Lace Curtains Less

98c pair. Regular \$1.50 quality Swiss and Nottingham lace curtains, in white and ecru, 98c pair.

Barber Towels 50c

Good quality absorbent barber towels hemmed and have red borders at 50c dozen.

THE MARTIN COMPANY

"ORANGE" EQUIPMENT PASSES THROUGH

NEW LINE COACHES MOVE—CONTINENTAL EXPRESS COMPANY DISBANDS.

Just before noon yesterday two trains of orange hued passenger equipment arrived in Missoula, destined for points on western divisions of the Puget Sound line. Each train was composed of three brightly colored passenger coaches and one combination baggage, mail and express car. On the coaches, in gold letters appeared the name "Chicago, Milwaukee & Puget Sound railway," while in addition to the combination cars the name "Wells-Fargo Express company" appeared, showing that the old carrier would operate the express department for the new transcontinental line. Information was given out at the general offices of the Chicago, Milwaukee & Puget Sound line yesterday that the Wells-Fargo company had been given the contract to handle all of the express business on the entire system of the Milwaukee railroad, including the western extension. This change was made on May 1 and at the same time announcement was made by the officials of the Chicago, Milwaukee & St. Paul that the newly formed Continental Express company would cease to exist as an active competitor. The passenger equipment passing here yesterday will go into immediate service on the daylight schedules now in operation on the western end of the line. The small engines detailed to the hauling of the "Orange" cars will also be turned over to the connecting division at North Fork for regular service west.

RAILROAD BREVITIES

E. W. Metcalf, a member of the engineering corps of the Puget Sound railroad, came in from Frenchtown yesterday on business for his company. F. P. Bulger, material clerk of the Chicago, Milwaukee & Puget Sound at Huson, was in Missoula yesterday. Locating Engineer R. W. Day of the Puget Sound, returned yesterday from a three weeks' stay at Chicago. Mr. Day is in charge of the numerous surveying gangs now operating through this territory staking out routes for the new railroad's branch lines. General Superintendent G. A. Goodell, who spent yesterday at Paradise, returned east on No. 6 this morning. Jim Barney is spending a few days in Missoula. He has just returned from a vacation of several weeks spent in the east, and will return to his car in a few days.

NEW LINE IS NOW OPEN THROUGH TO THE COAST

During the past two days the Puget Sound officials have moved five full trains of company material over the western Montana division and delivered the cars to the adjoining division. This traffic movement practically cleans up the excess tonnage on this district and with the delivery of the first train the line was opened for traffic through to the coast. During the present period of high-water the company is preserving close vigilance over the wooden bridges now in use and the framework to the steel structures between Missoula and Garrison. There are two temporary wooden bridges near Nimrod, which the company is using, while at Clinton and near Cold Creek steel structures are being erected. It is for the protection of these bridges and timber framework that working forces are kept to watch and keep them free from the dangers of accumulated driftwood.

NORTHERN PACIFIC PLANS COUP

SURVEYORS JOIN FORCES IN AN EFFORT TO CIRCUMVENT HARRIMAN OUTFIT.

A portion of the surveying force of the Northern Pacific, which has been operating on the 38-mile loop from Florence through Stevensville and Corvallis to Hamilton, has been recalled and instructed to co-operate with the Northern Pacific gang now working in the Lolo pass. The Stevensville loop gang will join forces with the Lolo men at once, and will work from the pass in the direction of the Lolo postoffice. These instructions were given several days ago, and it is believed that the Northern Pacific is making a strenuous attempt to circumvent the Harriman outfit now operating in that vicinity. Following the change in the movement of the Stevensville outfit comes the information that the gang of surveyors which has been stationed near Bonner for several days driving stakes for the Northern Pacific has been moved to Avon with instructions to join forces with the outfit already established near that place. The squad will push the survey through Ovando down the Clearwater country, over the Nine Mile prairie and along the Camas prairie to Bonner, where a junction will be made with the main line of the Northern Pacific. This line will parallel the survey of the Puget Sound from the Clearwater postoffice to Bonner.

