

AFRICAN NEWSPAPERS ARE ANGRY

CLAIM THAT ROOSEVELT IS SHOWING PARTIALITY TO AMERICAN CORRESPONDENTS.

Kapiti Plains, British East Africa, April 24.—The first night of the Roosevelt expedition under canvas in Africa was spent in the elaborate camp set up for the party near the railroad station at Kapiti Plains. It was without incident.

No decision has been reached as yet as to when the expedition will leave here. Some of the baggage sent by the Smithsonian institute was left behind at Mombasa, and this fact probably will cause a delay in the start of the shooting trip of two or three days.

Mr. Roosevelt, who arose this morning in splendid spirits, has forbidden all the members of his expedition to give out any information regarding the future plans or movements of the party.

The Mombasa Standard published yesterday a violently worded attack upon F. J. Jackson, the acting governor of the protectorate, and Mr. Roosevelt for allowing only representatives of American newspapers to accompany the Roosevelt special train from Mombasa to Kapiti Plains. This attack is copied today by the Nairobi newspapers and it is said the imperial government has asked an explanation from the local authorities for this exclusion of English newspaper men. An exception was made in the case of a representative of an English news agency, who was allowed to accompany the special.

DISSOLVES INJUNCTION.

KANSAS CITY, Mo., April 24.—Federal Judge Phillips here today issued an order dissolving the temporary injunction recently obtained by the circuit attorney at St. Louis in the state courts to prevent the 18 railroads entering Missouri from returning to the 1-cent passenger rate. Judge Phillips ruled that unless state officials and courts kept out of the case they would be held in contempt.

FILES DEED FOR LAND.

Dillon, April 24.—The Gilmore & Pittsburg Railroad company this morning filed 13 deeds for land with the county clerk. The land involved is on Horse Prairie and was bought for right of way. The deeds are made out to W. A. McCutcheon, trustee, The Gilmore line is building from Armstrong, Mont., on the Oregon Short Line, to the Salmon country, in Idaho.

HAS APOPLECTIC STROKE.

Berlin, April 24.—A dispatch received here from Bozen, Tyrol, says that Heinrich Conrad, the former director of the Metropolitan opera house in New York, suffered an apoplectic stroke on Thursday. His condition is considered serious, as he has not recovered consciousness.

WASHINGTON NEWS

Washington, D. C., April 24.—Lands in Montana aggregating 689,000 acres, and 675,000 acres in Wyoming, withdrawn from public entry by the interior department for water conservation and irrigation projects in 1908 and 1909, have been restored to the public domain by order of Secretary of Interior Ballinger. The Montana restorations are as follows:

Four hundred thousand acres in the Bozeman and Billings land districts, withdrawn for the Yellowstone irrigation project.

Two hundred and fifty thousand acres in the Helena, Bozeman and Great Falls districts, which were withdrawn for the conservation of the water resources of the Missouri river.

Nineteen thousand in the Kallispell district, which were withdrawn for the conservation of the Swan river.

In Wyoming the following lands have been restored to entry: Three hundred and twenty-seven thousand acres in the Evanston land district, which were withdrawn for the Colorado river storage reclamation project.

One hundred and forty-six thousand acres in the Cheyenne district, which were withdrawn under the North Platte irrigation scheme.

Two hundred thousand acres in the Lander and Buffalo districts, which were withdrawn under the Yellowstone irrigation project.

In each restoration the department took its action on reports from its agents that the interests of the government no longer required the withholding of the land from settlement and in view of the brief duration of the withdrawal, the department has waived the usual publication notice limiting the time for settlement and entry.

Announcement is made at the treasury department that the National City bank of New York City has been approved reserve agent for the Whitefish First National bank, and the Anglo and London-Paris National bank of San Francisco, Cal., as reserve for the American National of Helena.

