News of Great Importance to Every Man Who Would Save
When we say, "the best suit bargains we've ever offered at \$12.50, \$15 and \$18," we mean it, every word, and when you see the suits themselves you'll agree that they are values the equal of which you have never seen. It was a favorable trade-wind and our ability to swing a great cash deal that is responsible for this extraordinary offering--a manufacturer of note was anxious to work up into suits his remaining stock of spring fabrics before starting on fall goods, we made him an offer which was accepted and now the suits are here and on sale at prices that will clear out the entire purchase of several hundred suits in short order.

We guarantee every suit to be satisfactory in every way and to be the best value ever sold in Missoula at the price

The Baggage Store Says All Aboard for Trunks, Suit Cases, Bags, Etc.

Don't trust to indifferent baggage when you travel--it's too risky, for one thing and, again, you know that the impressions strangers form of one are influenced largely by the character of one's baggage. You want a trunk, a suit case or bag to stand all the abuse it is sure to get and still come out to the good, and that carries character in its make-up. That's the kind we sell--the only kind, yet in a range of styles and grades to meet every demand, a fact which the public generally seems to know, judging by our sales in this department.
