

### Timber and Wood Claim For Sale

160 acres of timber (patented), 1,000,000 feet saw timber, 5,000 cords of wood; 250 cords cut and in rick. Only 7-1/2 miles from Missoula. Good road right to land. Easy haul to town. The cut wood ready for market is worth \$750. There is 5,000 cords of wood stumpage worth \$2,500. The 1,000,000 feet of saw timber is cheap at \$2,500. This brings the actual value of this property to \$5,750, and I am offering it for a short time, at \$2,800, on terms of one-half cash; \$2,000 less than it is actually worth.

### HOW TO REDUCE FAT PROPORTIONATELY.

Proportion is the thing. A fat woman yearns to reduce her abdomen, but she doesn't want to produce a scrawny neck. This fact condemns the dieting method of reducing. You can't starve the fat off one place and not off another. Simply impossible. But why try dieting, or even exercising, when there is a better way of reducing fat than either.

Try the following: One-half ounce Marmola, one-half ounce Fluid Extract Cascara Aromatic, three and one-half ounces Peppermint Water. Any druggist will fill the above cheaply. Take a teaspoonful after meals and at bedtime and see if in a few weeks you are not losing about a pound of fat a day—not from places where you are normally plump, but from those that are overly fat. The recipe works like a charm, I am told, and although it produces delightfully apparent results, yet it is perfectly harmless. Doesn't even cause wrinkles, they say who have used it, nor interfere with one's diet, which are two other exclusive and important differences it possesses over all other fat reducers I ever heard of. Instead of being harmful, in fact, as so many of the advertised remedies are, it improves the health and appetite and complexion.

Results are sure and swift. Results are quick and lasting. It penetrates the heart of disease. That is what Hillister's Rocky Mountain Tea does.
