IN GOOD SHAPE.

The plans of Missoula for the entertainment of the crowds that will be here for the reservation registration are making good progress.

The city has taken a hand in this matter by providing that no license will be issued for conducting a lodging house, permanent or temporary, unless the sanitary regulations are complied with in detail.

In other lines the work of the chamber of commerce in preparation for the reception and care of the visitors next month is coming along in good shape.

JUNE 17.

"There is Boston and Concord and Lexington and Bunker Hill; and they will live forever." So spoke Daniel Webster in eulogy of Massachusetts, and we verify his declaration as we make, from year to year, formal recognition of the anniversaries of the events out of which grew our nation.

POSSIBLE RELIEF.

"The census of 1910," says James J. Hill, "will show that we have a population of 90,000,000, which will mean that we will require for our own use about 630,000,000 bushels hereafter.

Possibly this forecast is correct, and therefore high prices for wheat will be the rule hereafter. On the face of the figures the outlook for any large surplus of wheat again is not bright.

of education which the high prices has set on foot ought to bring results which will tell in the crop yield of the near future. In aggregate wheat production the United States has still a lead over every other country, but it is not as long as formerly.

FOR INFORMATION.

Each morning The Missoulian publishes the detailed instructions of Judge Witten relative to the method of applying for lands on the Flathead reservation. This information is repeated each morning, and this will be continued for some time, as the government has thus far failed to furnish copies of the instructions of the superintendent in quantity sufficient to meet the demand.

AN ECLIPSE.

Today occurs an eclipse of the sun which is remarkable in its phases. It is a matter of regret amongst astronomers of this country that the eclipse will not be seen on the western continent to the best advantage.

The central path of this eclipse lies wholly in the far north. It begins in Siberia and, crossing the Arctic circle, passes nearer the North Pole than any explorer has yet reached, and leaves the earth in southern Greenland.

Bitter Root water on Bitter Root soil with Bitter Root sunshine and Bitter Root toil make the strawberry grow and the McIntosh blush; no wonder the homeseekers come with a rush.

Mr. Aldrich calmly declared, says the press report of the senate proceedings. It is a good sign that the Rhode Island senator has calmed down.

Missoula will be ready for the crowd; there will be enough to eat and a good place to sleep for all of the reservation throng.

It isn't often that the printers dance, but on next Tuesday night they will demonstrate that they can trip as light a toe as anybody.

The showers mingle with the sunshine in proportions that testify to the high quality of the judgment of the weather man.

Moreover, the Flathead reserve is the best reserve that has been opened to settlement; that's the cause of the crowd.

To know western Montana is to like it and more people than ever are learning to know the region this year.

The increasing business of western Montana calls for more railways and will keep them all on the jump.

The number of inquiries regarding the reservation opening indicates a lively interest and a big crowd.

However, Mr. Heinze is not alarmed by the mere fact that he has been indicted. It is only once more.

The Montana publicity league is getting started in the right direction and at a good pace.

The landseekers come to western Montana, they see and they are conquered.

It is no wonder Mrs. Gould took to drink with only half a million a year to spend.

The Japanese in Honolulu want to make serious trouble, but they can't do it.

The conclusion of the tariff debate drags out like a Patti farewell.

Apple Town is making good every claim that was ever made for it.

MISS JESSIE M'COY BECOMES MRS. HAMILTON I. LOVING —NEWS OF SOCIETY.

(Continued From Page One.)

Hamilton I. Loving, forest agent for district No. 1 of the forest service, and Miss Jessie A. McCoy, also connected with the local headquarters of the government bureau, were married at 9:30 o'clock last evening by Rev. Henry Van Engelen at the parsonage of the Baptist church in the presence of a few intimate friends.

The committee disapproves transactions in mining shares on the Produce exchange in the following language: "From our examination of the trading in mining stocks, recently introduced we conclude that the lack of experience of this body in this class of business has resulted in a neglect of proper safeguards to the investor and an undue inclination to speculative transactions of a gambling nature, and should not be tolerated on the Produce exchange."

Mrs. Boos is Hostess. Mrs. Edward Boos was hostess of a delightful afternoon party on Wednesday at her home in Hammond block. Needle work occupied the early hours and a dainty luncheon was served at the conclusion of the afternoon. About 12 guests were present.

The Cotton Exchange. The New York Cotton exchange is described as the "world's clearing house for the staple." Selling for future delivery is declared to be necessary to the harmonious and uninterrupted movement of the staple from producer to consumer.

Four Leaf Euchre Club. The Four Leaf Euchre club was pleasantly entertained yesterday afternoon by Mrs. Charles Blair at her home in South Missoula. Five hundred was played until the middle of the afternoon, when luncheon was served, after which cards were resumed until after 5 o'clock. About 25 ladies were present.

The Other Exchanges. The exchanges dealing with fruit and hay are not concerned with speculation. The committee, however, disapproves the practice on the Mercantile exchange and the Metal exchange on the ground that their quotations are not a record of actual transactions.

THE LOST CAR.

Seated one day in the tenebrae, I was timid and ill at ease; I heard a sort of rambling, And a kind of a wailing woe.

It rained all by breaks and bruises Into one perfect pain; And it rumbled and whizzed and gurgled, As if it would come again.

I have sought, but I seek in vainly, The reason for that great sound, That came from the soul of the motor, As it threw me on the ground.

It may be a first-class earthquake Could bring such a sound to men; And it may be that only in nightmares I shall hear that noise again.

Pennsylvania's new pure food law forbids the sale or having in possession with intent to sell articles of food containing any of 23 specific preservatives or adulterants, but permits the use of benzoate of soda in quantities of not over one-tenth of one per cent.

The rule of the Coffee exchange providing that in case of a corner the officials may fix a settlement price is commended by the committee.
