In ordering paper changed to new address please give old address also. Money orders and checks should be made payable to The Missoulian Publishing Company.

TUESDAY, JUNE 15, 1909.

WE'LL BE READY.

There was much earnest discussion yesterday on the part of business men and others, of the question of properly caring for the registration crowds. The chamber of commerce entered into the consideration of the matter with the result that it seems likely that there will be a prompt start made in the matter of providing for the comfort and enjoyment of the people who come here for the reservation opening. The hotel and restaurant men are of the opinion that they can take care of the feeding of the thousands, and say that they will make extra provision, and their assurance is that this part of the matter will be well looked after. In regard to the providing of clean and sanitary sleeping quarters, steps have been taken which will insure plenty of cots and a good number of beds. The action of yesterday and last night was in the right direction.

It will require some money to carry out the plans of the citizens who have taken hold of this matter. Their purpose is simply to see that Missoula gets the right kind of advertising from the events of next month. In the first place it is desired that ample provision be made for sleeping quarters for the crowds that come. There is no desire on the part of any of these men to take active part in conducting lodging houses; they simply want to know that private concerns make this provision, ample and well. The wish is also to have abundant information ready for those who inquire as to the means of reaching the reservation and as to the resources of this part of the country.

There will be a committee at work this morning on this question of finance; every business man in the city, every property owner should be willing to subscribe something. When the committee comes, there should be a cordial greeting and a little subscription ready for the fund. It is the best chance Missoula ever had to make her resources and her advantages known.

IMMIGRATION.

The serious problem of regulating immigration is to be taken up today by the executive council of the American Federation of Labor. The question, which involves many vital phases, is of importance to the whole nation, and the federation, representing the labor organizations of the country, is much concerned over several phases of the immigration problem. Particular objection is made to the alleged practice of employment agencies in the cities in sending newly landed immigrants to all parts of the country as strike-breakers. A committee has been appointed to investigate the matter. Other phases of the immigration problem in which organized labor is interested will be investigated by President Gompers, who is going to Europe for that purpose next week.

TO UNITE A CHURCH.

In New York, today, will be held the first session of the international convention of the Presbyterian church. The delegates number more than three hundred, and they represent among them ninety separate denominations and 25,000,000 members. Included among those present are some of the most distinguished theologians and ecclesiastics in the world. The presiding officer is Dr. Oswald Dykes of Cambridge, England. Other noted delegates from abroad are Sir Alexander Simpson, late dean of the faculty of the medical college of the University of Edinburgh; Dr. Campbell Gibson, moderator of the Presbyterian church of England; the Rev. Dr. James Orr, a leading theologian of Glasgow; Professor McAllister, of the University of Cambridge; Dr. J. H. Stevenson of Edinburgh, a nephew of Robert Louis Stevenson; Rev. Dr. Laws, moderator of the United Free church of Scotland; Sir Samuel Chisholm, former lord mayor of Glasgow; Rev. Charles Merle

VEALEY IS APPOINTED CHIEF

COUNCIL ACCEPTS RESIGNATION OF CHIEF OF POLICE WILLIAM G. SMITH.

The acceptance by the council of the resignation of William Smith as chief of police and the subsequent appointment by the mayor of J. A. Vealey as temporary chief was the most interesting and important feature of the meeting of the city fathers which was held last evening. That Mr. Vealey would be appointed has been known for some time and just as soon as the council adjourned last night after accepting Mr. Smith's resignation Mayor Logan made the expected appointment.

To Rebuild Bridge. The council also made a strong move last night in the bridge question instructing the clerk to advertise for bids for the reconstruction of the famous Reitz bridge for wagon traffic, bids to be opened at the meeting, next Friday night. These bids will be for the work only since the city is to furnish all the material and they will call for an immediate completion of the work so that wagon traffic over the bridge may be resumed as soon as possible.

Routine Work. This was about all of the special work which confronted the council and the remainder of the evening was taken up with routine matters. When the roll was called all but Patterson and Bayes were present. A long collection of ordinances which have been on hand for the past month and on which action has been deferred were the first things to command the attention of the council. The ordinance regarding the licensing of automobiles was reported from the ordinance committee with one amendment which required a yearly registration and a tax of \$2.00 a year and was passed unanimously on its third reading. The ordinance creating special district No. 2 fund, special district No. 1 fund, special district No. 1 maintenance fund and special district No. 2 maintenance fund were all reported from committee and passed.

Sidewalk Ordinances. The ordinances providing for the cement sidewalk special fund was passed on its third reading as was the one providing for the payment of the bills for cement sidewalks in yearly installments. A special ordinance was also passed which gives the city treasurer the same power in the collection of bills for cement sidewalks, pavements, sewers, garbage and similar improvements that the county treasurer has. A resolution asking that \$300 be transferred from the general to the fire fund was also adopted.

