

### "WHITE SLAVE" LAWS ARE NEEDED

STATES ARE GRADUALLY AWAKENING TO NECESSITY OF CHECKING BUSINESS.

Chicago, April 8.—State legislatures are rapidly supplying the laws needed to punish the capture and sale of girls, a traffic which has come to be known as the "white slave trade." North and South Dakota have passed laws like the Leader bills pending in the Illinois legislature, and Minnesota, Iowa and Michigan are likely to do so soon.

In South Dakota the legislation followed close upon the message of Governor Vessey who uttered this warning: "Our scattered population and the absence of large cities, has heretofore left us free from a crime which has now begun to make its appearance. I allude to the crime of procuring young girls for immoral purposes. For this crime against the foundation of society, I recommend that you provide the most drastic penalties. The penalty should not be less than 25 years in the penitentiary, with corresponding penalties for all accessories."

In North Dakota credit for the legislation is largely claimed by Representative Mitho of Doneybrook who is a candidate to succeed Senator McCumber. In Iowa Senator Saunders of Council Bluffs introduced a bill aimed at one factor in the appalling traffic for the recruiting of disorderly houses. In Michigan Representative Frank C. Miller of the house committee on judiciary is preparing bills. In Illinois the bills proposed first by United States District Attorney Parkin in an article in Woman's World or "Practical Means of Protecting Our Girls" have been indorsed with slight changes by the committee on legislation appointed by the Woman's World, and by representative organizations, including the Illinois Vigilance association and various clubs, the Union League club, Frigouin club, City club, Hamilton club, Press club, Jefferson club, Citizens association, B'Nal B'nith.

In Tennessee the legislature is to reconvene this month and white slave legislation probably will be taken up. In most states, however, the legislatures have adjourned. Governors of those states, which include Kansas, Vermont, Ohio, Indiana and others have written to the committee on legislation that because of the adjournment they could do nothing for the present, but most of them took pains to add that the subject was one demanding attention. Emergency legislation is being urged in all states where the legislative session is not yet ended. The committee on legislation issued a statement regarding the situation as follows: "There have been exposed by federal and state prosecutors in Chicago facts proving that an appalling traffic in girls exists, a capture, harter, sale and ruin of daughters of American homes in numbers running into tens of thousands annually, a systematic hunt, seducing and procuring of girls. This traffic exists chiefly for lack of law or inadequacy of law or punishment provided which would suppress the principal factors in this predatory traffic. Federal laws now are protection of alien girls but states must protect the girls of American homes. Innocent girls are held to depravity by pretended debts; others by conspiracy with cadets who live off the profits of white slave prostitution. Therefore we regard the situation as that of an emergency, appalling facts of a systematic traffic heretofore unknown confronting us with knowledge that no adequate punishment is provided by most states as a check upon that traffic, and we appeal to members of state legislatures to enact without delay drastic laws which shall safeguard our daughters against procurers, who now menace their honor and lives, and the happiness of our homes."

### EVASION OF THE LAW MUST STOP

GOVERNOR HUGHES PLANS TO STOP VIOLATION OF PRIZE-FIGHT STATUTE.

New York, April 8.—New York's many "fight clubs" which have for some time past conducted bouts up to 10 rounds, practically un molested, under the name of athletic clubs to which members only are admitted to "boxing exhibitions" are to have a clash with Governor Hughes. Sporting men who recall the governor's vigorous fight against racing are wondering what will happen if he carries out the crusade which he has in mind.

Under the present laws the police are almost powerless but the governor, it is understood, is preparing to bring about the passage of legislation which will place the authorities in a more advantageous position. He has been in communication with both Commissioner of Police Bingham and District Attorney Jerome.

A letter from Commissioner Bingham was sent to Albany yesterday and while it has not been made public it is believed to contain recommendations for the new legislation.

Mr. Jerome, when seen yesterday, said that he was not officially aware that prize fights were being held in the city.

### FIND MUCH AMUSEMENT IN THROWING PAPER

Harrisburg, April 8.—After one of the most extraordinary sessions ever held by the house, lasting until sunrise, the fate of the bill to codify and revise all the school laws of the state still hangs in the balance.

### DISCOVERY IS IMPORTANT.

Berlin, April 8. The latest intelligence from German Southwest Africa says the discoveries of diamonds at Luderitz Bay are more important than at first supposed. Attempts to bore for water led to the finding of blue earth pockets containing diamonds similar to the Kimberley and other South African stones.

