GOOD CIGARS
Within certain limits, there is a chance for a difference of opinion as to whether cigars are good or not. No one brand is sure to suit everybody, but there are certain brands which come pretty near it and this is the kind we endeavor to keep. In our opinion at least, we have the best assortment of cigars in the city and shall be glad at any time to have the opinion of smokers who are not already familiar with our line. One thing is certain, that we always pay enough to get good brands and are quite sure that we get what we pay for.

CAUGHT ON THE RUN ABOUT TOWN
Amos Buck was in town yesterday on one of his regular visits to the city and he had a hard job and his hands to get a GREAT INDUSTRY through his cutting list in time to take the train for home last night. He was on the jump all day and was forced to leave his card in several cases instead of making personal calls; this was regretted by those who were missed and they hope that the genial discoverer of the McIntosh Red will start at the other end of his next time and in that way get to see them personally. Mr. Buck was an enthusiastic as ever over the Bitter Root and said that in all the years he has known the valley he has never seen the prospects so good as they are this spring. The Bitter Root is a region of big things and Mr. Buck is sorry that Great Falls has the greatest stock in the world for he wanted that honor for the valley that is greatest in everything else. "We are going to have," said Mr. Buck yesterday afternoon, "a stack that will beat the world, we are going to locate it in Stevensville on Progress avenue and it will be more than a thousand feet high, its diameter will be 80 feet and there will be 23 lightning rods running eight feet above the stack; there will be a blast of hot air going up the stack all the time and every time we catch a knicker we are going to catch him in this furnace; the draft will be strong enough to take his remains in powdered form up in the air, where they will be disintegrated. It is bound to be a great thing."

DAVE BISHOP.
Hamilton's efficient chief of police was in the city last night, waiting for the North Coast Limited, which will take him east this morning to Saginaw, Mich., where his mother is seriously ill. "I expect to be gone about ten days," said Mr. Bishop last night. "My mother is very old and is fading away with the weakness of years. I want to see her once more and shall visit with her as long as my leave of absence will permit."

MORE OF 'EM.
For two or three days there have been more Bitter Root folks in town than usual and it has seemed good to have them so near. Wynne Roberts was here yesterday and so was Sidney Powers, D. V. Bean and Pat Shannon were early visitors during the week and there have been others by the score. Hamilton and Missoula are pulling together and are pulling well and the best way to keep them lined up is to be sociable. The best thing that has happened for the promotion of sociability has been the automobile, this machine has brought the towns very close together and the electric trolley line will bind them even more tightly.

LOTS OF MONEY.
J. E. Moody and A. M. Stevens have just returned from a visit to Wallace, where they went to attend a meeting of the stockholders of the Leslie Copper Mining company and decided to have the Leslie join the Dixie in extensive tunnel work. Asked how things looked around Wallace in a mining way, Mr. Stevens said: "Wallace looks good and every one seems to have money, yet business is not so good. I find all brokers and mining men very optimistic. Several mines will make properties that will pay well and add much to the wealth of the Coeur d'Alene. While stocks are low people are showing their faith in the country by putting their last dollar in the mines the same as Missoula people are putting their last dollar into real estate. Reindeer and Wonder are particularly good buys at present. I saw an insurance policy written on the new building of the Banker Hill and Sullivan covering about \$300,000, written by Terman J. Rasse. This building will give them a capacity of one thousand men against six hundred now employed, which fore, I understand, they will add shortly. I want to say right here that there are no good properties on this side of the divide as the Banker Hill and Sullivan were twenty years ago, and whenever you take a share of stock in one of these prospects you are helping to make another Banker Hill and Sullivan mine, also to put yourself in the millionaire class and move one peg away from the park and bean class."

Notice.
All persons who are planning to furnish lodgings for the people who are coming to Missoula for the Flathead reservation opening are requested to hand their names to the secretary of the chamber of commerce, together with their location and the number of guests they can accommodate, in order that a directory may be compiled. Prompt cooperation in this matter will greatly facilitate the work of arranging for this important matter.

CHARGE OF CRUELTY WILL BE MADE
MISSOULA BRANCH OF HUMANE SOCIETY PLANS TO PROSECUTE OFFENDERS.

That criminal actions will be instituted against meat residents on the charge of cruelty to animals seems likely to be a direct result of a meeting of the Missoula branch of the Humane society, yesterday afternoon. The meeting was the regular monthly session of the organization and several cases of cruelty to dumb horses were reported. It was announced after the meeting had ended that prosecutions are to follow.

Mrs. McCormack, Mrs. Valentine and Miss Woody were named as a committee to look after the repairing of the south side fountain on Higgins avenue and to make arrangements for installing of a similar institution on the west side.

Rev. Mr. Harby, Mrs. Greenough and Mrs. Thompson were chosen as a committee to report on the condition of the animals in the city's "zoo" in Greenough park.