In his speech in the house on the tariff bill, in which he spoke particularly for the protective duty on wool and hides for the Montana industry, Representative Pray gave a mass of interesting statistics on Montana's position in the industry. Mr. Pray said:

"Montana's woolgrowing industry represents the result of many years of untiring, often unprofitable work; of close attention to detail; of obstacles patiently removed; of difficulties overcome by sternest effort. In its inception it was much as it was in the days of old-migratory, unstable, governed by chance. Gradually it has become an industry based upon intelligent, liberal principles that apply to every properly conducted commercial enterprise. Among the factors entering into the profit and loss calculation none is so inexorable as the climatic conditions under which sheep farming in Montana is carried on. The necessity of providing shelter and

food for the flocks during severely inclement weather adds enormously to the primary cost. In the year ending March, 1907, with its unusually severe winter, no less than 727,000 sheep died from disease, cold, and other unavoidable causes. In the same period the loss from the like ills all through the United States averaged 6 per cent of all the flocks. In this and in other important particulars the sheep-farming industry in this country can only be compensated for through the protection by proper import duties."

Continuing the Montana representative said that although the sheep industry of Montana had yielded a profit of \$1,385,000 in 1907, it suffered a loss of \$365,000 for 1908, bringing its total net earnings for the two years to \$1,020,000.

Pleading for the protection of those working in the industry, Mr. Pray gave an illuminating mass of statistics comparing the wages in Montana with those in Australia, New Zealand, Argentina and Cape Colony. "Whether for skilled or for unskilled labor, the wages of those on the Montana sheep ranches are higher than anywhere in the world," he said. Shearers average \$3 a day; herdsmen \$40 a month and board; ranch help, \$35 a month and board; cook, \$30 a month and board, all including lodging. He thought it doubtful if there was any other industry that could "make a better showing in behalf of its employes." On the other hand in Australia and New Zealand wages averaged \$17 a month for herdsmen; 5 cents a head for shearing, against 9 cents in Montana; 25 cents the cost of running a head of sheep a year, as against \$1.11 in Montana. In Argentina Mr. Pray said the herders received \$15 monthly wages; it cost 4 cents to shear one sheep and 39 cents a year to run one sheep a year. In Cape Colony the wages were about the same and the cost per head per year 36 cents, because of increased land values. Mr. Pray said the cost of tending to one sheep a year in this country, which averaged \$1.40, did not include the cost of winter feed, which he estimated to be from \$1 to \$1.50 additional per head.

Mr. Pray then branched off into a lengthy discussion of the effect of recent tariffs on the sheep industry of the country, showing that under the act of 1883, wool production had fallen off 17 per cent and the number of sheep 16 per cent. Under the courts' decision that broken tops could be admitted as waste which he declared were really first class wool, Mr. Pray said that these imports under the 1882 act had increased from \$664,694 to \$3,447,201. McKinley's tariff had increased the home production of wool to 10,000,000 pounds, valued at \$180,000,000 sheep, from 1890 to 1894. Then came the Wilson tariff with its disastrous results because it cut down the duty to nothing. As a result wool production decreased 50,000,000 pounds in this country and the number of sheep 17,410,000, while wool imports ran up to 48,119,000 pounds of first-class wool; 29,717,000 pounds of second-class and 14,445,000 pounds of third-class, a total of 81,535,000 pounds. The Dingley law had brought imports down and home production up, from all of which Mr. Pray deduced that with protection the wool industry is prosperous, while without it the industry will languish.

Mr. Pray denounced the reduction of the wool duties by the ways and means committee from the present rate of 30 cents a pound. It would result in the importation of broken tops or shabby waste, dextrously mixed and handled in with first-class wool, to the disadvantage of the Montana industry. It would prove an appreciable loss to the domestic grower, who was already handicapped in foreign competition because of natural conditions. Were the "skirting clause" removed from the bill, "it would be something like a fair deal" for the Americans, even with the reduced duties, declared Mr. Pray.

Mr. Pray saw no reason for placing hides on the free list, saying the present duty of 15 cents was a deserved protection to the industry of this country. Shoe, harness and leather goods manufacturers and tanners would be the beneficiaries of the reduced duties, all of which have protection in the bill ranging from 5 to 50 cents, and he considered it a matter of justice to the cattle raisers that they should have some degree of protection.

The senate confirmed George A. Tusler as postmaster at Terry.

HELENA BOND CASE IS ARGUED

LITIGATION OVER WATER WORKS PROPOSITION IS IN SUPREME COURT.

Helena, April 24.—The supreme court today handed down four opinions and heard extended arguments on the right of the city of Helena to issue \$600,000 water-works bonds for the purpose of installing a municipal water plant. The latter was taken under advisement. In the suit of Quong Wing against the treasurer of this county, involving the constitutionality of the occupation tax for laundries, the court holds that the exemption of women from its payment, does not invalidate the law. Therefore women laundresses need not pay the imposition, while all others must.

