THE MARTIN COMPANY

MARKET MOVEMENTS OF THE DAY

TRANSACTIONS IN SECURITIES RECORDED ON THE NEW YORK STOCK EXCHANGE.

New York, April 23.—There was some calling of loans going on today by the banks in search of renewed accommodations, while the violent effect on the call loan rate apparently had the effect of inducing some speculative liquidation. The call loan rate touched 3 per cent, which is higher than the rate has been since the first week in January. The sales for foreign account overbalanced the purchases. The calling of loans by the banks evidently was for the purpose of meeting the demands on the resources incident to the successive issues of new bonds. Railroad corporations have figured chiefly in these new issues, but the announcement today of the date of \$5,000,000 bonds by the Corn Products company brought the industrialists into the representation. Estimates of the week's currency movement indicate that there has been a substantial addition to the cash holdings of the banks in spite of the \$2,500,000 of gold shipped abroad. Withdrawals of \$2,500,000 gold from the sub-treasury for export was announced late in the day. The closing tone of the market was generally weak and showed losses for the day.

Bonds were irregular. Total sales, par value, \$8,078,000. United States bonds were unchanged on call.

Grain and Provisions.

Chicago, April 23.—The fresh break in wheat occurred shortly after the opening, which was very irregular with prices 3/4c lower to 3/8c higher. The advance at the start was due chiefly to a sharp rally at Liverpool, following considerable weakness there early in the day. Talking the advance in the English market as an indication of a rally here shots plunged to cover on first trades and prices were given a quick upturn. July opened at 1 1/16c to 1 1/16c and May at 1 1/8c to 1 1/8c. Three or four leading commission houses, which were the principal sellers yesterday renewed their selling operations and the market became extremely weak. Early buyers switched to the selling side, and as prices declined fresh stop-loss orders were reached, which helped the downward movement. Before the decline was checked July had sold off to \$1.08 1/2 and May to \$1.20 1/2, and September to \$1.01 1/2. December had 'dropped to 98c. Covering by shorts then caused another rally and during the remainder of the day a much steadier feeling was manifested. Delay to seeding in the northwest, due to cold weather, was the chief bullish influence today. News in general was favorable to the bears. The close was firm with July at \$1.04 1/2 and May at \$1.22 1/2, and September at \$1.02 1/2. May corn opened at 70 1/2c to 70 3/4c, and July at 68 1/2c to 68 3/4c. Before the end of the first half hour May had 'dropped to 67 1/2c and July to 66 1/2c. At the close prices were still 3/4c to 1 1/2c below yesterday's close. May closed at 68 1/2c and July at 67 1/2c. Oats followed the trend of the corn market. At the close prices were only a shade to 1/2c under yesterday's close. Provisions closed a shade higher to 7 1/2c lower.

A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles. Every woman ought to know that she may obtain the most experienced medical advice free of charge and in absolute confidence and privacy by writing to the World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the Lavalin Hotel and Surgical Institute, of Buffalo, N. Y., for many years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy. The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription. IT MAKES WEAK WOMEN STRONG. SICK WOMEN WELL. The many and varied symptoms of women's peculiar ailments are fully set forth in Plain English in the People's Medical Adviser (1008 pages), a newly revised and up-to-date Edition of which, cloth-bound, will be mailed free on receipt of 31 one-cent stamps to pay cost of mailing only. WILLING TO ASSIST IN THE WORK

DIRECTOR OF AGRICULTURAL STATION IS INTERESTED IN IRRIGATION.

Spokane, April 23.—John A. Craig, director of the Oklahoma agricultural station at Stillwater, writes to R. In-singer, chairman of the local board of control of the national irrigation congress, that he will do everything in his power to assist in making the 17th session in Spokane, August 9 to 14, the most successful in the history of the organization, adding: "If I go to Portland to attend the annual convention of the American Association of Agricultural Colleges and Experiment Stations, August 18 to 20, which it is likely I shall do, I shall be very glad to make one of the party you have in view to visit the Washington and Idaho state colleges at Pullman and Moscow. In the meantime, if there is any way in which I may be of assistance to you to help the success of the meeting please let me know." Mr. In-singer announced that more than 20 agricultural colleges and experiment stations in various parts of the United States have promised through their directors that they will attend the sessions of the irrigation congress in Spokane and the college association at Portland, also visiting the experiment stations at Pullman and Moscow, where they will be entertained by the staff. He added: "We are glad to have Professor Craig's assistance in this great work, and we believe that his endorsement of the plans we have in preparation for the entertainment of the delegates and visitors will be the means of bringing others from Oklahoma. We have been promised several large delegations from the southwest as well as the eastern, middlewestern, southern and northwestern states, and we have every reason to believe that the congress in Spokane will be the most interesting as well as the best attended since the founding of the organization."
