

TARIFFS END IN PLAIN SIGHT

FEELING IN SENATE IS THAT CONSIDERATION OF BILL IS NEARING CLOSE.

MAY FINISH SATURDAY

Senator Aldrich Is Hopeful of Completing Task This Week and Senator Beveridge Says Final Vote Will Not Be Postponed Beyond Latter Part of Next.

Washington, June 13.—The feeling in the senate is that the tariff bill is approaching the last days of its consideration in the senate.

The income tax amendments will be taken up Friday and a vote may be reached on the proposition the same day.

Among the more important provisions still to be considered are those pertaining to lumber, wood pulp, print paper, hides, coal, zinc, window glass, scrap iron, cotton ties, cotton bagging, leather, leather goods, binding twine and petroleum.

Enough lumber remains on the available list but the question of the amount of duty and the differential between the duty on rough lumber and on the manufactured article remain to be settled.

Hides, coal and petroleum are giving the finance committee a little concern, but the present indications are that the senate will place a duty on all of these.

Other important articles which remain undecided are pineapples, on which the Florida senators want an increase, and monazite and thorite, which are ingredients in the manufacture of incandescent lights.

It is as yet uncertain how the decision of the finance committee relating to maximum rates will be received, but it is added that it will be thoroughly elucidated before it finally receives approval.

Salisbury of Omaha to marry them free of charge on the train.

DIE TO SAVE SUBMERGED SAILORS

FIVE DIVERS MEET DEATH IN ATTEMPT TO RESCUE CREW OF SUBMARINE.

ALL HOPE IS ABANDONED

Men of Kambala, Russian Craft Sunk in Collision With Battleship Rostislav on Friday Night Must Perish—All Efforts Fail and Operations for Raising Sunken Boat Are Given Up.

Sebastopol, June 13.—All hope is gone of saving the lives of the crew of the Russian submarine Kambala, which was sunk in collision with the battleship Rostislav during maneuvers Friday night, or of recovering the wreck, owing to the great depth of water.

The chances of saving the lives of the imprisoned men were recognized from the first as very remote, although under normal conditions the submarines have an air capacity of three days.

The Kambala type of submarine, however, is weak structurally and for this reason cannot normally make a descent of more than 100 feet.

Four Men Saved. The Kambala went down in 150 feet of water and only unscrupulously bulkheads stood between the men and death after the boat was struck by the Rostislav's ram.

Four men were saved, including the commander, Lieutenant Amilov, who was giving instructions through the speaking tube to the helmsman just before the collision.

IT'S A GRAND OLD FLAG

Today we celebrate the 132d anniversary of the adoption of the stars and stripes as the national emblem of the United States. From the 13 original stars, arranged in a circle on a blue background with the accompanying 13 stripes of red and white alternating, it has grown to its present proportions of 48 stars with the same original 13 stripes. This year for the first time we celebrate the addition of the 46th star, which stands for the new state of Oklahoma. This star was added last Fourth of July and makes an average of an additional star to the flag every four years since 1777.

STRIKING JAPS HELD FOR TRIAL

FIFTEEN LEADERS IN HAWAIIAN ISLAND DISORDERS HAVE THEIR HEARING.

PROSECUTION HAS PROOF

District Attorney Claims That Papers Secured in Raid Show That Sons of Nippon Intended to Use Intimidation in Furtherance of Plan to Gain Control of Internal Affairs.

Honolulu, June 13.—Fifteen of the Japanese strike leaders arrested yesterday upon indictments returned by the grand jury were given a preliminary hearing today. District Judge W. L. Whitney held 12 of them for trial on charges of conspiring to riot, and three for conspiracy to murder.

Following the action of the court in holding the indicted Japanese for trial, William P. Henry, territorial high sheriff, united with County Sheriff Jarrett in the issuance of a proclamation forbidding the assembling of large crowds anywhere in the territory while present conditions in the islands obtain.

The authorities declare that the evidence adduced before the grand jury yesterday and the papers seized Friday when the offices of the Jiji, Japanese newspaper, and those of the Japanese Higher Wage association were raided, furnish abundant grounds for the belief that the strikers intended from the beginning to resort to intimidation and violence in their effort to control the sugar industry and eventually the internal affairs of the territory.

District Attorney W. A. Kinney, who has charge of the prosecution of the alleged conspirators, stated today that the evidence in the possession of the authorities discloses the entire plan of the strike leaders from the inception of the agitation for higher wages.