BITTER ROOT TRAINS TO RETAIN SCHEDULE

In the general change of time in the arrival and departure of passenger trains at this place, which will take effect on May 23, the Northern Pacific makes the announcement that there will be no change in the running of either of the passenger trains on the Bitter Root branch line. On the Coeur d'Alene line between Missoula and Wallace a decided change is to be made in the arrival and leaving time of both passenger trains at each terminal. No. 14, which leaves here at 8 a. m. under the present time card, will, after the inauguration of the new schedules, leave Missoula at 8:10 a. m. and will arrive in Wallace at 2:50 p. m., same as now, reducing the running time one hour. The opposing train, No. 142, will leave Wallace at 10:30 a. m. under the new conditions, and will pull into Missoula at 3:50 p. m. According to the present schedule the train leaves Wallace at 8:20 a. m. and reaches Missoula at 2:55 p. m. No plans for additional service on either the Bitter Root or Coeur d'Alene branches have been announced to take effect with the adoption of the new card.

OFFICIALS AND MEN WILL HOLD CONFERENCE

On Sunday night Acting Superintendent D. J. Hagerty, accompanied by representatives of the various orders of train and engineers, will leave on No. 5 for Spokane, where a conference is to be held next Monday with the officials of the Idaho division and representatives of the order relative to the transferring of Rocky Mountain division train and engine crews to the Idaho division. The orders represented will be as follows: B. of R. T., B. of L. E. & F. O. P., C. and B. of L. E. The conference has been called at the request of the division officials and the riders to the end that there may be a mutual understanding relative to the nature of the transfers when the Paradise-Trout Creek district is taken over by the Idaho division for operation on May 15.

But little sand is used in the modern manufacture of sandpaper, nearly all of it being made with powdered glass.

GIVING OF EVIDENCE ABOUT ENDED

SUMMING UP OF TESTIMONY IN MURDER HEARING WILL COMMENCE MONDAY.

Flushing, N. Y., May 7.—Captain Peter C. Hains, Jr., slayer of William E. Annis, may go the way of Harry K. Thaw, who killed Stanford White. It was said after today's session of the Hains trial that if Hains is acquitted on the ground of insanity the court may deem it necessary to order a lunacy commission to inquire into the present mental condition of the accused. The giving of testimony was practically finished today. On Monday both sides will sum up and Justice Garretson will probably charge the jury Tuesday. Most of the day's session was taken up with the testimony of the state's three insanity experts. They all expressed the opinion, predicated on the hypothetical question prepared by the prosecution, that Captain Hains was sane at the time he shot and killed Annis. The district attorney did not call Mrs. Annis, the widow of the murdered man, as had been expected.

STOCKHOLDERS HEAR OFFICERS' REPORTS

The first annual meeting of the stockholders of the University Press club was held yesterday afternoon and directors were elected for the ensuing year. With the exception of the election of Arthur E. Leech to the board of directors to take the place of G. D. McLaughlin, who graduates this year, all the old members of the board were re-elected. The University Press club is the publisher of the Weekly Kaitiaki, which made its first appearance recently. Reports of the backlogs of the venture showed that the paper is on a sound footing.

NEWS OF WALLACE

Special to The Daily Missoulian. Wallace, May 7.—The Northern Pacific is quietly securing options on a large amount of property in the vicinity of its freight depot buildings in this city. An injunction by the district court prohibits the Coeur d'Alene Power company from rebuilding on the site where a recent explosion killed three men and destroyed a \$30,000 plant. A uniformed rank of the Knights of Pythias was mustered in tonight by Colonel M. M. Richardson of Spokane. There are 25 members of the rank.

INJURED BY ROCK.

Late yesterday afternoon a report reached Missoula through the railroad offices to the effect that an employee of Winston Bros' company had been struck by a rock near Bearmouth and seriously injured. Details relative to the accident are extremely meager but it has been learned that the man was working on the top of the rock out in the vicinity of Bearmouth and was caught in a small slide. As he rolled to the base of the cut a large boulder fell upon him and crushed his shoulders and chest severely. The name of the victim was not obtainable.

