

MARKET MOVEMENTS OF THE DAY

TRANSACTIONS IN SECURITIES RECORDED ON THE NEW YORK STOCK EXCHANGE.

New York, April 30.—The stock market today was dull and little impression was made on prices by any of the events which came into consideration. The excessive dullness was partly due to the interruption of communication with the western part of the country by the storm. Few orders were received from outside sources and news of conditions in the storm area was scanty. Prices were held up to some extent by the sympathetic effect of the strength in special stocks. Union Pacific was supported and its recovery from yesterday's decline had much to do in allaying the apprehension regarding speculative position caused by that decline. Reading had the benefit of the signing of the agreement over the wage scale with the anthracite miners and of the good showing of earnings for March reported by the company. Western Union was affected by rumors of a combination of telegraph and telephone companies. It was such special movements as these that made up the market. Some relief was felt at the quiet manner in which the London market accepted the British budget statement, as the proposals are considered to bear heavily on property interests. The last day of the month and Friday offered a double occasion for extra demands on the money market. It was not until late in the day, however, that an impression was made on the call loan rate by the preparations for the May 1 payments and for carrying over stock market accounts until Monday next. The hardening of the money market early in the week has had the effect of attracting funds to New York from the interior, as shown by the rise in the premium on New York exchange at Chicago. The receipts by the New York banks on the interior movement during the week have exceeded the shipments to the amount, it is believed, of nearly \$4,000,000. The sub-treasury operations, however, have taken \$4,675,000 from the banks during the week, this amount including the \$2,500,000 shipped to France and the payment of \$1,000,000 by the American Sugar Refining company on account of its settlement with the government of the fraud case in course of prosecution. The call loan rate touched 3 per cent, duplicating the high rate of last Friday and of the first week in January of this year. Bonds were irregular. Total sales, par value, \$3,200,000. United States bonds were unchanged on call.

Grain and Provisions.

Chicago, April 30.—Unfavorable weather advices was the chief reason for the strong opening of the wheat market. Snowstorms accompanied by a drop in temperature were reported in the Canadian North west, while across the boundary line equally unfavorable weather for seeding prevailed, though it was warmer. There was good general demand at the start, and opening prices were unchanged to 1/2 higher compared with the previous close. July opened at \$1.11 1/2 to \$1.12 1/2. After the first hour the demand was less urgent and sentiment gradually became bearish. From \$1.12 1/2 July dropped to \$1.09 1/2. May held relatively very steady, though the distant months and sold between \$1.23 1/2 and \$1.24 1/2. The close was about the low point of the day, with July at \$1.11 and May at \$1.23 1/2 to \$1.23 1/2. The corn market was a choppy affair nearly all day and finally turned weak in sympathy with wheat. The market closed weak at almost the bottom with May at 1/2 @ 1/2 lower at 70 1/2. Buying brought out by continued cold weather in the west and north-west caused advances in the price of oats early in the day, but all of the gain was lost on selling based on the slump in other grains. At the close prices were unchanged to 1/2 lower compared with yesterday's final, May being at 55 1/2. Trade in provisions was quiet, but a moderately firm tone prevailed. Prices at the close were unchanged to 1/2 higher.

Metal Market.

New York, April 30.—The London tin market was lower today with spot at \$131 1/2 and futures at \$132 7/8. Locally the market was weak, with spot quoted at \$29.00 to \$29.15. Copper was lighter in London, with spot quoted at \$57 1/2 to \$58 and futures at \$58 7/8 to \$59. Locally the market was dull and unchanged, with lake quoted at \$12.87 1/2 to \$13; electrolytic at \$12.50 to \$12.62 1/2; and casting at \$12.37 1/2 to \$12.50. Lead declined 1/2 to \$13 5/8 in London. The local market was quiet and unchanged at \$4.20 to \$4.25. Spelter advanced 1/2 to \$12 1/2 in the London market, but remained quiet at \$5.02 1/2 to \$5.07 1/2 locally.

Trade Review.

New York, April 30.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: The developments of the week are of special significance. One is the distinct improvement in the iron and steel trade on which the commercial situation depends. The reduced prices have stimulated an active demand, which, in turn, brought about this week a lifting of prices on a number of products. The other development is the foreign commerce statement, which reveals extraordinary importations of crude materials for manufacturers' purposes, a clear proof of reviving industry. While jobbers of cotton goods are doing a very moderate business, local centers is satisfactory and the aggregate of transactions is fully up to normal. Export trade continues quiet. In the woolen goods division there have been some cancellations of current heavyweight goods. If you want to feel well, look well and be well, take Foley's Kidney Remedy. It tones up the kidneys and purifies the blood, and restores health and strength. Pleasant to take and contains no harmful drugs. Why not commence today? TOO MUCH INFLUENCE OLD DAYS RECALLED HE DECLARES BY PAPERS

LAWYER OBJECTS TO TRYING SUIT IN BUTTE BECAUSE OF AMALGAMATED INFLUENCE.

