TELEPHONE NUMBER

Business Office 110 Editorial rooms

SUBSCRIBERS' PAPERS

The Missoulian is anxious to give the best carrier service; therefore subscribers are requested to report faulty delivery at once.

MONDAY, APRIL 26, 1909.

ANOTHER CONTEST.

This week will witness an addition to the number of western Montana contests for railway right of way; the Northern Pacific has entered the Lolo pass, presumably for the purpose of locating a line over the Bitter Root mountains into Idaho.

WHERE SLEEP THE GRAY.

Today is the annual Memorial day in most of the southern states, when loving hands strew flowers upon the mounds beneath which sleep the boys who were the gray and eloquent lips pay tribute to the virtues of those who bore arms for what they believed was right.

WHEAT AND THE TARIFF.

Discussion of the wheat corner is general the country over; when the price of bread is affected there is not a district of the country that escapes. Chief Cornerer Patten is now fishing in New Mexico with a game warden on his trail.

ROYAL TROOPS SURRENDER

Boston, from W. J. Peet, treasurer of the mission board here: "Outbreaks at Adana, native Christians suffered much loss of life and property. Their district is in flames. Fifteen thousand are destitute. Thousands of dollars required daily. They have bread alone; lack medical supplies. The four emergency hospitals are already overcrowded. Two large orphanages are required at once. The government cannot meet the present needs. The relief committee has begun work, but funds are needed."

NEW WORLD'S RECORDS.

Durban, Natal, April 25.—R. E. Walker, who won the 100-yard dash at the Olympic games in London, today ran 150 yards in 14 1-5 seconds and 180 yards in 17 4-5 seconds. Both marks are new world's records.

MINING MAN TALKS OF DISTRICT

Richard Daxon, president of the Tarbox Company, tells of Coeur d'Alenes. Special to The Daily Missoulian. Hamilton, April 25.—Richard Daxon, president and manager of the Tarbox Mining company, is making Hamilton his headquarters and has the following interesting things to say relative to the mining situation in the Coeur d'Alene district.

DOING SOMETHING.

Information from Washington is that the tariff bill will probably be enacted in time for adjournment of congress not later than June 1. There is not much that is sensational in the progress of the tariff bill, now that the preliminaries have been disposed of; the debate has become a careful discussion of the economic side of the question and the purpose of congress is to give the country a revision that will be beneficial without upsetting business conditions.

WHERE SLEEP THE GRAY.

As further evidence that nothing is made in vain, comes the assertion that the cherries used in this spring's millinery decorative work are made from the balls used in ping-pong and left in stock when that game passed out of favor.

GOVERNOR NORRIS

Governor Norris and his associates have returned from their inspection of state capitols. Now somebody would better go to look over the gardening on capitol grounds.

BACK IN MISSOURI

Back in Missouri people are rejoicing because there are but two weeks more of their legislative session. Montana is better off than some of her sisters.

THE SULTAN SUSPECTS

The sultan suspects that the young Turks were lashed by incubators instead of in the old-fashioned way. Castro might poke up with the sultan in a radeville circuit sketch that would prove popular for a while.

THE SULTAN'S "BENEVOLENT"

The sultan's "benevolent" reception of the reforming army was as expensive as it was fruitless. The sultan's soldiers had their pockets filled with gold, they're dead now; what's the use?

NEW MEXICO'S ANTI-PATHY

New Mexico's anti-pathy for trusts and corners makes Mr. Patten of Chicago legitimate prey. Chief Joseph found the Lolo pass an easy crossing; the railway engineers should do as well.

A THOUSAND LIVES

A thousand lives constitute too high a price for the defense of the unspeakable Turk. Castro's experience in being abused qualifies him for the position of baseball umpire.

HOLD ALL MAIL

Hold all mail for Abdul Hamid; permanent address will be announced later. Turkey is highly spiced this spring.