Miss Woody was delegated to confer with the state president of the society regarding the legal status of the organization and it was unanimously decided that the Bill of the law should be enforced in the cases of men who are in the habit of hitching horses in alleys and on the public streets and permitting them to stand for hours uncovered and unfed.

ARRANGEMENTS MADE FOR A CONFERENCE

Spokane, June 15.—Arrangements were completed at a conference in Spokane by representatives of the United States forestry service and heads of voluntary forest fire protection association to patrol 150 townships or 2,500,000 acres of timber lands in the five northern counties in Idaho, owned by the government, the state and private concerns. The wardens and rangers will divide the territory and the expense of fighting the fires in the district will be prorated on an average basis. The cost of this work was less than 3 cents an acre in 1908. This is the first time that the government has entered into an agreement of a similar character with private companies, and Albert L. Frewing, president of the Pacific Northwest Forest and Conservation association, taking in Washington, Idaho, Oregon, Montana and California, say it marks an epoch in the history of fighting forest fires in the northwest. The government was represented by W. B. Greeley, district forester of Missoula, Mont.; W. G. Weigle, superintendent of the Coeur d'Alene forest reserve, and William W. Laird, president of the North Idaho Forestry association, representing the associations.

SERIOUS BLAZE AT WALLACE.

Wallace, June 15.—An explosion of gasoline in a plumbing shop owned by C. F. Hendricks started a fire at noon today which destroyed the shop and three residences in the vicinity, causing a loss of about \$6,000. A strong wind blew embers into yards five blocks away and clothing hanging on the lines was destroyed.

GRADUATION WEEK IS BEGUN
PUPILS OF SACRED HEART ACADEMY WILL RENDER "MISTRESS OF FERLEIGH GRANGE."

The first event in commencement week at the Sacred Heart academy was the little four-act comedy, "The Mistress of Ferleigh Grange," rendered last evening in the basement of the Catholic church by the girls of the St. Catherine Literary society. The young ladies carried off their parts in splendid form, receiving the plaudits of the large crowd at many periods during the performance. It is a delightful little comedy and contains several amusing situations, especially the scene in the first act of act four, the setting being Mrs. Spooks' shop, the characters in the scene being that of Mrs. Spooks, taken by Katherine Sullivan, and her daughter, played by Blanche Hamel. These characters, together with those of Aunt Clives, by Margaret Finnegan, and Topsy, her daughter, by Flo Barriard, furnished the comedy of the play, and very acceptably. The other parts were well sustained and deserved the applause which was given them. The program and cast of characters were the same as announced in The Missoulian of Tuesday morning.

A Musical.

The next affair to be given during the week will be a musical on Thursday evening by pupils of the music department of the academy. A splendid program has been arranged, as follows:

WANT COMMISSION APPOINTED
OSCAR A. SEDMAN AND GIDEON E. BLACKBURN ASK FOR APPOINTMENT.

Yesterday Oscar A. Sedman and Gideon E. Blackburn instituted suits against the Missoula Orchard and Improvement company and the California Orchard company, asking that an appraising commission be appointed by the district court to determine the value of their respective holdings of the stock of the two companies. The suits are based on a promise of delivering real estate that was never kept, according to the papers filed yesterday.

Breach of Promise.
In the district court Edwige Milot has brought suit for damages to the amount of \$25,000 against Martin Waldson, a railroad contractor who formerly resided in this city. Breach of promise to marry is the basis of the complaint. Miss Milot is a resident of Helena.

Acquajudged Insane.
Mrs. Luella S. Bowers was adjudged demented yesterday, after an examination at the hands of a commission, consisting of Dr. F. D. Dease and Dr. E. H. Freeze. "Overwork and age," is the way in which the findings of the commission were summarized. Mrs. Bowers, who has been in charge of a rooming house over the Orvis music store on Cedar street, is suffering with the hallucination that she is very rich and that she wishes to build a railroad. She is 53 years of age and was born in New York, coming to Montana 10 years ago from Oregon, Utah. She has five children, one of them being Mrs. P. W. Morris of this city. Her condition is not regarded as critical and she will be taken to the home of a daughter in Spokane, to rest and recuperate. A guardian will be appointed to take care of her property.

SUCCESSFULLY HOLDS SECRET OF RAILROAD

Spokane, June 15.—Robert E. Saralorn, president of the mysterious North Coast road, which is endeavoring to get rights-of-way, again successfully evaded betraying the road's ownership in spite of close questioning today in court during condemnation proceedings. He testified that the New York banking house of Barveley Plisk & Sons held the stock of the North Coast and put up the money for it.

Asked if he did not know this money was provided by the Canadian Pacific, he replied:

"I don't know it."

"Was your understanding with the men putting up this money oral or written?"

"Oral, with the banking house and trustees."

DR. BUCKLEY TO BALTIMORE.
Dr. J. J. Buckley leaves this morning for the east, his most special destination being Baltimore. There Dr. Buckley will spend several weeks in special work in the clinics of Johns Hopkins university.
