WEDNESDAY, JUNE 16, 1909.

IN EARNEST.

The people of Missoula have awakened to a realization of the importance of properly preparing for the entertainment of the visitors who will be here for registration for the drawing for Flathead reservation lands.

THEIR WELCOME HOME.

The city of Dayton, Ohio, is today in a flutter of excitement in anticipation of the return to their home of the Wright brothers, after their successful tour of Europe and their complete triumph in the demonstration of the efficiency of their airships.

CONSERVATION.

Declaring that the administration will give attention to the protection of the country's natural resources, President Taft says: "The necessity for a comprehensive and systematic improvement of our waterways, the preservation of our soil and of our forest, the securing from monopolistic private appropriation the power in navigable streams, the retention of the undisposed coal lands of the government from complete alienation—all these matters are vitally important to the people of the United States."

prospect that the deficit will continue for a year or two longer under the most favorable conditions, the expenditure of a few millions of dollars a year for the protection and extension of the country's natural elements of wealth would be a wise outlay.

"The homestead act, which Lincoln signed in 1862, threw the public lands open to settlers at nominal figures. In those days Uncle Sam was, in the words of the old song, 'rich enough to give us all a farm.' But at length the great bulk of the arable land was exhausted. Then came the national irrigation law, signed by Roosevelt in 1902, under which a new empire is being opened up for home builders.

IT'S A GREAT GAME.

Sometime today, according to the announced schedule, the imperial German yacht, Hohenzollern, with the kaiser on board, will enter the waters of the Finnish gulf for the meeting which has been arranged to be held in that inclosed body of water, between the rulers of Russia and Germany.

Nature is doing her best to make the country attractive to visitors, and it is up to Missoula to give them places to sleep and enough to eat.

The reservation landseekers are arriving early and they are finding things fully up to the advance notices.

This is the last fixing, we hope, that the bridge will need. The next time it goes out, we can spare it.

More than ever, forest conservation is necessary and the national forest system meets the demand.

All other berries are merely preparatory to the advent of the Bitter Root article.

In the matter of the reservation opening, the railways are playing great ball.

The Milwaukee's description of Montana makes us prouder than ever of the state.

The city administration loses no time in meeting the emergencies as they arise.

You don't know what a good country this is until you come to look it over.

The proposed short cut to Butte will open up more fine country.

The temporary bridge will be made permanent for another year.

The Bitter Root strawberry will soon be queen of the market.

FIGHT FOR REWARD BEGINS

CLAIMANTS OF MONEY OFFERED FOR CAPTURE OF HOLD-UPS ARE IN COURT.

Helena, June 15.—An array of Montana's brilliant attorneys are employed in the trial of the case of the Northern Pacific Railway company versus George Paolin, Jerry Lynch, Mrs. Hunsate and a number of others, brought for the purpose of ascertaining who shall receive the reward offered two years ago by the Northern Pacific for the arrest of James Calvin Towers, George Hastings and Harry J. Gruber, who hold up and robbed the Northern Pacific eastbound passenger train and killed Engineer Close at Welsh's Spur on the morning of May 7, 1907.

The case was started this morning and those appearing for the various defendants are Sanders & Keamer, Peter Breen, Maury & Hogueville, W. I. Lippincott, E. S. Booth and P. K. Wheeler of Butte; Galen & Mettler and McConnell & McConnell of Helena.

The case is being tried before Judge J. Miller Smith and a jury. This amount involved in the controversy is \$8,000.

DECIDES AGAINST LISTING OF STOCK

Paris, June 16.—A newspaper states that M. Caillaux, minister of finance, has decided against the listing of the common stock of the United States Steel corporation on the Paris bourse, because, first, the government cannot legally entertain an application for the listing of stock which has not been made by persons issuing the stock, and in this case the application was made by a "bankers' trust"; second, it was proposed that a bankers' corporation should issue certificates to represent the shares, which is also held to be illegal.

In addition technical objections were raised by the treasury and a strong protest was lodged with Premier Clemenceau against compromising the principal metallurgical undertakings of France and against the exceptional treatment accorded a foreign corporation.

HALF OF THE MONEY IS STILL MISSING

Los Angeles, June 15.—Fifteen thousand dollars in currency of the original \$30,000 shipped June 7 by the First National bank of this city to the Bank of Bisbee at Bisbee, Ariz., by registered mail and stolen by unknown persons before it left the city, is still unrecovered. One-half of the stolen money, contained in two packages, one of \$10,000 and another of \$5,000, was found yesterday or the day before at the local main post-office, where it had been hidden by the thief. The two remaining packages, containing similar amounts, have not been found.

Much secrecy is maintained by the postal officials regarding the affare. A number of persons are under suspicion, but no immediate arrest is probable.

BEST RECREATION UNDER DISCUSSION

Buffalo, June 15.—The best method of recreation for the public and its direction in proper channels was one of the interesting topics taken up at the conference of charities and corrections here today. Press and publicity was the topic at the evening session. H. Wirt Steele of Baltimore and Albert Shaw of New York were the principal speakers.

BLIND GIRL ADVISES FELLOW SUFFERERS

Columbus, Ohio, June 13.—What is said to be the largest conference in the interest of the blind in the history of the world was begun here today on the occasion of the opening of the biennial convention of the American Association of Workers for the Blind, Tadousa, Quebec, special representative of the emperor of Japan, delivered an address. A letter from Helen Keller was read. She urged the blind not to quibble over systems or print, a subject which had a foremost place on convention programs for years, but to devote time toward solving the more important problems of how to prevent blindness.

A communication to The Missoulian from the New York Herald states that Dr. W. D. Harkins was a visitor in the Herald's Paris office June 9. Dr. Harkins, who holds the chair of chemistry in the University of Montana, has been in Europe for several months.