The letter which was received from Postmaster Ross some time ago in regard to the defective system of numbering of the south side and threatening that unless something was done carrier service would be dropped, was given final consideration and the city engineer was instructed to have the work attended to at once.

Half Mile of Walks. The recommendation of the city engineer that cement sidewalks be placed at different places over the city was adopted and the sidewalks were ordered placed. This action will mean the laying of a little more than a half mile of sidewalks in the various sections of the city.

Licenses Transferred. The liquor license of H. L. Shepard was transferred to Kelley & Brunell on petition. The Retail Liquor license of J. E. Smith was transferred to Henry Emmert.

A number of petitions received, asking permission to build temporary frame structures and tents on North Higgins avenue during the registration for the opening of the Flathead reservation were referred to the streets and alleys committee. The aldermen expressed themselves as being in favor of the erection of these structures for eating and sleeping quarters but intimated that it would refuse this permission to any other kind of business.

In the matter of the bids which were opened at the last meeting for the position of city contractor the committee reported that it was in favor of the bid of Beacham & Johnson, although it was higher and was not accompanied by a certified check. The recommendation of the committee was referred to the city attorney for an opinion.

Abatement Bill. The council ordered that a warrant be issued for the removal of the

VEALEY IS APPOINTED CHIEF PRESIDENT PENNA CALLED BY DEATH

PRESIDENT PENNA OF BRAZIL.

Washington, June 14.—President Alphonso Pena of Brazil died at 7:30 o'clock this morning, according to a dispatch received at the state department from the American ambassador at Rio de Janeiro. The death of President Alphonso M. Pena of Brazil, evidently was sudden. Other than a dispatch received from Rio de Janeiro last night, saying that he was gravely ill and that as a consequence the ministers had been summoned to the palace, there had been no information that he was in ill health. Dr. Pena was elected to office by universal suffrage in the 20 federated states in 1906, and assumed office in November of that year. The term expires in 1910. He was a

native of the state of Minas Gerais and his success was the outcome of a coalition of the principal states against San Paulo, which has supplied all past presidents. Dr. Pena was one of Don Pedro's ministers who accepted and supported the republic after its proclamation. He was vice president of the republic and president of the senate at the time of his election to the chief magistracy. The vice president of the republic today is Nilo Peçanha. Among the important acts of Dr. Pena's administration was the authorization of the \$50,000,000 naval loan, the reduction of the duty on American products and the raising of the duty on sugar and the signing of an arbitration treaty with Argentina.

WASHINGTON NEWS THE MISSOULIAN SPECIAL SERVICE.

Washington, D. C., June 14.—Mrs. John Woodson of Missoula, was a visitor here last week for a few days. The war department has directed that the medical officers of the army make a thorough inspection of sanitary arrangements and conditions at the various army posts in the country with a view to their improvement. This will include Fort Missoula. George Mullino of Butte was another visitor here during the past few days.

The transportation, by rural letter carriers over star routes, of liquors is prohibited by a bill introduced by Representative Sims of Tennessee, in the house. Senator Carter advised young men to marry in his address to the graduates of Georgetown university the other night. He declared that the young man who is not "anchored to a home is in peril."

The right of a state to exchange lands ceded to them for educational purposes which may be in forest reserves for other lands is proposed in a bill introduced by Representative Hamer of Idaho. Deputy Collector Moore of Butte spent an interesting week in Washington meeting acquaintances of half

Bridge & Construction company for \$1,931.94, this to be the first installment on the money due the company for the building of the South Third street abutment. A number of south side citizens, especially from the University avenue improvement district, appeared before the council and asked that something be done to relieve them of the horses and cattle which are feeding over their lands at night. The council appointed Robert Roick extra herder for the south side, so that the trouble might be removed. The council then adjourned until Friday night.

GRANT'S CONCESSIONS. Douglas, Ariz., June 14.—The Mexican government has granted concessions to the Curanea Consolidated Copper company, operating at Cananea, state of Sonora, for a railroad to a point on the Mexican Central railroad in the state of Chihuahua. Four concessions, covering the sections of the proposed road have been granted.

GIANTS VERSUS CARPENTERS. The Missoula Giants will play a practice game with the carpenters on the south side this evening, to get in form for the game with Hamilton, which will be pulled off in this city next Sunday. All players are expected to report at 7 o'clock when the team be in the best possible condition for the coming contest.

