

CANNON NOT AFRAID STOCK OPERATIONS OF OSLER

SPEAKER OF THE LOWER HOUSE DEFIES OLD AGE THEORY OF PHYSICIAN.

Washington, May 14.—Speaker Cannon is not a bit afraid of Dr. Osler and his old age theory. He told Dr. Osler so today during an address before the National Association for the Study and Prevention of Tuberculosis.

"Dr. Osler, I have reached the age of 73, and I shake my fist in your face," he said.

Dr. Osler laughed heartily at this def of his old age theory.

The speaker harked back to the days of his childhood, when lath tubs were almost unheard of, and when the snow would sift in and cover those lying in bed.

"We had plenty of fresh air then on the Wabash and everywhere on the frontier before the railroads," he said.

Mr. Cannon favored more playgrounds for children, but urged that the legislator be dealt with gently if he did not do everything wanted of him.

Dr. Osler in his address said tuberculosis no longer was a problem of the doctors, and that it probably would take two or three generations to reduce its ravages to the present rate of typhoid.

Dr. Osler congratulated the association in having awakened the public, legislators, philanthropists and physicians.

Three things remained to be done, said Dr. Osler. The first was to keep the public awake, the second to obtain more money, and the third to arouse the interest of more men and women, because the campaign was no longer one entirely for the doctors.

"Whether tuberculosis will be finally eradicated," he declared, "is an open question, but when we think of what has been done in one generation, how the mortality in many places has been reduced more than 50 per cent, indeed, in some places 100 per cent, the battle of hope, with victory in sight."

DUTY REMAINS SAME ON IRON

SENATE UPHOLDS THE RATE PROVIDED IN PAYNE BILL FROM THE HOUSE.

Washington, May 14.—Again the committee on finance was upheld when the senate today by a vote of 35 to 42 voted down an amendment by Senator Cummins to lower the duty on round iron and upheld the house rate which was recommended by the senate committee.

Almost the entire session was given up to a debate on the profit of the United States Steel corporation and toward the end of the day personalities were freely indulged in. This occurred after Senator Root had spoken in defense of the finance committee and in criticism of senators who had complained of the failure of that committee to provide more ample information concerning various schedules. Mr. Money resented what he characterized as a lecture to the senate and said that if the senator from New York desired less speaking, "he should do less of it himself."

Senator Beveridge proposed an amendment to the tariff bill increasing the tax on tobacco and its products and charged that by continuing the short weight packages of the Spanish war period the tobacco trust was reaping a harvest of \$21,600,000 a year.

CAUSING UNEASINESS. Madrid, May 14.—The Herald today says the present situation in Morocco is causing uneasiness in Spain, and that a partial mobilization of the Spanish troops is in progress.

OPTOMETRIST. Investigation, study, daily practice and proper equipment, these are the points which strengthen the optical service I render. That eye strain causes headaches and that my method of adjusting eyeglasses removes the eye strain is being demonstrated every day. Crosses straightened without drugs, operations or pain. Five years in Missoula and not a dissatisfied patient.

DR. GEO. C. MORGAN, Optometrist. Higgins block, phone 341 black.

IT PAYS TO Dress Well Why?

Because it helps your business and your friend like you better.

We are showing an All-Wool Serge suit for \$14.00; and a black Unfinished Worst for \$18.50, that can't be matched in the town for the money. Also many light, fancy suits up to \$25.00.

We'd like to show them to you.

BROOKS' Everything that men wear

STOCK OPERATIONS PORTER IS KILLED BY TRAIN

EMPLOYE AT THORNTON HOTEL AT BUTTE IS MANGLED NEAR BUXTON.

Special to The Daily Missoulian. Butte, May 14.—James Moore, head porter at the Thornton hotel, was killed this morning by having his body cut in twain by an Oregon Short Line train near Buxton. He was about 40 years old and unmarried. He left home last night, stating that he intended selling some mining stock. He did not return, and yesterday his wife became alarmed and started a search. In company with a friend they visited the different undertaking rooms and found the body of Moore in one of the morgues. By some it is thought to be a case of suicide; that Moore hid behind the stone abutments of a bridge until the freight train was nearly upon him, when he jumped in front of the engine.

Spreckels' Lawyer Is Examined. Wheeler Gives Evidence in Case Against Patrick Calhoun at Frisco.

San Francisco, May 14.—Charles S. Wheeler, attorney for Rudolph Spreckels, was called to the stand by the prosecution in the trial of Patrick Calhoun today. His testimony, like that of former Major James D. Phelan, who spent a day and a half on the stand during the week, was directed, according to the statement of Assistant District Attorney Francis J. Heney, to the refutation of the "insinuated charge of the defense that Mr. Spreckels, Mr. Phelan and others had engaged in a conspiracy to oust the United Railroads from the streets of San Francisco with a view to obtaining the transportation franchise for themselves.

