BASEBALL

The picture entitled "The Bad Game," which forms the principle illustration in one of the Missoula Mercantile company's ads in this paper this morning, and the large replica of it which is on display in one of the store's windows, is a characteristic illustration of America's greatest sport, and will interest every lover of the game.

In the pose of the batsman and the tense attitude of the catcher, the picture reveals that the game is at a critical stage; the score is presumably a tie; two out, a man on third, and with two strikes and three balls on the batsman. The batsman, all set to swing at the ball, might be the double of the immortal "Casey."

VICTORY FOR KETCHEL IS HOPE OF JEFFRIES

Montreal, Quebec, June 12.—James J. Jeffries refuses to referee the fight between Stanley Ketchel and Jack Johnson next October, although requested by Ketchel to act. Jeffries said today: "Ketchel wants me to referee his fight with Johnson, but it would not be consistent. I am heart and soul with Ketchel in that fight. I want to see him win. I make no bones about that sentiment. How would it look for me to get into the ring as referee with that feeling? My sympathies are with Ketchel or any other white man who fights Johnson for the championship and I hope that Ketchel will beat him for it and simply save me the trouble."

POE IS CAPTURED AND PLEADS GUILTY

Great Falls, June 12.—Will T. Poe, the defaulting city auditor of Williston, N. D., who attempted to get away through the bad lands in eastern Montana, leading his bandwagon in the lurch to the extent of \$9,500, was captured Friday 35 miles north of Great Falls and returned to Williston today. He was immediately arraigned for trial and pleaded guilty to four charges, two for forgery, one for embezzlement of city funds and another for embezzlement of county funds. The total of his delinquencies amounts to 24 years, but they are to run concurrently, about 10 years in the Itamarack penitentiary.

ENHANCE REAL ESTATE VALUES.

It has been estimated by persons who have made a study of the subject that real estate values in rural districts have increased \$75,000,000, and that the time which would otherwise be employed in making trips to the postoffice represents a yearly value of upward of \$60,000,000.—Assistant Postmaster General P. V. De Gray, in the National Magazine for June.

REORGANIZED GIANTS PLAY TODAY

MISSOULA TEAM WILL MEET DEER LODGE AGGREGATION ON SOUTH SIDE GROUNDS.

If the weather today is all that it should be, the game between the Deer Lodgers with blood in their souls Giants, which will be played at the south side grounds this afternoon at 2:30, will be a fire exhibition. Word comes to the city that the Deer Lodge rs, with blood in their eyes and with a desire to repeat their performance of last Sunday, when they defeated Missoula's pride by the score of 9 to 2, have been scouring the country to secure players who which to make the said defeat certain. The fans from the penitentiary town have sent over all kinds of money to be put up as their side of the betting, and it has been well taken care of, the whole amount having been covered at the first chance. Deer Lodge has gone baseball crazy since the defeat of the Giants last Sunday in Deer Lodge, and think they have a walk-over, which, of course, is denied by all loyal Missoula fans. A big bunch of the Deer Lodgers is expected.

MONSTER SMOKESTACK IS PUT IN SERVICE

Great Falls, June 12.—The biggest smokestack in the world at the Boston & Montana smelter here was put to use this afternoon for the first time. The chimney is 506 feet high 78 feet in diameter at the base, and 53 feet at the top. It has been under construction for two years and together with an immense flue is designed to save the mineral and acids that have heretofore been carried away in the smoke.

AT THE GRAND.

The management of the Grand has announced a very clever and unusually entertaining program for the first part of this week, according to the advance notices which the coming performers have the show should be fully up to standard. A feature of the week's program will be an act by "Ed and Lou," comedians, entitled "Upside Down Duo." The act is said to be unusually good and very original.

NAVIGATION PLANNED AGAIN

RIVER WILL BE PUT IN CONDITION FOR VESSEL TRAFFIC BY GOVERNMENT. St. Paul, June 12.—The government steamer David Tipton lies at the levee after a preliminary survey of the Minnesota river, and brings back the surprising report that the lower portion of that stream at least can be restored to navigation at slight expense. It has been supposed that tortuous channels and broad bars would make the expense of clearing the river for use very heavy. Captain Morton and his pilot found the lower Minnesota comparatively free, and the government boat will return to immediately begin work in removing toppling trees on the banks, clearing up snags and making protection works of branches and trees to guard the banks where there is danger of cutting by the current.

GREAT ENTHUSIASM.

San Antonio, Texas, June 12.—Great enthusiasm has marked the work of the young and progressive business element of San Antonio in the organization of the Publicity League for the round up of \$25,000 to advertise San Antonio. The energy of these young men, and their success in getting at this date almost the whole amount, has been the talk of Texas. They have used every device, flooding the town with personal letters to every business house and follow-up letters, post cards, cartoons and newspaper articles. Dozens of committees have marched out shoulder to shoulder, and after the center of the city had been covered, automobiles were called into requisition and the outlying districts visited.

GLORIFIED SELFISHNESS.

The discussion on the adjustment of a great tariff measure suggests the glorified selfishness of human nature. Each man finds himself fighting tooth and nail for the interests of his own constituents. Every law adjusts itself by usage and custom, and that accounts for the hesitancy about changing the tariff measure; people cling to the old way that has gradually grown up and adjusted itself to their own particular angles.—Joe Mitchell Chaplin, in the National Magazine for June.

