The officers then withdrew and sent for help.

Dur Fleet is Home!

And all the nation's navy-mad.

And nearly all the nation's eading Admiral Robley D. Evans' remarkable series of articles about the Fleet—the "ritics"—the big guns—the best art behind the guns—the best art practice on earth—the lingers inside and outside our hips—how our fleet and our men compare with those of other nations?

This month the Admiral writes about the "Dangers that Threaten Our Battleships in Action."

For the first time in the history of the navy a man who has held the highest possible naval position is telling us everything we want to know about this important and interesting subject. President Roosevelt has referred to Fighting Bob's writings as "lessons in practical patriotism."

Good orchard; nice cool water from mountain spring in house and barn; small trout stream; good picnic grounds; plenty of wood and timber. For a half-way house, now you sit up and take notice; to accommodate business or pleasure seekers, could it be compared with?

You can't sleep on this if you want to. We have sold several outside places, and as this is a real estate bargain counter, snaps like the above don't last long.