HELENA. May 14.—A suit to recover \$1,000, with interest and costs, was instituted this morning in the district court by W. L. Robertson against the Montana Mining Co., Limited, and Alexander Burnett.

Mr. Robertson alleges that in 1906, 1907 and 1908, he was employed at a cyanide plant which the company was operating at Edgemont, Nev. He alleges he was the inventor of a cyanide process and that the defendants promised to pay him for the use of his process, the compensation to be 2 per cent of the gross receipts.

He received his commission for 1906 and 1907, but the defendants have refused to pay the commission for 1908. He alleged that the gross receipts of the company for 1908 was \$50,000, of which he should have received \$1,000.

UNION CITY, Tenn., May 14.—Mansfield Haroldson, a prominent farmer being north of this city, committed suicide last night. He was one of the jurors who tried the eight Night Riders last January, six of whom were sentenced to be hanged, and it is said the worry over that trial unbalanced his mind.

BUTTE, May 14.—Mayor Charles P. Nevin announced today that his choice for chief of police is former Sheriff Jack J. Quinn, and for city detective, Jerry Murphy. Mayor Nevin will formally announce their appointments in the course of a few days.

MISSOULA, May 14.—Two men were killed and another seriously injured today when a large derrick, employed in pile driving, collapsed and fell across the high tension wires of the Telluride Power company.

The accident occurred at the Jordan river transformer station of the Utah Light & Railway company in this city. The derrick of a pile driver gave way and fell to the ground, carrying with it a wire of 40,000 voltage. This wire fell upon Morton Wheelock, employed at the station as assistant operator, and burned him to death, while the frame of the derrick caught William D. Froekelson and Andrew Weston, engaged in pile driving.

Froekelson sustained a fracture of the skull and died a few hours later on the operating table. Weston escaped with serious injuries.

HARTS HORNE, Okla., May 14.—Mrs. George Shooks, wife of a restaurant keeper, was found dead in bed in her home here today. She evidently had been murdered with a butcher knife which lay near the body. There is no clue, nor is a motive known. The body had been hacked and one arm broken as if by a struggle.

SILOUX CITY, Iowa, May 14.—Mrs. Emily S. Nettleton, a "Real Daughter" of the Revolution, died here today at the age of 91.

EAGLES ATTENTION. All Eagles are requested to be present at the next regular meeting, Tuesday, May 18th, to elect delegates to the state convention, June 22, 23, 24, 25. W. D. Hord, secretary.

GARDEN CITY CAMP No. 1525, R. N. of A. will give a card party Monday evening, May 17th. Admission 25c. Ice cream and cake.

DANGER IS OVERRATED IT IS SAID

ILL EFFECTS OF MILK FROM TUBERCULOSIS CATTLE NOT SO GREAT AS SUPPOSED

Washington, May 14.—That there is a tendency to overrate the danger to children from milk from tuberculous cattle was the decided view expressed today at the session of the National Association for the Study and Prevention of Tuberculosis. The subject was exhaustively treated in a joint paper by Doctors Henry Shaw and Arthur T. Laird of Albany, N. Y., who took the position that the attention of the public should not be diverted from the great and real danger of human contagion. If, the argued, tuberculosis milk was so virulent it is so many decades, it was difficult to conceive how any children at all escaped infection. The association of the child with tuberculous parents or other consumptives they said, was a matter of such importance in the diagnosis as well as in the prevention of the disease that every member of a tuberculous family should be examined as a matter of routine. Children especially were exposed to infection because of their irresistible impulse to place everything in their mouths.

They pointed out the enormous danger to children in the house of the tuberculous adult. Dust from a room inhabited by a consumptive, they declared, had been found virulent for six weeks. Towels, they said, were a fertile source of infection.

Tuberculosis occurred more frequently in articles used by infants was another view expressed by them.

SUIT IS DISMISSED. Butte, May 14.—The suit of P. J. Gilligan as trustee of the local note of Eagles against the United States Fidelity and Guaranty company, to recover judgment for the money of Phil Miller, former treasurer of the Butte club, alleged to have embezzled, was this morning dismissed as settled by stipulation of counsel.

Dismissal of this case undoubtedly means that Miller will not be prosecuted on the grand larceny charge pending against him.

GOVERNOR APPOINTED. Helena, May 14.—The county commissioners of Lewis and Clark county today appointed Governor Edwin L. Nord for a term of three years. John S. M. Neill, N. B. Holter and Charles H. Reifernath as delegates from this county to the 17th National Irrigation congress, to be held at Spokane in August.