FOR ROBBING SALOON.

John Smith and Paul Evans were brought in from Drummond by Sheriff Graham yesterday, they being charged with having robbed the saloon of Tom Cook at Clinton.

PROPOSE TO BUILD BREAKWATER TONIGHT

OFFICIALS OF SOUTHERN PACIFIC PLAN IMPROVEMENT FOR LUCIN CUT-OFF.

Ogden, Utah, May 7.—Chief Engineer William Hood, of the Southern Pacific system, arrived from the west in his private car this morning and was met at the Union passenger depot by General Manager Bancroft, General Superintendent Davis and Chief Engineer Ashton of the Oregon Short Line. Accompanied by Superintendent Mason and other operating officials of the Southern Pacific road the party left for the Ogden-Lucin cut-off, which crosses Great Salt Lake. It having been decided to construct a breakwater in order to protect the tracks and railroad property from damage resulting from the highest stage of water ever known in the inland sea, Engineer Hood has been called upon to solve the difficult problem. It is believed Hood will accompany General Manager Bancroft to Salt Lake where a conference will be held relative to proposed work on the breakwater project which is expected to cost \$200,000.

RAILROAD TO SPEND MUCH MONEY

GREAT NORTHERN PLANS MANY IMPROVEMENTS IN THE NORTHWEST TERRITORY.

Spokane, May 7.—Many millions of dollars will be expended by the Great Northern railway company on construction work in Washington, Idaho and the province of British Columbia during 1909 and the next three years. The foregoing announcement, made through official sources, would indicate that while the Chicago, Milwaukee & Puget Sound Railway company and the Oregon Railroad & Navigation company are forcing entry into what is considered to be Hill territory in Washington, Idaho, Montana and British Columbia, the "empire builder" has some new tricks up his sleeve in an aggressive campaign for supremacy in the Pacific northwest. It is officially announced that a line has been surveyed and that construction work will begin this year from Spokane, following the Spokane river to Miles, Wash., crossing the Columbia river at Hell Gate and recrossing it at the mouth of the San Poil river, which it will follow to Republic, tapping the big mining region at Keller and giving Republic direct connection with this city. It will also give out that work will begin shortly on a line from Oroville, near the British Columbia boundary in the Okanogan country, north central Washington to Brewster, where the Okanogan river empties into the Columbia. This line will be 60 miles in length and will be in operation next summer. Leaving Oroville, the road follows the west bank of the Okanogan to Riverside, where it crosses to the east side, to which bank it clings as far as Ophir, where it crosses to the west bank and cuts across the country to Brewster.

All Rails Laid.

The line from Columbia river below Wenatchee on the east side of the Columbia river, now completed to Mansfield, will have all rails laid within a few days and will next fall be ready to drain the wheat belt in the Waterville district in central Washington, where the field will produce 4,000,000 bushels of grain this season. A four and one-half mile spur is proposed from Douglas to Waterville. The total length of the line is 60 miles. Surveys have been made for a line on the west side of the Columbia river from Wenatchee to Brewster, approximately 80 miles. This will tap an entirely new region. A fleet of steamers is planned for Lake Chelan, which, it is expected, will assist in developing the Stehekin mining district, where copper, silver and gold lodes have been found in bodies sufficient to encourage the entrance of a transportation line. From the Columbia river the survey and franchises held by the Northern & Southern Railway company, controlled by Al Rogers, of Rogers & Howe, of Waterville, Wash., will be pushed south along the east bank of the Columbia to Priest rapids, where it will follow the west bank of the river to Kennewick, effecting a junction with the Spokane, Portland & Seattle line, thus giving the Hill line a complete water level haul from the Canadian boundary and the Big Bend wheat country to the sea.

CASTRO IN SPAIN.

Santander, Spain, May 7.—Cipriano Castro arrived here today and will await the coming of his wife from the West Indies. Washington, May 7.—A congratulatory message was today sent by Acting Secretary of War Oliver to the Morris high school of New York on winning the first interscholastic rifle shooting championship of the United States with a record of 953 or an average of 95.3 for each boy. The prize is the "Astor trophy." Thirty public and private schools throughout the country competed.