MARKET MOVEMENTS OF THE DAY

TRANSACTIONS IN SECURITIES RECORDED ON THE NEW YORK STOCK EXCHANGE.

New York, April 24.—The activity of the stock market today was attributed in a large part to covering operations by bear speculators, who sold stocks freely yesterday. The news from Constantinople was sufficiently sensational and the foreign securities market sufficiently indifferent to suggest to the bear party that they were in a hazardous position, with obligations to deliver stocks of which prices refused to decline. The securities market abroad seemed to take a favorable rather than an apprehensive view of the course of events in Turkey, indicating the preference of the financial powers for the ascendancy of the liberal element in Turkish affairs.

The announcement late yesterday of a \$2,000,000 gold shipment to France opens up a fresh factor of depletion of banking reserves. Loaners of money are not showing anything like the late prevailing eagerness to place funds, and any marked revival of mercantile demand for credits would be bound to alter materially the tone of the money market. The money outlook did not prevent another broad and active bond market today. The fresh break in the price of wheat was a sustaining influence on stocks. The bank statement showed an expansion in the daily loan averages of \$11,792,200, although the actual loan increases on Friday night had reached only \$1,672,400. The increase of \$17,518,000 in the loan account of the trust companies seems to have been taken over from the banks during the week. In connection with the bond flotation, the relief afforded to the banking position funds reflected in the rise of \$1,245,350 in the actual surplus on Friday night compared with the decrease of \$1,094,825 in that item shown by the computation by averages.

Bonds were strong. Total sales, par value, \$2,245,000. United States 3s coupon have advanced 1-4 per cent on call during the week.

Grain and Provisions.

Chicago, April 24.—Owing to a sensational decline in the price of wheat at Liverpool, the market opened here greatly demoralized and with prices ranging from 1/2 to 1-4 lower, July being at \$1.07 to \$1.08 1/2, and May at \$1.19 1/2 to \$1.20 1/2.

The September delivery option company with the December option below the dollar mark for a brief period at the start, when it sold at 99 1/2. The severe slump at Liverpool was said to be due to greatly increased offerings there of Argentina and Indian wheat at considerably lower prices than prevailed yesterday, and it continued favorable reports regarding the European crop. The selling furor subsided to some extent after the first few minutes and a much calmer feeling was manifested the remainder of the day. With the exception of the May and December deliveries held still in the opening range. Toward the middle of the day May declined still further to \$1.18, while the December option rallied to \$1.00. The market closed heavy at \$1.19 1/2 and July at \$1.07 1/2.

Corn was subjected to heavy liquidation but later much of the loss was regained on buying by cash houses. Final quotations showed net losses for the day of 1/2 to 3/4 c. At the close prices in the oats market was unchanged to 1/2 c. lower.

Provisions were inclined to be weak early in the day, but demand by local packers caused a steady feeling late in the session. The close was 2 1/2 c. lower to 2 1/2 c. higher.

THE CIRCUS.

acrobat finds it necessary at all times to keep his muscles and joints supple. That is the reason that hundreds of them keep a bottle of Ballard's Snow Liniment always on hand. A sure cure for rheumatism, cuts, sprains, sore throat, lame back, contracted muscles, corns, bunions and all pains. Price 25c, 50c and \$1.00 per bottle. Sold by Geo. Freishelmer.

LICENSED TO WED.

Yesterday a marriage license was granted to Nicholas Bram and Mary Schneider, both of Missoula. Both are Hungarians and Bram understands a little English that an interpreter was almost a necessity when he made his application for a license. He said that he would get married on the first day when stormy weather would prevent him from working. He is a plasterer's helper.

The office of the Montana Independent Telephone company is in the real estate office of J. M. Rhodes, where all payments for stock can be made and other business transacted.

