In the interested audience which yesterday afternoon watched the laying of the last rail of the **CONTRAST IS GREAT.** Chicago, Milwaukee & Puget Sound line, there was one man who had seen the other railway finish at Gold Creek when Henry Villard was the ringleader and had the Deutscher bank and the rest of the European nobility at his golden spike driving. That was S. E. Larabee of Deer Lodge, who came down to meet Chief Engineer Pearson and see the finish of the newest and longest transcontinental line. Mr. Larabee was deeply interested in the event of yesterday; he said that, while it was not as spectacular as the one which had preceded it in almost the same spot, it was none the less rich in significance to Montana. "The conditions are very different," said Mr. Larabee yesterday, "but the new road means a great deal to the state. In Deer Lodge we have felt its benefits very directly, of course, but its influence will be felt all over the state. Its coming has certainly given us more advertising than we ever had before, and it will improve our railway service; that is certain, too. The state needed this new road; it has outgrown its early facilities, and it will not be long before it will have too much business for this one. Montana is just beginning, although we thought when the Northern Pacific spike was driven that we had a pretty good start."

Those who were present at the Gold Creek incident yesterday went on to Deer Lodge and visited there for a short time. When they had concluded their visit, they were convinced that Mr. Larabee was right when he said that Deer Lodge had received direct benefit from the construction of the new line. The town is positively lively; it has shaken off that old Sleepy Hollow air that was one of its former charms, and has taken on a guise that is entirely new. The Missoula people who visited the Powell county capital yesterday afternoon were delightfully entertained by Frank Conley, and they have, this morning, a new and exalted opinion of the town. "It does not seem like the same place," said Dr. Spottswood, who was one of the visiting party. "They are complaining that they cannot get houses enough for the people who want to come there to live; there have been a good many new houses built, and there are some more building; the town is more active than I ever saw it before. We had a fine time while we were there, and the only fault we had to find was that we could not stay as long as we wanted to. The town was always very attractive, and while it does not look natural in its new role, it is none the less attractive on that account. The new road will make us closer neighbors to Deer Lodge, and we should be glad of that, for it is a delightful place; they give us anything from an automobile ride to a trout dinner, and every number on the program is a good one. And there was the concert by the penitentiary band; that was not least in the list."

George R. Brown, superintendent of the Missoula water works, came in from Butte last night on No. 5 and will remain here for a few days on business. Mr. Brown is recovering from his recent illness, and though he is not very strong, he is much better than he was when he went to the coast. "I had a pleasant and interesting trip," said Mr. Brown last night to a Missoulian man. "I visited a good many cities in Washington, Oregon and Canada, and I didn't see one that struck me as being in the class with Missoula; there is not one of them that shows the activity and growth that Missoula has, and I was not ashamed to call attention to the fact that Missoula is the best town in the northwest. And I do not mean this is a jest; the more I saw of other towns, the more I appreciated what a high-class town Missoula is. It is the more impressive when you compare it with any other town you visit. I have come back, more than ever impressed by the splendid advantage which we have here."

Among the visitors in Missoula for the past two days has been George F. Bailey of Philadelphia, who is representing a large New York bond house on an important commission. Mr. Bailey is traveling over the country traversed by the Chicago, Milwaukee & Puget Sound line with authority to purchase acreage near the best 10 cities that he sees along the line of the new road. This acreage is to be suitable for platting, and Mr. Bailey has made a thorough inspection of the line as far west as Missoula. Presumably the purchase will depend as much upon the price as the location, though this statement is not made. Mr. Bailey has said, however, that he is specially pleased with

MRS. J. CATHERWOOD IS COMING

GREAT SINGER WILL BE HEARD AT THE BAPTIST CHURCH ON MAY 25.

Mrs. Jane Catherwood will give a vocal recital Tuesday evening, May 25, at the Baptist church. A full announcement of program will appear later. Mrs. Catherwood is a soprano of full power, sweetness and richness of voice and has a wide range of selections which she sings with grace and sympathy and no one will regret going to hear her. One is not often given the opportunity to hear the class of songs she will sing, containing the dramatic with those of lighter vein. Now on a western tour she sang in Billings and the following is clipped from the Billings Gazette: "Musical critics of the city are agreed that the recital given last night by Mrs. Jane Catherwood was one of the most enjoyable affairs of its kind which the people of this city have been privileged to hear this season. "Mrs. Catherwood's voice bears evidence of years of careful training, and in the program of varied selection she acquitted herself with much credit. Her songs in the old French seemed to particularly please her audience."