DR. DODD GOES HOME TONIGHT

SINCE HE CAME HERE, APRIL 8, HE HAS FITTED MORE THAN 200 PEOPLE.

When Dr. Dodd came to Missoula on the visit that closes tonight he was not unknown; he had visited Missoula professionally on former occasions and he had many patients in this city who had gone to Butte to obtain the advantage of his treatment. He came here with a reputation for ability and for conscientious treatment which he had well earned, so that his exceptional success has not been a matter of any surprise to those who were previously informed as to the nature of his work. The reading public is beginning to realize that eye-strain is a factor of great importance in the cause and perpetuation of many diseases, and that the fitting of glasses by persons who are not qualified by special training is a dangerous matter; the mere measurement of attending conditions leads to grave error in the selection of glasses; glasses fitted thus mechanically, whether by a jeweler or a past master, are not to be compared with those fitted by the study of optometry and neurology in a subject that has received great thought and deep scientific consideration, and it is destined to relieve many human ills. Dr. Dodd has certainly demonstrated the merit of his science and his ability in employing it; he has shown that he can cure headaches and nervous disorders, as well as straighten cross eyes by properly fitted glasses. His has made many warm friends. The enemies—well, they don't count. SENDS CONGRATULATIONS.

Washington, May 7.—A congratulatory message was today sent by Acting Secretary of War Oliver to the Morris high school of New York on winning the first interscholastic rifle shooting championship of the United States with a record of 953 or an average of 95.3 for each boy. The prize is the "Astor trophy." Thirty public and private schools throughout the country competed.

WEBSTER DIES AT GREAT FALLS

(Continued from Page One.)

not only of his home city, but of Montana. Coming to the commonwealth about the time the territory became a state, he has proved an important factor in the wonderful development of its resources and has secured many appreciative friends. A native of Berkeley county, West Virginia, he was born on December 4, 1830, the son of William and Eleanor (Griffin) Bair. The father was born in 1801 in Perry county, Pennsylvania, removing, when a young man, to Virginia, and then to Lawrence county, Indiana, where he died in 1881. His wife, the mother of Mr. Bair, was born near Winchester, Va., in 1834, and is now living at Bedford, Ind., at the age of 75 years. Mr. Bair was finely educated in the schools of Germantown, Va., and Lawrence county, Indiana, the male and female college of Bedford, Ind., and the Southern Indiana Normal college of Mitchell, Ind. Following his career at the latter institution, Mr. Bair studied law in the office of Newton Crooks of Bedford, and was admitted to the bar of Indiana in that city in 1858, with a good standing. Comes to Montana.

In the fall of 1889 Mr. Bair came to Great Falls, Mont., and the next summer was city editor of the Great Falls Leader, filling this responsible position efficiently. He then removed to Choteau, where he became principal of the public schools, continuing in this office three years. Upon the creation of Teton county he was appointed county superintendent of schools, a position he filled very satisfactorily for two years, and during that time and since he has been successfully engaged in the practice of law. The identification of Mr. Bair with fraternal orders has been prominent. He was a member of Bedford lodge No. 14, A. F. & A. M., of Bedford, Ind., where he was made a Mason when 21 years of age, admitting there to become a charter member of Choteau lodge No. 41, in 1892. He belongs to Royal Arch chapter No. 28, Black Eagle Community of Great Falls, to Algeria Temple of the Mystic Shrine of Helena, to Fidelity chapter No. 18, Order of the Eastern Star of Choteau, also to the Choteau lodge of Odd Fellows, and to the Rebekahs. He was a member of Cottonwood lodge No. 210, W. W. Choteau, and of Tunnelton lodge No. 168, K. of P., of Tunnelton, Ind. On September 1, 1886, Mr. Bair was married to Miss Mary B. Ramsey, born near Bedford, Ind., in 1865, the ceremony being performed at Heltonville, that state. They have no children.