MINING MAN TALKS OF DISTRICT

Richard Daxon, president of the Tarbox Company, tells of Coeur d'Alenes. Special to The Daily Missoulian. Hamilton, April 25.—Richard Daxon, president and manager of the Tarbox Mining company, is making Hamilton his headquarters and has the following interesting things to say relative to the mining situation in the Coeur d'Alene district.

THE SILVER CABLE.

The Silver Cable is pushing work on its 1,500-foot cross-cut and no mine in all the district has a better surface showing. This seems to be the connecting link between the east and west end of this mineral zone and it is at least one developed point that proves beyond a doubt that the Silver Cable district is a continuation of the great lead and copper ore belt.

COPPER PROPERTIES.

The Butte, Coeur d'Alene, Boston, Colby, New York, Brooklyn and Hugo are copper properties. The Boston and Colby cross-cuts, cut the vein 290 feet below the surface. The Boston and Colby cross-cuts, cut the vein 290 feet below the surface.

THE MOUNTAIN HAS A SHOOT

The Meadow Mountain has a shoot of ore at 90 feet and the Coeur d'Alene American will intersect its vein at a depth of 506 feet.

THE LAST CHANCE

The Last Chance has the banner record as a shipper. The returns from one car load are as follows: Silver, \$94,610 ounces; copper, 13,610 per cent; gold, \$12 net profit per car of \$3,793. One car netted \$5,000, another one \$2,438. In addition to this there are now thousands of dollars worth of the same ore blocked out.

THE BANNER

The Banner has the banner record as a shipper. The returns from one car load are as follows: Silver, \$94,610 ounces; copper, 13,610 per cent; gold, \$12 net profit per car of \$3,793.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound. Paw Paw, Mich.—"I suffered terribly from female ills, including inflammation and congestion for several years. My doctor said there was no hope for me but an operation. I began taking Lydia E. Pinkham's Vegetable Compound, and I can now say I am a well woman."

ANOTHER OPERATION AVOIDED.

Chicago, Ill.—"I want women to know what wonderful medicine Lydia E. Pinkham's Vegetable Compound has done for me. Two of the best doctors in Chicago said I would die if I did not have an operation, and I never thought of seeing a well day again. I had a small tumor and female troubles so that I was in a hospital. My friend recommended Lydia E. Pinkham's Vegetable Compound, and it made me a well woman."

THE SILVER CABLE.

The Silver Cable is pushing work on its 1,500-foot cross-cut and no mine in all the district has a better surface showing. This seems to be the connecting link between the east and west end of this mineral zone and it is at least one developed point that proves beyond a doubt that the Silver Cable district is a continuation of the great lead and copper ore belt.

BROTHER OF AN EARL DISAPPEARS

HON. RONALD EDWARD M. RAMSAY IS MYSTERIOUSLY MISSING FROM SHIP. Plymouth, April 25.—The Hon. Ronald Edward M. Ramsay, brother of the Earl of Dalhousie, who was a passenger on the Hamburg-American steamer Cleveland from New York, was missing when the steamer arrived here today.

ARMY BALLOONISTS HAVE HARD DRIVE

Washington, April 25.—An all-night drive over muddy roads in a heavy farm wagon to the nearest telegraph station, 30 miles away, was the unpleasant experience of the three army aeronauts who ascended here yesterday noon in balloon No. 10, making a landing three hours later at Great Mills, Md.

CREMATE REMAINS OF FORMER SENATOR

Washington, April 25.—The body of William M. Stewart, former United States senator from Nevada, who died here Friday, was cremated today in accordance with a wish expressed just before his death.

BOY SHOT BY ITALIAN DIES OF HIS WOUNDS

Beatrice, Neb., April 25.—Clyde Price, the 11-year-old boy shot at Wymore yesterday by Bertucci, an Italian railroad laborer, died today without regaining consciousness. Bertucci, who was threatened by a mob, was rescued by Sheriff Trade and brought to Beatrice, where he is now in the county jail under guard.

SHAH WILL PROLONG ARMISTICE AT TABRIZ

Teheran, Persia, April 25.—The shah has consented to an indefinite prolongation of the armistice at Tabriz and the entrance of unlimited supplies to the city, which for a month has been in a state of siege.

