## MARKET MOVEMENTS OF THE DAY

### TRANSACTIONS IN SECURITIES RECORDED ON THE NEW YORK STOCK EXCHANGE.

New York, May 11.—The lethargic condition, into which the speculation for stocks fell today, was difficult to account for. The apparent change of selling from quarters that were regarded as important gave some relief to some apprehension that informed interests were liquidating their holdings of stocks. Orders from London also were on the buying side in excess of selling orders from that source. Foreigners often are well informed on the views of interests controlling the great corporations here, and the persistent selling of late has been considered rather ominous. The result of that condition today with the closing up of accounts in connection with the stock market movement in London was accepted as the cause for encouragement. Effectual support was afforded by the sympathetic influence of strength in a few stocks, notably Reading. The turn in the buying side in the stock market on the part of London increased the supply of foreign exchange today and took away from yesterday's show of firmness in that market. The buoyant upshot in Reading at the last weakened the general market to only a moderate degree of animation, but the closing tone was strong.

**Metal Market.**  
New York, May 11.—Tin in London was lower today; spot \$122 1/8 and futures at \$123 1/8. The local market was dull and lower; spot, \$29.25@29.50. Copper declined to 59 2/8 for spot and 59 1/8 for futures in London. Locally the market was quiet and unchanged; lake, \$12.12 1/2@13.37 1/2; electrolytic, \$12.75@13; castings, \$12.62 1/2@12.87 1/2.

**Treasury Statement.**  
Washington, May 11.—Today's statement, exclusive of the \$150,000,000 gold reserve, shows: Gold coin and bullion, \$43,465,885; gold certificates, \$38,875,910; available cash balance, \$12,989,650.

**Boston Wool.**  
Boston, May 11.—The upward tendency of values continues to be the chief feature of the local wool market, and manufacturers are realizing that high prices are likely to remain for some time. There has been some fairly heavy arrivals of new wool from the west, all of which is held at top prices. Local dealers are watching the situation both in the west and abroad. Quotations:

## CONTRACTOR HAS JOB WITH THE SHORT LINE

Special Correspondence.  
Hamilton, May 11.—T. A. White, the contractor, returned to Hamilton this evening from a business trip to Wallace, Idaho. Mr. White has completed the greater part of the work he has been doing under contract for the Bitter Root Valley Irrigation company and he is uncertain as to whether or not he will contract for any further work in the Bitter Root when his present contract is completed. He has shipped 150 head of horses and eight carloads of equipment at Armetad, where he has accepted a contract with the Oregon Short line to build 15 miles of railroad grade. He still has about 150 head of horses in the Bitter Root and a large amount of equipment. Mr. White stated that he might contract for a year's work in the valley yet. E. H. Blakeslee, his superintendent was in Hamilton yesterday on business in connection with his company.

## YOU CAN CURE DYSPEPSIA

BUT TO DO SO YOU MUST DUPLICATE NATURE'S PROCESS OF DIGESTION IN SOME WAY.

Indigestion and dyspepsia are often simple little matters at first, but if neglected, will soon cause much pain and distress. Pretty nearly every disease that afflicts humanity is largely due to indigestion; at least, indigestion is the beginning of the trouble. The only way to restore health is to remove indigestion with Kodol. Every tablespoonful digests 2-4 pounds of food. Everyone knows that people must eat to live, and if they would eat plain food in moderation there would be little need for doctors and drug stores; but all of us occasionally, and many of us constantly, eat not only too much, but swallow rich food that the stomach cannot digest.

The food ferments, gas fills the stomach, and undigested lumps of food harden and the lining of the stomach becomes inflamed. That's where chronic and nervous dyspepsia comes in. Now, what is to be done? Simply this—give the stomach rest! Help it to do its work. The only sure way is Kodol. This is true because Kodol is the only preparation that supplies the same digestive juices that are found in a healthy, vigorous stomach. Just as soon as Kodol goes down to the undigested food, it starts proper digestion at once—and away go the distress and pain. Our guarantee: Get a dollar bottle of Kodol. If you are not benefited the druggist will at once return your money. Don't hesitate; any druggist will sell you Kodol on these terms. The dollar bottle contains two and a half times as much as the 50c bottle. Kodol is prepared in the laboratories of E. C. DeWitt & Co., Chicago.

## SURVEYORS LEAVE FOR LOLO

NORTHERN PACIFIC BUNCH IS WORKING IN VALLEY ABOVE SPRINGS.

Special Correspondence.  
Hamilton, May 11.—The northern Pacific surveyors who have been encamped at Stevensville for the past month departed Sunday morning for the Lolo pass, where they will survey a line from the Bitter Root line to a distance 12 miles above the Lolo springs. They expect to be occupied with this work for about 12 days, after which they intend to return and complete the work they have started in the valley but which they have only partially finished. It is understood that a permanent route has been surveyed as far as Stevensville but from there on up toward Corvallis the survey is not completed.

A large sign board has been set up at Stevensville station which is attracting considerable attention. The wording of the sign was done by Dr. Carl Kellogg of Stevensville and tells generally of Stevensville, stating the population, improvements and information generally.

According to a statement made by Manager Harold Chambers, his lumber yard at Stevensville station is proving a great success. He has ordered several million feet of lumber to be delivered there and intends to erect a planing mill so that he can manufacture his own finished stuff.