DENY THEY CLAIM JOHN CAINE ESTATE

Ogden, Utah, April 24.—According to Los Angeles dispatches Mrs. Zellig and her daughter were named as claimants to a portion of the estate of John Caine, to which Phillip Caine, the peddler of Denver, was also an heir. In the dispatch it was inferred that although John Caine stated upon his death bed that he was unmarried, the Ogdenites claimed to be his wife and daughter. This develops upon investigation to be a confused statement as Mrs. Zellig has never claimed to have been other than the wife of Jude Charles Caine, a brother of the deceased man. Sixteen years ago, after the death of her husband, she married Mr. Zellig, a well-known resident of Ogden.

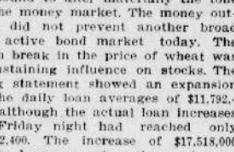

Elderly People Helped Free

The last years of life are the sweetest, and yet the most difficult to prolong. It is then that the greatest care is exercised in maintaining bodily health. But the chief care should always be with regard to the food you eat and whether you are digesting it properly. You should not allow yourself to become constipated.

No doubt you have tried salts and cathartic pills, purgative tablets, etc., and have come to the conclusion that they are violent in action and do but temporary good. Listen, then, to the voice of experience with regard to a wonderful and mild laxative, Dr. Caldwell's Syrup Pepsin. It is not new, only we are trying to find new friends for it.

A. A. Feltz, of Johnston City, Ill., suffered from stomach trouble for six years and found his cure in Dr. Caldwell's Syrup Pepsin. His wife uses it too with success. We could name hundreds of others. Some heard of it first through neighbors or friends; others through the doctor's offer to send any sufferer from a stomach or bowel complaint a free sample bottle for trial, without charge. If you will send your name and address he will send you the trial bottle direct to your home. If it proves itself as he claims then, continue the treatment by buying a 50-cent or \$1 bottle of your druggist, as all of them sell it. Old people, like children, should look for purity, and it is well to mention that the purity of this remedy is vouched for with the U. S. government. Also, though a free bottle is sent to prove its merits, results are always guaranteed from the regular bottles bought of druggists, who will refund your money if it does not satisfy you. Send at least for the free test bottle today.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to Dr. Caldwell, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 671 Caldwell Bldg., Monticello, Ill.

AGREES TO PROTECT AMERICANS

RUSSIAN GOVERNMENT COMPLIES WITH REQUEST OF THE AMERICAN NATION.

Washington, April 24.—Russia has responded promptly to the implied request of the American government that its military forces about to enter Persia and the vicinity of Tabriz to safeguard the lives and interests of American citizens by giving assurance that she will take all possible measures for the protection of foreigners. The proposed expedition is about to start for the frontier. The welcome information came to the state department this afternoon in a dispatch from Ambassador Riddle at St. Petersburg, and also was communicated to the officials by the Russian ambassador at Washington. With a well organized military detachment in the city of Tabriz, it is felt here that foreign interests may rest assured of reasonable freedom from violence pending the settlement of the troubles which now beset the shah's government.

WILL REMAIN HERE ONE MORE WEEK AT MISSOULA HOTEL

ONE HUNDRED SATISFIED PATIENTS

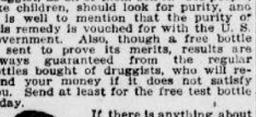

Dozens Who Called Were Unable to Consult Him and He Was Forced to Make Many Appointments for This Week—His Success Here Is Phenomenal.

MRS. T. HALL, BOULDER, MONT.

Writes a Letter Which is on File With Many Others at Dr. Dodd's Office at the Missoula Hotel.

HER GLASSES A BLESSING.

Says She Could Never Have Believed That Glasses Could Make Such a Difference in One's Whole Being—They Cured Her When Medicine Only Made Her Worse.

Mrs. Thomas Hall of Boulder went to Butte several months ago at the solicitation of friends and neighbors who were patients of Dr. Dodd's. To consult him about her nervous condition. She says "she suffered with dizziness, insomnia, nervousness and terrible headaches, had no appetite, and that she became very uneasy about her condition, that medicine did her no good and so at last was persuaded to go to Butte and consult Dr. Dodd; that Dr. Dodd told her that her whole trouble was the result of eye strain and ordered her glasses and instructed her to wear them continually, which she consented to do after some protest; but that she now thinks that any man or woman who would allow vanity or prejudice to stand in their way and suffer and take poison in the form of drugs into their system is a fool. They have afforded me complete relief and are a blessing to me," writes Mrs. Hall.