PATTEN IS RETICENT.

Trinidad, Colo., April 25.—James A. Patten, the Chicago wheat king, and his party are spending the night at the Adams Cattle company, 10 miles from the Bartlett ranch. Mr. Patten was uncommunicative and declined to answer any questions by telephone bearing on his relation to the wheat market or his intentions with respect to his stay in the west.

THE CAUSE OF COLDS

Good Advice Regarding the Prevention of Coughs and Colds. If people would only properly fortify and strengthen their system, about 98 per cent of coughs, colds and pneumonia might be avoided.

TO SETTLE THE HIGGINS ESTATE

The Court Orders the Administrator TO SELL AT ONCE All Lots in Montana Addition

TERMS TO SUIT

Prices Lower Than in Any Similar Location. For Particulars Apply to Hall & Patterson, or E. Scharnikow, Administrators, Deer Lodge.

FRICITION REPORTED AMONG SUFFRAGISTS

London, April 25.—There is said to be considerable friction among the American woman suffragists who are here attending the international suffrage alliance convention. Mrs. Carrie Chapman Catt and Rev. Anna Shaw, it is reported, disapproved the action of some of the western delegates who rode in the procession April 17, which formed in the honor of the release from Holloway jail of Mrs. Pethick Lawrence, who had served two months for taking part in a suffragist demonstration.

OFFICE STRUCTURE DOOMED BY FLAMES

Kansas City, April 26.—Fire broke out at 2 o'clock this morning in the Ridge building, a seven-story structure in the heart of the downtown business district. The building was apparently doomed at 2:15, the interior being a mass of flames. The National Bank of Commerce and other large office buildings immediately adjoining the Ridge building were threatened, the fire being fanned by a stiff wind.

ROOSEVELT SECURES A GAZELLE

Nairobi, British East Africa, April 25.—After a brief hunting expedition last evening at Kapiti Plains, Theodore Roosevelt and his party broke camp and started for the ranch of Sir Alfred Pease, on the Athi river, today. Colonel Roosevelt spent part of yesterday sorting his kit, while Kermit and several of the men went to try their luck with the rifles. An old settler, who seemed to take a liking to Kermit, offered to show him a likely place for good sport. They succeeded in bringing down one buck. Colonel Roosevelt's first hunt was favored by fine weather, and he enjoyed the experience immensely. He bagged two wild beasters and a Thompson gazelle. Mr. Roosevelt was somewhat disappointed, as he had been anxious to secure a Grant gazelle, the massive horns of which are much sought after for trophies. The hunt lasted several hours.

DESTROYED BY FIRE.

Chicago, April 25.—One end of the grandstand and the first base pavilion of the Chicago American league baseball park were destroyed by fire to-night. A high wind caused the fire to spread rapidly. President Comiskey estimated the loss at \$8,000. The fire will not interfere with tomorrow's game.

RACE HORSES ARRIVE.

Ogden, April 25.—At 1 o'clock this afternoon the Los Angeles race horse special, with 18 jockeys and more than 100 thoroughbreds from the California tracks, arrived in this city. The horses will participate in the meet to be opened here on May 5.

LET'S SEE, THERE'S THE COAL BILL, THE LABOR BILL, THE WATER BILL, THE OIL BILL, THE REGULAR REPAIR BILL, TO GO ON THROUGH THE LIST

Let's see, there's the coal bill, the labor bill, the water bill, the oil bill, the regular repair bill, to go on through the list would be to enumerate some 40 or 50 different bills—the bills that you must foot up to get at the cost of operating that steam plant. How would you like to have it reduced to a single bill—a bill for electric power with its convenience, cleanliness, greater productive capacity and economy? How would you like to be freed from the cares of the boiler and engine rooms and have the space to use for other purposes? Many who have investigated and installed individual electric drive, find all other advantages capped by economy, both direct and indirect. Won't you investigate, too? We are here to assist.
