

MARKET MOVEMENTS OF THE DAY

TRANSACTIONS IN SECURITIES RECORDED ON THE NEW YORK STOCK EXCHANGE.

New York, May 13.—The largest part of the transactions in stocks today was made in a handful of selected securities.

Many rumors were in circulation, but none was confirmed. The anthracite group among the railroads was the subject of these rumors.

The assertion that an increase of the Delaware and Hudson division was imminent was met with the explanation that this company declares a full year's dividend in December for quarterly distribution, leaving no occasion for a decision on the stocks earlier than next December.

Reasons of a kind to appeal principally to the minds of professional stock operators are seen to have played a large part in the day's market. The general tone was firm, but the movement was narrow.

Bonds were firm. Total sales, per value, \$5,912,000. United States bonds were unchanged on call.

New York Closing Stocks.

Table listing various stocks and their closing prices, including Amalgamated Copper, American Car & Foundry, American Locomotive, etc.

New York Mining Stocks.

Table listing mining stocks and their closing prices, including Adventure, Alliance, Amalgamated, etc.

New York Mining Stocks.

Table listing mining stocks and their closing prices, including Alice, Brunswick, Constock Tunnel, etc.

Table listing various stocks and their closing prices, including Ontario, Ophir, Standard, Yellow Jacket, San Francisco Mining Stock, etc.

Silver and Drafts.

Silver bars, 53 3/4c; Mexican dollars, 47c; drafts, sight, 2 per cent; telegraphic, 4 per cent.

Grain and Provisions.

Chicago, May 13.—The report of rain in Kansas and Nebraska was the topic of discussion on the curb before the opening of the wheat market, and it was the general opinion that the drought in those states had been relieved.

Toward midday sentiment in the pit veered and some offerings became less free, resulting in a gradual upturn in prices. The change was due partly to an apparently oversold condition of the market and to reports of damage to the crop in Missouri.

The top point for July was reached at \$1.11 1/2. Prices sagged somewhat from the top on profit-taking, but the close was about steady, with July at \$1.12 1/2.

Corn was weak earlier in the session, but developed material strength during the final hour. The July delivery sold between 68 1/2c and 69 1/2c. The market closed steady, with price unchanged to 1/2c higher, July being at 69 1/2c.

Metal Market.

New York, May 13.—The London tin market was lower today, with spot quoted at \$131 1/2 and futures at \$132 1/2. The local market was weak and lower at \$28.87 1/2 to \$29.12 1/2.

Copper was about \$1.24 lower in London, with spot quoted at 109 and futures at 109 1/2. The local market was weak, but unchanged, with like quoted at \$13.12 1/2 to \$13.37 1/2.

Chicago Livestock.

Chicago, May 13.—Cattle—Receipts (estimated), 5,000; market steady. Hogs—Receipts (estimated), 10,000; market 5/16c higher; light, \$6.55 to \$7.55; mixed, \$6.00 to \$7.40; heavy, \$7.00 to \$7.50.

Treasury Statement.

Washington, May 13.—Today's statement of the treasury shows: Gold coin and bullion, \$4,392,549; gold certificates, \$3,290,390; available cash balance, \$122,158,205.

Wool Market.

St. Louis, May 13.—Wool firm; medium grade combing and clothing, 25 to 26; light fine, 22 to 27; heavy fine, 15 to 22; tub-washed, 27 to 36c.

The Most Common Cause of Suffering. Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all ills, and it is certainly gratifying to sufferers to know that Chamberlain's Liniment will afford relief, and make rest and sleep possible.

WASHINGTON NEWS THE MISSOULIAN'S SPECIAL SERVICE.

Washington, May 13.—David Sparks of Dillon, who was severely injured on Sunday, May 2, by being thrown from a horse he was riding in the north-west section of town, was able to sit up at the hospital for the first time on the Saturday following, and it is expected that he will be out by the middle of the month.

Special postal service from Hinsdale to Hart, Valley county, a distance of 35 miles, has been ordered established by the postmaster general, beginning May 30.

An inspection of the quartermaster's department at Fort Missoula will be made this month by Lieutenant Colonel J. Estcourt Sawyer, deputy quartermaster general and chief quartermaster of the department of the Dakotas, under orders from the war department.

Senator Carter was one of the guests at the banquet last week tendered to the senator by the city of Missoula.

Henry V. Leueneger, chief of the drafting division of the reclamation bureau, died last week after a two-month illness, in his 39th year.

During the warm weather discussion over the duty on lead in the Senate, Senator Carter of Montana gave an interesting speech on that which is produced in Missouri.

KANSAS POLITICIAN DIES IN AUTO ACCIDENT

Salina, Kan., May 13.—A. P. Riddle, former lieutenant governor of Kansas, was killed here today in an automobile accident.