Here is a picture of a young lady whose eyes were straightened by glasses by Dr. Dodd's method after an oculist who tried to imitate same had failed. The oculist, of course, tried first to persuade them to allow him to operate. After he failed with glasses he insisted an operation was the only thing. She quit him and Dr. Dodd's method of fitting glasses proved successful after a few weeks' wear.

MRS. E. EAST, WHITEHALL

WAS ALMOST DRIVEN INSANE FROM TERRIBLE PAINS IN HEAD AND EYES.

WATER RAN OUT OF EYES—SHE COULD NOT KEEP THEM OPEN.

Friends Advised Her to Go at Once to Butte and Consult Dr. Dodd, Which She Did—She Is Now Thankful She Did.

When I visited Dr. Dodd six weeks ago, the latter part of last November, I truly believe I was going insane from the terrible pain in my head and eyes. I could not hold them open and the water just streamed out of them. I felt at times like I must shriek or jump through a window. Dr. Dodd said he was opposed to administering opiates, morphine. He recommended a simple home remedy for immediate relief and fitted me with glasses which afforded the relief from the moment I put them on. They cured me completely and I now feel better than I had for years. I tell every lady and want Dr. Dodd to publish my statement or use my name in any way he sees fit. MRS. E. EAST.

MRS. M. D. GLOVER 909 W. SILVER ST. BUTTE, MONT.

HAS RESIDED IN BUTTE FOR YEARS—A GREAT SUFFERER FROM HEADACHES.

DR. DODD FITTED HER GLASSES, WHICH CURED HER COMPLETELY.

Had Tried About Everything—Had Tried Several Times to Get Glasses That Would Afford Her Relief, but Was Unable to Do So Until She Consulted Dr. Dodd.

I have suffered all my life with nervous and sick headaches and now at the age of 50 at last found someone who understood my case and was able to cure me completely. The doctors said it was from my stomach and I have been foolish enough to take their medicine for 40 years. I was like many others who dislike to begin wearing glasses, but of late years had tried several times to be fitted and was never satisfied with them until Dr. Dodd fitted me. He convinced me that he was an expert in his work and I believe anyone who consults him and has him examine their eyes cannot help but be convinced that he thoroughly understands the eyes and every detail connected with the fitting of glasses. I am personally acquainted with dozens of cases of "closed tear ducts" and cross eyes cured by him with glasses.

MRS. M. D. GLOVER.

LESLIE WOOD ON STAND.

THE MONTANA CASH GROCERY IS NOW OPEN

Cash will mean no loss and money in the customers' pocket. We buy our goods from jobbers for spot cash and therefore we can sell them as cheap as any one. Remember no one has strings on us. We do not expect all of our trade, but we will appreciate part of it. Give us a trial and you will be convinced that this is the right place to trade. We will pay the highest price for all farm products.

Have you indigestion, constipation, headache, backache, kidney trouble? Hollister's Rocky Mountain Tea will make you well. If it fails, get your money back. That's fair. Tea or Tablets form, 35 cents. David C. Smith and G. P. Peterson.

THE GRAHAM DAMAGE SUIT AGAINST THE Northern Pacific dragged through a long session of the district court yesterday. A great mass of evidence was presented and it is probable that the case will not be ready for the jury before Monday night. A feature of yesterday's testimony was that of Leslie Wood, a Missoula newspaper man, who presented pictures taken at the time of the wreck in which Engineer Graham lost his life.

Have you indigestion, constipation, headache, backache, kidney trouble? Hollister's Rocky Mountain Tea will make you well. If it fails, get your money back. That's fair. Tea or Tablets form, 35 cents. David C. Smith and G. P. Peterson.

Those Power Bills

Let's see, there's the coal bill, the labor bill, the water bill, the oil bill, the regular repair bill, to go on through the list would be to enumerate some 40 or 50 different bills—the bills that you must foot up to get at the cost of operating that steam plant.

How would you like to have it reduced to a single bill—a bill for electric power with its convenience, cleanliness, greater productive capacity and economy?

How would you like to be freed from the cares of the boiler and engine rooms and have the space to use for other purposes?

Many who have investigated and installed individual electric drive, find all other advantages capped by economy, both direct and indirect. Won't you investigate, too? We are here to assist.

MISSOULA LIGHT & WATER CO.
