McDiarmid, criminally insane as the decision of the jury in his murder trial decided last week would tend to indicate. The defense is presenting its case today and the prosecution will answer Monday. The singular part of the case is that the defense is using the alienist in this hearing who testified in the recent trial for the prosecution that the "Sailor Kid" was not insane.

## GET NINTH JUROR.

San Francisco, March 19.—Theodore Binner, an ornamental decorator, was passed today to occupy the seat of the ninth juror in the trial of Patrick Calhoun, president of the United Railroads. During today's session of the trial 10 other talesmen were interrogated and disqualified because of opinions.

## THEORY OF ASSASSIN SCOUTED BY COMPANY

Special to The Daily Missoulian. Wallace, Idaho, March 19.—The bodies of the three men, who were blown to atoms in the explosion of the powder factory three miles from here, are represented by a few pieces of mangled flesh in the bottom of a nail keg awaiting the decision of the coroner's jury.

A report starting from Spokane to the effect that the management of the plant believed it had been wrecked by some individual who had a grudge against it is regarded as ridiculous in the Coeur d'Alenes, where the parties who opposed it are well known ranchers and prospectors in the immediate vicinity of the mill. The reason given as most likely is that more powder than was allowable, according to the terms under which the powder company succeeded in evading an injunction, was at the time stored in the mill. These terms were that not over 1,000 pounds should at any one time be stored in the mill, while something between three and four tons were on hand.

The management states that all legitimate claims against the company will be paid.

## CONDITION CRITICAL.

Los Angeles, March 19.—The condition of Mme. Helena Modjeska, the famous tragedienne, is considered very critical. But little hope is held for her ultimate recovery.

## HAVE NARROW ESCAPE FROM DEATH

TWENTY-FOUR FAMILIES ARE RENDERED HOMELESS BY BURNING OF FLATS.

New York, March 19.—More than a dozen persons were injured and members of 24 families had narrow escapes from death by fire when a seven-story twin apartment building known as the Fifth Avenue apartment, at 24 Central Park south, was burned early today. The loss is about \$250,000. The building was separated from the Hotel Plaza only by a smaller building and the hotel office was made a hospital for the injured.

When the firemen reached the scene men, women and children were sitting on window ledges or hanging out of the windows gasping for breath, and others, overcome by smoke, were being held in position by their relatives.

Beginning in the base of the elevator shaft at No. 24 the flames went up the shaft and spread out on the fourth, fifth, sixth and seventh floors, the occupants of which fled to the windows without waiting to dress. Firemen raised extension ladders to the fourth floor and went by scaling ladders to the sixth.

An hour and a half after the fire started all the floors collapsed and several firemen barely managed to reach the windows as the floors dropped out from under them.

**A Burnt Child**  
 Dreads the fire. The dread is wholesome, but not the burn; that can be healed and instantly relieved by applying Ballard's Snow Liniment. Be prepared for accidents by keeping a bottle always in the house. Best for sprains, bruises, cuts, scalds, rheumatism, neuralgia, bunions—any and all aches and pains. Price 25c, 50c and \$1.00. Sold by George Frelsheimer.

According to an English Orientalist the taxicab was known to the Chinese at least 1600 years ago.

# Big Horse SALE

We will sell at public auction Saturday, March 20, at 2 o'clock p. m., at

## Gannon & McLeod's Barn MISSOULA 30 to 50 Logging Horses

Persons needing draught horses will have an opportunity to purchase some remarkably fine teams.

## BIG BLACKFOOT MILLING CO.

# ELECTRIC POWER IS POPULAR

The growth of the use of the electric motor in Missoula has been remarkable, due to cheap rates, efficient service and the great adaptability of electricity as a motive power. The following is a statement of the increase in the use of electric motors during the past three years. The list does not include any motor of less than one horse-power.

March 1, 1906—256 H. P.  
 March 1, 1907—313 H. P.  
 March 1, 1908—408 H. P.  
 March 1, 1909—803 H. P.

Let us figure with you on your power proposition.

## MISSOULA LIGHT & WATER CO.

## DR. PRICE'S WHEAT FLAKE CEREAL FOOD

is easily converted by the digestive organs and supplies the nutritive wants of all parts of the body.

For sale by all Grocers

## No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Price's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so gives health and strength to the whole body.