The machine struck an embankment at a point five miles north of Salina, throwing the large occupants of the car out into a ditch. Mr. Riddle struck on his head and lived but an hour.

GOLD DUST IN AIR MAKES THEM SNEEZE

Cananea, Mexico, May 13.—According to assayers and others of a mathematical turn of mind, the atmosphere in the building used here Monday in a theater was worth a company of traveling Italian opera company and an old ore house, the largest building in town, was fitted up for the show.

"It is difficult to go into an analysis of the comparative efficiency as to miners or any other class of workmen. Mathematically considered, many questions are to be taken into consideration in determining just what is an adequate and efficient compensation for the laborer on the one side of the question, but when we have an experience extending over a quarter of a century to guide us, it is not necessary to indulge in excursions through a maze or labyrinth of figures to reach correct conclusions.

"The senator from Missouri (Mr. Stone) thinks \$1 per hundred, or 1 cent per pound, would be an adequate duty on lead. I submit to him that 3/4 of a cent per pound was ruinous, and the larger advance that he suggests might not be any better. We do not know that this duty would result in keeping our miners at work and all the activities connected with the mining operations of the country in a healthy state of progress.

The senator from Missouri said that while he would stand with his colleague for a duty of \$1 per hundred, or 1 cent per pound on lead, he thinks that the prospects of lead in the duty ought to be radically reduced.

"The principal application to this schedule will run through all of the schedules we may be called upon to consider in connection with this bill. It is of no avail to the grower of wool to have a duty on the wool into this country if he is bound by conditions to ship his wool to foreign markets for sale. The duty is of no avail to the other American market place to sell in, should like to have the senator from Missouri explain, how 1 cent or 10 cents a pound duty on lead would be of any use whatever to lead producers in Missouri, if those lead producers are deprived of the American markets in which to sell their lead; and the American market for the sale of lead is dependent upon the continuance of the manufacture of lead into the various forms in which it is useful to commerce and to the consumer.

"It seems to me these propositions are elemental. A producer of the so-called 'raw material' in the United States can in no case be benefited by a protective duty on his so-called 'raw material' if all the compensatory and protective duties are taken off the finished product.

STEEL MAGNATE SAILS ON VACATION TRIP

New York, May 13.—William E. Corey, president of the United States Steel corporation, sailed today on a vacation trip to Europe. He was a passenger on the La Provence for Havre. Mr. Corey spoke optimistically of the steel condition, and declared that with the tariff adjustment and average crops a speed return of prosperity might be expected.

KANSAS POLITICIAN DIES IN AUTO ACCIDENT

Salina, Kan., May 13.—A. P. Riddle, former lieutenant governor of Kansas, was killed here today in an automobile accident.

The machine struck an embankment at a point five miles north of Salina, throwing the large occupants of the car out into a ditch. Mr. Riddle struck on his head and lived but an hour.

GOLD DUST IN AIR MAKES THEM SNEEZE

Cananea, Mexico, May 13.—According to assayers and others of a mathematical turn of mind, the atmosphere in the building used here Monday in a theater was worth a company of traveling Italian opera company and an old ore house, the largest building in town, was fitted up for the show.

STORE CLOSSES AT 1 O'CLOCK TODAY

Distinctive Clothes AND WHY

Every man who sees our clothing is impressed with the unusual showing of attractive patterns and fabrics. Whether you need a suit of clothes, an overcoat or a raincoat you will find prettier fabrics, better materials and lower prices here than anywhere else.

Our clothing is made by the very best, oldest and most reliable manufacturers of America. Alfred Benjamin & Co. have been making the best clothes at honest prices for more than a quarter of a century in New York, where every authoritative style of the nation originates.

YOUNG MEN'S CLOTHES A SPECIALTY

About \$25

is what the average man wishes to pay to get a good suit or overcoat, but it is a vast amount of money to pay for a poor one. We have tried to tell you in our extensive advertisements just what kinds of clothing we carry here, but you will have to see them yourself.

Raincoats

The handiest garment ever made for men, good as a light top coat on a bright day and equally as good in a cool spring shower.

SMART DRESS ACCESSORIES FOR MEN Are Way Below Regular

Men's Shirts for every-day or dress occasions, handsome light and dark colors, figured or plain, attached or detached cuffs, plain or plaited bosoms; sold by every store at \$1.50 and often \$2; on special sale at \$1.00.

D. J. Donohue Company

Must flying from the cracks and crevices of the old ore house. The gold laden dust was so thick it made people sneeze. Assayers estimate that the people attending the performance could have washed enough gold from their clothing after the dust settled to pay for the cost of their tickets.

Bad BLOOD

"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."