MILK IS DISCOVERED WITHOUT ANY GERMS

Cincinnati, O., May 7.—Dr. Clarence B. Lane, United States government expert in charge of the contests at the National Milk show in progress in Cincinnati, announces that for the second time the government has found milk which the tests prove is absolutely free from bacteria. The first was in Chicago in 1906, but only one sample was found germless. The second is in the Cincinnati show, and San Francisco, Cal., carried away the honors. A remarkable feature is that the perfect sample of milk in two quart bottles was on the road eight days from San Francisco, and stood for several hours here without being heated and the weather warm, before the government test was made.

EXCITING CAMPAIGN CLOSES

POLITICAL AFFAIRS IN NEW-FOUNDLAND CAUSE FIERY CONTEST.

St. John's, N. F., May 7.—The most exciting general election campaign known in Newfoundland since representative government was established, ended tonight. Balloting will occur tomorrow, but it is not expected that the outcome will be known until the latter part of next week, as a majority of the electoral districts are remote from the railroads. The election is the second within seven months. In the November polling 36 members of the legislature were elected, 18 supporting Sir Robert Bond, who was then premier, and the other half favoring Sir Edward Morris. After Governor MacGregor had summoned the legislature half a dozen times, and such time provoked it as a deadlock ensued, he dissolved the assembly and ordered a new election. A most sensational incident was the attack on Sir Robert Bond when he attempted to land at Weston Bay, April 20, to address a meeting. He was kicked in the chest and knocked overboard.

APPLES MAY BECOME STAPLE CROP

VALUE OF OUTPUT IN WASHINGTON EXPECTED TO EXCEED WHEAT.

Spokane, May 7.—Apples are certain to become the staple product of Washington and within a few years the value of the state's crop will amount to three times the value of the wheat output, now placed at 40,000,000 bushels a year, and considerably more than the annual output of gold from Alaska. W. N. Granger, government irrigation expert and manager of the Sunnyside project, covering 90,000 acres in the Yakima valley, constructed by the United States government at a cost of \$1,500,000, said this in announcing that 750,000 acres of land will be under irrigation systems before the close of the next decade, adding: "It is my belief that the increase in irrigation of arid lands in Washington will not cease until from 2,000,000 to 3,000,000 acres are put under water. I believe for this the Yakima valley will continue to lead the state in the number of acres of land under irrigation, and there are reasons to believe that at least 500,000 acres of land in the valley will be under water within the next 10 years. "The question has been brought to the fore many times in the last 20 years as to whether apples would not depreciate in value on account of the vast acreage devoted to them, and my answer is now, as it has always been, that the markets are rapidly increasing and prices are advancing. There is not enough land in the state of Washington to make the price fall. "There is money in raising apples and money will continue to be made in the business for the next 500 years at the lowest estimate, as the demand for apples was never greater than at the present time and this will continue for centuries."

CLAIMS SHE SPOKE WORDS OF DEAD MAN

Spokane, May 7.—Charles Frisby, who died in Spokane a few days ago, delivered his own funeral sermon through Mrs. Clara Kincaid Smith, a medium, in Spiritualists hall, 312 E. Riverside avenue, who said that the words were those of the spirit put into her mouth. After telling his relatives not to sorrow over his departure the spirit of Frisby said through the medium: "I can not tell you of pearly gates or streets of gold, because everything here is much as it was on the other side, only more beautiful. Every thing is tangible and, better than that, it is everlasting. We have books here to read, music, paintings and everything that we enjoyed on earth. "Over here you can have whatever you desire. If you are fond of housework, here you will have a little to take care of. If music was your pleasure, there will be heavenly music, and you can continue your studies along any line you wish. "There were no mourners at the funeral, and after the musicians had played 'Nearer, My God to Thee,' it was announced by Mrs. Smith that the spirit desired lighter music, such as 'Shall We Gather at the River?' 'In the Sweet Bye and Bye,' 'Way Down Upon the Swanee River' and 'Scatter Seeds of Kindness.'"

AMMUNITION SEIZED.

Baku, May 7.—One thousand rounds of rifle ammunition were confiscated here today just as they were about to be shipped to Persian revolutionists, who, in spite of the shah's promises to summon parliament, do not cease their activities.