Helena, April 30.—There was filed today in the federal court here one of the most pointed affidavits on record, a well-known Butte lawyer, H. L. Maury, being the affiant. Some months ago Maury, as counsel for Myrtle and Hedley Northam, filed a personal injury suit in the federal court here against the Boston & Montana Consolidated Copper and Silver Mining company. The parties to the action all being residents of Butte, Clerk George Sprout sent the papers to his deputy here for filing. Maury, upon learning of this, called up Clerk Sprout on the telephone and explained that the action had been filed here advisedly—that it was impossible to secure a fair trial against an Amalgamated concern in that country. He threatened to mandamus the clerk if the suit was not transferred here. Clerk Sprout referred the matter to Judge Hunt who decided that if it was the wish of counsel and litigant to try the action here, it was agreeable to the court. Counsel for the Boston & Montana then moved that the trial be held in Butte and it is in reply to this that Maury filed his affidavit today. In essence, it holds that it is impossible because of the great and various interests of the Amalgamated Copper company in Butte to secure a fair trial in Silver Bow county where any component of that concern is involved. In furtherance of this statement the affidavit alleges that William Scallon, former chief counsel for that company, when a member of the legislature, two years ago introduced a bill making it possible to challenge a juror on the ground that he was a corporation employe and it adds that "Butte is thoroughly permeated by Amalgamated influences." In conclusion the affidavit says that it is desirous to remove the case from such an affected district to Helena, where, save when the legislature is in session, there are no Amalgamated influences. For this reason, his clients are willing to meet the added expense of bringing witnesses here in the belief that a fair trial may be had. The Boston & Montana, under the rules, has 10 days in which to reply.

TELEPHONE MEN TELL OF COMING CHANGES

Hamilton, April 30.—H. S. Buzick, division superintendent of the state of Montana for the Rocky Mountain Bell Telephone company, and R. B. Wiseman, manager of the Missoula exchange, are in Hamilton. They stated that a good deal of work would be done this summer in Missoula and the Bitter Root tending toward the improvement of their system. In Missoula about six miles of new cable will be strung. Part of this, however, will be laid under ground. Thirty miles of new line will be built east of Missoula and about 40 miles west. A new toll board of four positions will be added to the Missoula exchange. Orders are in for 100 new phones in Missoula now. At Hamilton over a mile of new line will be built and the line between Hamilton and Stevensville will be rebuilt and augmented. Orders for 25 new phones have been received at the Hamilton office, and a new section will be added to the switchboard, which will have a capacity of 100 phones. Work will be commenced in Hamilton as soon as the material arrives from the east. Over \$100,000 worth of improvements will be made by the Bell company in Montana this summer.

FRUIT GROWERS HOLD IMPORTANT MEETING

Hamilton, April 30.—At a meeting of the Fruit Growers' association, held at the Hotel Hamilton on Tuesday evening, a good many matters of importance to the members were discussed. President Woodruff was instructed to obtain a reliable man to audit the books of the company and also to make arrangements with some company to furnish apple boxes to the members of the association. George Brooks, present manager of the association, has resigned, and President Woodruff will try to obtain the services of the man whom the directors have picked out for the place. President Woodruff has received a letter from President Tibbitts of the Washington Fruit Growers' association, stating that a meeting of the managers and officers of all the fruit growers' associations of the northwest will be held soon, probably at Seattle. It was agreed between the members of the Bitter Root Fruit Growers' association that all who possibly can will attend this meeting.

FINDING OF PAPERS PUBLISHED IN PIONEER TIMES RECALLS MANY INCIDENTS.

Spokane, April 30.—Reminders of the pioneer days in the Spokane country, when public gambling flourished in the mining camps of Idaho, Washington and Montana, came to light at Wallace, Idaho, in the heart of the Coeur d'Alene, east of Spokane, when W. H. Matchette found two newspapers, bearing dates in March, 1877, under the heavy woolen blanket covering a fare lay-out. One of the papers is The Picayune of New Orleans, the other being The Madisonian, published at Virginia City, Mont. Mr. Matchette has refused an offer of \$50 for the papers. The old fare table and the papers and the warehouse in which they were found mark, the transition of territories into states and wild and woolly mining camps into modern cities. The newspapers were under the top board of the lay-out beneath a blanket of fine wool, practically as good as the day it was placed there, more than 32 years ago. The table is an elaborate affair and is in good condition. When or by whom it was stored in the warehouse has long since been forgotten. It was there before the Worstall people took over the old firm's business in 1894.

The papers were found when Mr. Matchette took a table apart to ascertain how it was made. C. C. Spencer, bookkeeper for the firm, found in The Madisonian an advertisement of a grocery conducted by his father, John A. Spencer, at Virginia City, 32 years ago. The advertising feature of The Picayune was the large space devoted to "The extraordinary attraction, the sensational traveling of the Louisiana state lottery."