### MUCH DAMAGE REPORTED.

Toronto, Ont., April 8.—Reports of damage from the storm are coming in from all parts of western Ontario. At Hamilton several buildings were wrecked and many persons were injured. One man was blown from the roof of a building. Several business houses were wrecked at St. Catharines. A school house at Guelph was completely demolished.

### CONWAY GETS POSITION.

Helena, April 8.—The state board of examiners has appointed J. B. Conway of Dillon to the position of public accountant, a post created by the recent legislature. He will examine the accounts of all state institutions.

### MARKET MOVEMENTS OF THE DAY

TRANSACTIONS IN SECURITIES RECORDED ON THE NEW YORK STOCK EXCHANGE.

New York, April 8.—The stock market gave every evidence at an early stage of a disposition to curtail operations on the eve of the three days' recess. The occasion was seized, however, by numerous pools to rush into prominence innumerable favorites and to push them upward by violent advances. There was little even in the way of rumors to explain the appearance of stocks which have stood in the background during all the period of activity in the stock of larger issues and more representative character. Some others have not appeared on the tape at all for days or weeks past. One of the day's news reports was that Hughes' commission to investigate exchanges had completed its report. Whether the unostentatious appearance of the announcement and the astonishing variety of the day's movement in obscure and pooled stocks had any connection is an interesting subject for conjecture, but the market showed its recent disposition to ignore bad signs. Much encouragement is felt over the marked improvement in the government finances, largely by reason of the expansion in customs receipts. The United States treasury, in consequence, finds itself in such a condition that an early issue of government bonds is considered unlikely.

### Grain and Provisions.

Chicago, April 8.—There was no such strain on the market today as was noted in the previous sessions. At times, however, the market displayed considerable activity. Initial prices were a shade to 1/2c below the final figures of yesterday, May being at \$1.25 to \$1.25 1/2, and July at \$1.11 1/2 to \$1.11 1/2. The big volume of business was in the July delivery.

After May had sold off to \$1.24 1/2 and July to \$1.11 1/2, sentiment suddenly became bullish again. Within the space of three minutes July had advanced to \$1.12 1/2@1.12 1/2, and May to \$1.26 1/2. The buying furor subsided as quickly as it had developed, and prices soon reacted again on realizing sales. Distant deliveries, however, were relatively much stronger than May or July, and showed only slight declines from the extreme high points. The market closed unsettled, the May and July deliveries being lower and September and December higher compared with the previous day's close. Final quotations on May were \$1.24 1/2, July closed at \$1.11 1/2@1.11 1/2.

Sharp declines occurred in corn prices owing to the heavy realizing sales, particularly for the July option. One leading concern is said to have sold more than 1,000,000 bushels of that option during the day. May sold between 65c and 67c and July between 55c and 56 1/4c. The loss was weak with May off 1/2c at 65c. July was down 1/2c at 55c.

Oats experienced a further break in prices, chiefly in sympathy with the slump in corn. The close was weak with prices declining to 1/2c lower compared with the previous close. May oats closed at 54c and July at 47c.

### Chicago Livestock.

### AMENDMENT AROUSES SERIOUS OBJECTION

Chicago, April 8.—Unless all signs fail there will shortly be a gathering in Springfield of railroad attorneys who have won their laurels as lobbyists. It is not unlikely that the presidents and directors of other roads, whose tracks enter the city, will privately confer a few maledictions upon the heads of Messrs. Harriman and Harahan.

The cause is an amendment to section 25 of the cities and villages act which will be introduced in the senate tomorrow at the instance of Mayor Busse as a further move toward the electrification of the Illinois Central suburban service which is now hanging fire. The amendment reads:

"And prescribe by ordinance the motive power by which cars or trains may be operated within the limits of such city or village and change the same whenever in their judgment such change is necessary."

It is said that this step is the direct outgrowth of Mr. Harriman's suggestion that the city pay half the expense of the proposed improvement.

"I'd Rather Die, Doctor, than have my feet cut off," said M. L. Bingham, of Princeville, Ill., "but you'll die from gangrene (which had eaten away eight toes) if you don't," said all doctors. Instead—he used Bucklen's Arnica Salve till wholly cured. Its cures of Eczema, Fever Sores, Boils, Burns and Piles astound the world. 25c at G. Frelsheimer's.
