## MARKET MOVEMENTS ACTIVE

### STOCK TRANSACTIONS MANIFEST A DEGREE OF VIGOR OF NOTABLE INFLUENCE.

New York, March 31.—The stock market today manifested a degree of vigor that proved of notable influence in forming speculative sentiment and in confirming the feeling of confidence. The general outlook is held accountable for the starting up of values and the reviving of speculative interest. With steady resistance to news of discouraging conditions in business day after day, the conviction has been forming that operations in the stock market, so far as they might be prompted by such developments, had been concluded in the period of depression that has passed. There is admittedly a large demand, both speculative and investment, which has been waiting for an assurance that the effects on securities of unfavorable factors have been measured. The action of the stock market, in view of some of the late developments, may mark the culmination of depression and the turning point of improvement.

Such a development was the open cut in steel products by the United States Steel corporation, marking the abandonment of the doubtful policy of ignoring the lack of demand by holding prices at artificial levels. The small profits that must result from business booked at prevailing prices, the danger of labor disputes from cutting of wages, the prospect of pro-longer anarchy while the Payne tariff bill is being considered are pointed out and have prompted persistent efforts by the bear element in speculation to force down prices. With the failure of these efforts the waiting demand for stocks has become impatient and fearful that opportunities for buying at cheaper prices might be slipping away from them. While the settlement of the Balkans question and the coming release of banking facilities abroad from that cause and from the completion of the April settlements, another period of extreme plenty of money supplies seems assured, and this is a striking factor in the speculation.

Bonds were firm. Total sales, par value, \$6,240,000.

United States 3s registered, advanced 3/4 per cent on call.

## TAKING OF EVIDENCE TO COMMENCE

### REAL TRIAL OF PATRICK CALHOUN MAY COMMENCE IN THE NEAR FUTURE.

San Francisco, March 31.—The long drawn out trial of Patrick Calhoun, president of the United Railroads of San Francisco appears to be approaching a stage where the taking of testimony is in sight. The exercise of peremptory challenges today leaves but two jurors unsworn to try the issue, and it is the general expectation that these will be selected before the expiration of the present week.

Otto T. Heidebracht, a retired furniture designer, was passed temporarily by both sides today to occupy the 11th seat in the box after two jurors had been peremptorily challenged. Superior Judge Frank J. Murasky, presiding over another department, issued a citation today directing three attaches of the district attorney's office and a police detective to appear before him next Monday and show cause why they should not be punished for contempt for having prosecuted the search of the United Railroads offices after they had been served with an order to desist.

## EMBRYO REVOLUTION NIPPED IN THE BUD

St. Petersburg, March 31.—The police of this city have nipped in the bud a plot to start an uprising in the Caucasus. Yesterday they arrested 70 men including several army officers, who as members of a revolutionary organization, were engaged in providing arms and ammunition to the leaders.

A large number of military rifles and thousands of cartridges destined for the Caucasus fell in the hands of the authorities. The raid was made in the center of the city in the Nevski Prospect, where the band had secret headquarters. The police obtained signed documents betraying all the details of the movement.

## NO CHANCE FOR RECOVERY.

Los Angeles, March 31.—Madame Modjeska was not removed from her home at Bay Island today to a Los Angeles hospital as was intended by the physicians. Although a special train was in readiness to transport her to the local hospital, the condition of the aged actress was so serious that it was deemed inadvisable to make the attempt. There is little or no chance for her recovery.

## When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain. Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. If you want a book that tells all about women's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Advice—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps.

## CELEBRATES CLOSE OF BATTLE

### SAN FRANCISCO REJOICES AT END OF BATTLE AGAINST BUBONIC PLAGUE.

San Francisco, March 31.—San Francisco celebrated officially the close of its campaign against bubonic plague tonight by giving a public dinner to Dr. Rupert Blue of the United States marine hospital service and his corps of executive officers. Four hundred citizens gathered in the big ball room of the Fairmont hotel as an expression of their appreciation of the work done by Dr. Blue and his assistants.

The room was appropriately decorated in red, white and blue bunting, mingled with a profusion of California flowers.

Among those present were: Governor Gillett, Mayor Taylor of San Francisco; Dr. Martin Regensberger, president of the state board of health; Dr. Philip Mills Jones, secretary of the California State Medical society; Dr. N. K. Foster of the state board of health; Surgeon W. C. Hobday of the Angel Island quarantine station, and Surgeon H. W. Austin of the San Francisco city board of health.

Impromptu speeches were made by the following: Dr. Blue, Homer S. King, chairman of the citizens' health committee, who presided; Charles S. Wheeler, who acted as toastmaster; Governor Gillett, Mayor Taylor, Dr. Regensberger, Dr. T. W. Hintington of the San Francisco board of health, Dr. Philip M. Jones and Walter McArthur, a prominent labor leader.

At the close of the dinner, Mayor Taylor on behalf of the citizens of San Francisco presented Dr. Blue with a handsome gold watch, bearing the inscription:

"To Rupert Blue, past assistant surgeon, U. S. P. H. and M. H. S. from the citizens of San Francisco and M. H. S. from the citizens of San Francisco in grateful recognition of his services to the city while in command of the sanitation campaign of 1908."

Dr. Blue was much affected by the tribute and spoke a few words of thanks.

## LARGE NAVY FAVORED BY ENGLISHMEN

### MASS MEETING IS HELD IN LONDON AND EXPRESSION OF OPINION IS GIVEN.

London, March 31.—A crowded meeting, typical of those being held everywhere in England now for a greater cause, assembled at the Guild Hall this afternoon under the auspices of the London chamber of commerce. The lord mayor acted as chairman and he was supported by several hundred men prominent in financial, commercial and legislative circles. The speeches all were of one tenor. The sentiments of the meeting were accurately voiced by Sir James Fortescue-Flannery in this sentence:

"Great Britain can only walk in peace with Germany provided our preparations for naval defense are absolutely and beyond suspicion superior to hers."

A. J. Balfour made a stirring appeal for the immediate laying down of four additional Dreadnaughts in which he foreshadowed that the naval program for 1910 would have to be for eight ships irrespective of the four conditional vessels in which case Great Britain, unless the government yielded to the popular demand, faced the necessity of building a round dozen Dreadnaughts during the coming year. Mr. Balfour dwelt with emphasis upon the fact that both the United States and Germany were expending more than Great Britain this year on naval construction. Resolutions pledging the government all the financial support necessary to provide immediately for extra Dreadnaughts were adopted by acclamation.

## TOOK LION'S SHARE OF THE STOLEN LOOT

Los Angeles, March 31.—With five men in the county jail awaiting trial on charges of burglary for the robbery of the First National bank of Monrovia of \$23,700, and such a confessed participant or accomplice, the sheriff's office and Pinkertons have turned their efforts in a new direction. They are seeking a sixth member of the gang, who, according to the others, cheated the latter out of a large part of the loot.

The men now in jail are Charles S. Martin, lock expert; Ernest Sundin and A. H. McAllister, dealers in umbrellas; George F. Yohn and Allen George Beatty. About \$13,000 of the stolen money has been recovered. Martin described in detail today the distribution of the money in which he said the mysterious stranger outwitted the rest and carried away the lion's share. He is alleged to have "shifted" several \$500 bills for fifties, and made away with a \$1,000 bill.