FIRE CAUSES BIG LOSS.

Logan, Mont., May 7.—Fire at the large stock farm of Joseph M. Mallin, near here, today caused a loss of \$8,000, with no insurance. All the farm buildings with the exception of Mallin's residence were destroyed.

INVITES HART BACK.

London, May 7.—The Chinese government has invited Sir Robert Hart, former director general of Chinese customs, to return to China. Sir Robert has reached no decision regarding the invitation.

WILL RETURN TO NEW YORK.

Spokane, May 7.—Miko Donlin, formerly captain of the New York Giants, announced today that he would return to the New York club at the end of his present theatrical engagement the "fans" so desired.

O'ROURKE IS GIVEN SECOND PLACE

REPRESENTATIVE OF MISSOULA GETS AWARD IN STATE ORATORICAL CONTEST.

Special to The Daily Missoulian. Dillon, May 7.—Arthur W. O'Rourke, representing the University of Montana, won second place in the state oratorical contest here tonight. The contest was close, all four of the contestants being very equally matched. Besides the two place winners representatives from the agricultural college at Bozeman and the Montana Wesleyan at Helena took part. The subject of Mr. O'Rourke's oration was, "The Call of Duty," and was the same with which he won the contest at Missoula last month. According to the statement of the Missoula representatives from the state university, the principal business of the meeting consisted in the election of officers. Mr. Arbie Leach of Missoula, who won the contest for the university some years ago, being elected president for the ensuing year. It being Missoula's turn for the meeting that city was officially selected as the place for the holding of next year's contest.

DELEGATES ARE CHOSEN FOR K. C. CONVENTION

Harry M. Small and Edward Roubler will represent Missoula at the state convention of Knights of Columbus, to be held in Butte next Tuesday, May 11. The alternates are James M. Piquette and Thomas E. Fitzgerald.

POPE TO HAVE AN AUTO.

Rutin, May 7.—A factory here has built for several Americans an automobile which will be presented by them to Pope Pius. It will be elegant, equipped, lined with white leather, and will have on the left side a gold medal of St. Joseph, the pope's patron saint.

ANOTHER RIOT OCCURS.

El Paso, Texas, May 7.—News reached here today that following the riot on the Sanborn plantation near Vera Cruz another riot between Mexicans took place on the Santa Fe plantation near Tlaxcalpam in which a number were killed with knives and guns.

Boys Will Be Boys and are always getting scratches, cuts, sprains, bruises, bumps, burns or scalds. Don't neglect such things—they may result serious if you do.

Apply Ballard's Snow Lintiment near according to directions right away and it will relieve the pain and heal the trouble. Price 25c, 50c and \$1. Sold by George Freishelmer.

ELECTRICAL STORM

Indianapolis, Ind., May 7.—An electrical storm swept over Northern Indiana and Lower Michigan last night and the wind and hail cut down crops and stripped fruit trees. Lightning also struck several barns and houses.

Hoarseness, bronchitis and other throat troubles are quickly cured by Foley's Honey and Tar as it soothes and heals the inflamed throat and bronchial tubes and the most obstinate cough disappears. Insist upon having the genuine Foley's Honey and Tar. Garden City Drug Co., Geo. Freishelmer, Prop.

CENTRAL MARKET

119 West Main St. Phone 15

THE MOST UP-TO-DATE MEAT MARKET IN THE WEST.

Our refrigerating plant is now complete. Come and see it. It'll be a pleasure to us to show you through it and you are sure to admire it. The refrigerating plant system is the most modern, scientific and healthful way of curing and preserving meats and beats the old sloppy style of ice cooling. We have spared no expense to enable us to give you the best goods.

KOOPMANN & WISSBROD, Props.

IT PAYS TO Dress Well Why?

Because it helps your business and your friend like you better.

We are showing an All-Wool Serge suit for \$14.00, and a black Unfinished Worsted for \$18.50, that can't be matched in the town for the money. Also many light, fancy suits up to \$25.00.

We'd like to show them to you.

BROOKS' Everything that men wear