JUROR COMMITS SUICIDE. Union City, Tenn., May 14.—Mansfield Haroldson, a prominent farmer being north of this city, committed suicide last night. He was one of the jurors who tried the eight Night Riders last January, six of whom were sentenced to be hanged, and it is said the worry over that trial unbalanced his mind.

BUTTE, May 14.—Mayor Charles P. Nevin announced today that his choice for chief of police is former Sheriff Jack J. Quinn, and for city detective, Jerry Murphy. Mayor Nevin will formally announce their appointments in the course of a few days.

MISSOULA, May 14.—Two men were killed and another seriously injured today when a large derrick, employed in pile driving, collapsed and fell across the high tension wires of the Telluride Power company.

The accident occurred at the Jordan river transformer station of the Utah Light & Railway company in this city. The derrick of a pile driver gave way and fell to the ground, carrying with it a wire of 40,000 voltage. This wire fell upon Morton Wheelock, employed at the station as assistant operator, and burned him to death, while the frame of the derrick caught William D. HAY WILL WELCOME DELEGATES

WASHINGTON'S GOVERNOR WILL RECEIVE REPRESENTATIVES TO IRRIGATION MEETING.

Spokane, May 14.—Governor Marion E. Hay of Washington writes from Olympia to R. Insinger, chairman of the board of control of the National Irrigation congress, that he will be present to welcome on behalf of the state of Washington the delegates to the seventeenth sessions in Spokane, beginning August 9. He will leave for Salt Lake City that evening and return to take part in the exercises on governor's day here, August 13, when chief executives will be in attendance from Idaho, Oregon, Montana, Utah, Nebraska, Wyoming, Colorado, Missouri, New York, Kansas, Texas, New Mexico, Kentucky, Florida and other states.

Arthur Hooker, secretary of the board of control, said that it is expected to have at least 25 governors and most of the western senators and congressmen attend the sessions in Spokane the second week in August, where there will also be a number of railroad presidents, financiers and experts who are interested in reclaiming the arid and swamp lands, forestry, deep waterways, good roads and home building, adding that it is of vital importance to every state and territory in the union, from the fact that the objects to be discussed affect them individually or collectively in one way or another. The presence of the governors and members of congress in Spokane during the week of August 9 will afford an excellent opportunity for them to discuss many things of mutual interest. The presence of President Hart and members of his cabinet at the irrigation congress will also influence a large gathering and we look forward to entertaining a large number of delegates and visitors.

DEFENSE PRESENTS EVIDENCE. TESTIMONY IS GIVEN IN BEHALF OF ACCUSED MINING PROMOTERS.

KANSAS CITY, May 14.—Testimony of the defense was introduced today in the case of the government against the Horn Brothers, Raymond P. May and S. H. Snyder, charged with using the mails to defraud in promoting an Arizona mine. The first evidence introduced by the defense was the deposition of C. G. Werner, a practical miner of Arizona, who was vice president and director of the first company organized to develop the Two Queens mine. The defense asserts that it was upon the representations of Mr. Werner as to the value of the mine that they were induced to become interested sufficiently to promote it. In connection with Mr. Werner's deposition, which was taken in Phoenix, Ariz., a circular was read, alleged to have been inspired by Mr. Werner, the contents of which indicated that the mine contained valuable ore. A deposition taken at Los Angeles by R. L. Perry, an assayer of that city, stated that assays of ore from the Two Queens mine examined by him showed a range of value from \$6 to \$7,000 per ton.

MISSOULA, May 14.—Two men were killed and another seriously injured today when a large derrick, employed in pile driving, collapsed and fell across the high tension wires of the Telluride Power company.

The accident occurred at the Jordan river transformer station of the Utah Light & Railway company in this city. The derrick of a pile driver gave way and fell to the ground, carrying with it a wire of 40,000 voltage. This wire fell upon Morton Wheelock, employed at the station as assistant operator, and burned him to death, while the frame of the derrick caught William D. Froekelson and Andrew Weston, engaged in pile driving.

Froekelson sustained a fracture of the skull and died a few hours later on the operating table. Weston escaped with serious injuries.

HARTS HORNE, Okla., May 14.—Mrs. George Shooks, wife of a restaurant keeper, was found dead in bed in her home here today. She evidently had been murdered with a butcher knife which lay near the body. There is no clue, nor is a motive known. The body had been hacked and one arm broken as if by a struggle.

SILOUX CITY, Iowa, May 14.—Mrs. Emily S. Nettleton, a "Real Daughter" of the Revolution, died here today at the age of 91.

EAGLES ATTENTION. All Eagles are requested to be present at the next regular meeting, Tuesday, May 18th, to elect delegates to the state convention, June 22, 23, 24, 25. W. D. Hord, secretary.