S.S.S. HEALS SORES AND ULCERS

S. S. S. heals Sores and Ulcers in the very simplest way. It just goes right down into the blood and removes the cause, and the place is bound to heal because the impurities and morbid matters which have been the means of keeping the ulcer open are no longer absorbed from the blood. External application of salves, lotions, pastes, etc., can never produce a cure because they do not reach the source of the trouble. At best they can only allay pain or reduce inflammation; such treatment is working on symptoms and not reaching the cause. Every nutritive corpuscle in the blood is weakened or infected, they cannot nourish the fibrous tissue around the sore or quantity of impure, germ-laden matter which gradually eats into the surrounding healthy tissue and causes the ulcer to enlarge. Since impure blood is responsible for Sores and Ulcers, a medicine that can purify the blood is the only hope of a cure. S. S. S. has long been recognized as the greatest of all blood purifiers, possessing the qualities necessary to remove every impurity from the blood. While curing the sore or ulcer S. S. S. brings about a healthy condition of the flesh by supplying it with rich, healthy blood, and thus makes the cure permanent and lasting. Book on Sores and Ulcers and any medical advice free to all who write.

BREAK THROUGH DOOR TO TAKE POSSESSION

Little Rock, Ark., June 14.—Governor Donaghy and two members of the state commission today formally took possession of the uncompleted capitol building after breaking through a door which had been locked by the contractors, Caldwell & Drake, whom the legislature ordered discharged. The building, which has cost nearly \$1,000,000 already and which engineers claim is only about half completed, has caused political contention for years. Legislators have been charged in the courts with grafting in connection with the capitol appropriations and Governor Donaghy was elected governor on the capitol question.

SHIPPED TO GRANTS DALE. Clara, the 4-year-old daughter of Mr. and Mrs. Hugh McLean, died Sunday night at St. Patrick's hospital from meningitis. The remains were shipped last evening to Grantsdale, where interment will be made.

SMITH GOES TO PEN. Deputy Sheriff Charles Farrell yesterday took Frank Smith, recently convicted of forgery, to the state penitentiary at Deer Lodge, where the man will serve 18 months. Mr. Farrell returned on No. 5 last night.

MISS ADDAMS CHOSEN. Buffalo, N. Y., June 14.—Miss Jane Addams of Hull house, Chicago, is the president of the National Conference on Charities and Corrections for 1910. The selection today was unanimous. This is the first time in the history of the conference that a woman has had this office.

STEWART IS ARRAIGNED. Special to The Daily Missoulian. Helena, June 14.—R. W. Stewart, formerly supervisor of the Jefferson national forest, with headquarters at Great Falls, indicted by the last grand jury on a charge of embezzling the sum of \$165.70 and of presenting fictitious accounts to the fiscal agent. He was arraigned this morning in the federal court. The time for pleading was deferred until Saturday.

WESTON AT CHURCH BUTTE. Church Butte, Wyo., June 14.—Leaving Granger at 8:55 o'clock this morning, Edward Payson Weston, the ocean-to-ocean pedestrian, arrived here, 11 1/2 miles, at 12:30 p. m.

A new burglar alarm, the invention of a Dresden engineer, consists of a curtain containing numerous wires. Any movement of it breaks a circuit and rings a bell or switches on lights. The federal forest service has developed a process for making paper from scrub pine, which covers extensive areas on the southern Atlantic seaboard, and is little used except for fuel.

Watermelons

And so you thought the business of a railroad was to haul freight and passengers from one place to another? Dear! dear! how old-fashioned your notions are! The chief business of a railroad is market-gardening, and the fruit is a luscious type of melon which the owners cut up for themselves.

A melon crop worth \$400,000, 000—perhaps more—has rewarded the gardening efforts of James J. Hill and his associates. Charles Edward Russell tells how two very able Boston lawyers got into Mr. Hill's history and laid bare every transaction in his remarkable melon-growing record. The results will make you gasp. For the first time in the history of giant corporations the whole process of stock watering is here set forth in clear, understandable style. If you are interested in grocery or clothing bills—or if the cost of living affects your peace of mind—you need to read this article. It will help you learn why prices keep going up.

HAMPTON'S MAGAZINE

June—on Sale Now. Some of twenty other great features of this number are: 'What Shall We Do with Our Millionaires?' Gilbert K. Chesterton (the English Mark Twain) says we must either lynch them or talk about them. 'What do you say?' We will give you—some one—cash prizes of \$50.00 for letters on Chesterton's article. 'The Black Mystery'—In 'The Unknowable Negro' Judge Harris N. Dickson has produced an unbiased, very interesting special article that Northerner and Southerner alike will read with profit. 'Luther Trant'—The new psychologist-detective. Better than Sherlock Holmes. 'White Coal'—A fine big article on "water farming" by John L. Matthews. If you don't wake up your great-grand-children will freeze to death. Eight splendid stories: by Rex Beach, Parker Fillmore, Charles G. D. Roberts, and other leading authors. The best of the best fiction. Buy it today—any live newsdealer 15 cents HAMPTON'S MAGAZINE, New York

Many of our citizens are drifting towards Bright's disease by neglecting symptoms of kidney and bladder trouble which Foley's Kidney Remedy will quickly cure. Garden City Drug Co., Geo. Frelsheimer, Prop.

Start the Day Just Right

You can get breakfast at Ye Olde Inn at 7 o'clock and on through the morning. Hot waffles a specialty.