CRAZY MAN PINCHED IN IRON MOUNTAIN

A man giving the name of Mac Gallagher was brought down to the county jail yesterday from Iron Mountain as a candidate for the bug house. Constable Meinger, who brought the prisoner down, said he had been wandering in the vicinity of Iron Mountain for some time and that he had been suspected of being slightly crazy. The man, who had calmed down a little, was locked up and an inquiry was sent to Butte where he had lived previously regarding him. Frank Gallagher, a brother of the prisoner, answered and said that the man was subject to similar fits after he had been drinking hard and asked that the examination be postponed until he could get here.

SPORTING NOTES

East Liverpool seems to have it on the other Ohio and Pennsylvania league teams so far this season. On account of Doc Gessler's illness, Harry Lord has been appointed captain of the Boston Americans. Aurelia Herrera, the Mexican lightweight was returned to the game, and will meet Chick Hudson in San Francisco on July 5.

A New York bookmaker offers even money that the Highlanders will not finish the season in the first division. Jimmy Clabby expects to be matched to box Mike (Twin) Sullivan, the bout to take place in San Francisco this month. It is going to be a bad year for George Mullin, the Detroit Hinger. George has won only 11 straight games so far this season.

With Mathewson, Wittse and Raymond pitching winning ball, the Giants should be able to give Chicago and Pittsburg a little excitement. Philadelphia baseball fans are hoping that Billy Murray's Quakers will make a better showing on the road than they did at home. Not only with pushing the Boston Nationals in over their heads all the other National League teams are standing on the Doves to drown them.

The measure to legalize 16-round bouts has passed both branches of the Wisconsin legislature and awaits the governor's signature to become a law. Both Joe Jeannette and Sandy Ferguson have returned from Paris, and they have been matched for another bout in Boston, June 25. Jim Coffroth has offered Jim Jeffries \$10,000 for a "make-believe" fight in order to get moving pictures of Jeff in the ring.

Pitcher "Dolly" Gray of Washington is beginning to show the stuff that Manager Cantillon has claimed all along was in the Californian. Manager Harry Lunney of Brooklyn has signed "Bobby" Anderson, the University of Maryland pitcher. Anderson pitched five shut-out victories for the college this spring. "Dots" Miller continues to cause happiness in Pittsburg. To jump from a New Jersey amateur team to the Pirates and make good is the stunt performed by "Dots," and one that is seldom equaled.

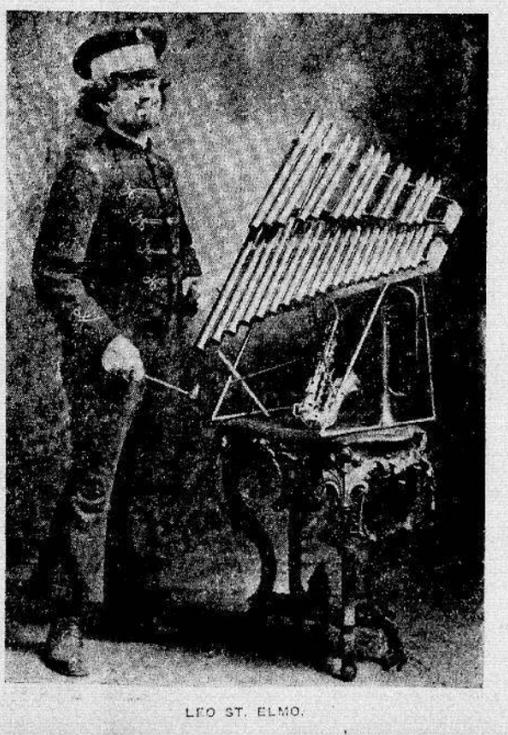

It looks strange to see Rochester leading the Eastern League. For several years past the quickest way to find out how Rochester stood was to begin at the bottom of the Eastern League's percentage table. McAleer's St. Louis players declare that Criss is the champion "sky-decker" of the world. They claim that several balls hit by Criss have come down covered with snow, and that one didn't come down until the game was over, when it was caught by the groundskeeper.

IMMIGRATION INCREASES.

San Antonio, Texas, June 12.—Foreign immigration to Texas has shown a steady and business-like development which promises much for the future growth of the state. Plans have just been completed for the establishing of two Italian farming colonies composed each of 100 families. These colonies will be located in southwest Texas and will be drawn from the sturdy farming classes of northern Italy, who are known throughout Europe as thrifty and successful farmers. Behind the enterprise are certain Texas capitalists. Captain Nicolini, Italian consular agent at Galveston, and Senator Luigi Luzzati, of Milan, formerly minister of finance in the Italian cabinet.

In addition to this Italian colony, this part of Texas has already a very extensive German population, numbering over 100,000 people of German origin. A few of these are recent emigrants from Germany, but the most of them are the descendants of the original German settlement of about 1840.

There is also a Bohemian colony, a Polish colony, and a Japanese colony in this part of Texas. All of them are thriving and have added materially to the wealth of the state. This kind of selected foreign immigration is proving both profitable and desirable.
