

DO YOU KNOW

That the Bitter Root valley is the largest of the famous fruit-growing districts of the northwest?

That the Bitter Root is larger than the combined areas of the Hood river, Wenatchee and Yakima valleys?

That the McIntosh Red apple attains its highest state of perfection in the Bitter Root?

That the largest private irrigation scheme ever undertaken is being carried out in the Bitter Root?

That there are more than 500,000 acres of orchard lands in the Bitter Root?

That there are hundreds of new settlers coming to the valley this summer?

That the university settlement in the Bitter Root is bringing to the valley some of the most celebrated college professors in the country, who will make their summer homes here?

That there are at least three other settlement plans to be carried out this summer, which will bring men of wealth, refinement and influence to the Bitter Root?

That there is no other district so attractive as to scenery and climate as the Bitter Root?

The Bitter Root Valley

A Pacific Slope Land
Famed for Its Perfect Fruit
and Its Great Profits

The Valley of Opportunity

A single acre of land in this valley has been known to produce a net profit of over \$1,800 in one year; \$500 annual net profit from an acre of land is a common event.

Crops never fail, fruit pests are unheard of and fatal diseases among stock, hogs and poultry are unknown.

Water for irrigating purposes in accessible and inexhaustible quantities.

The beautiful mountain scenery, an abundance of pure water, healthful mountain air, unrivaled climate, good means of transportation, convenience to markets, good schools, close proximity to state university, and the lowest cost of living all combine to make this locality the most ideal place for a home in the great northwest.

TAFT WILL ATTEND IRRIGATION MEETING

Spokane, June 17.—Dr. W. J. McGee, of Washington, D. C., secretary of the inland waterways commission, a branch of the National Conservation association, announced in Spokane that President Taft will attend the seventeenth session in Spokane on August 9 to 14. The Spokane meeting, he added, will be the first in the history of the congress to be attended by the president of the United States. Dr. McGee has just completed a tour of the eastern and middlewestern states, which, he says, will be largely represented by prominent delegations, many of them headed by governors of their states. There is also keen rivalry over the convention city, to 1909, among the bidders being Chicago, St. Louis, Pueblo, Colo., Rochester, N. Y., and Charleston, S. C. The attendance of foreign representatives will also be large, and there should be thousands of visitors besides the delegates.

PREPARING TO CARE FOR HOMESEEEKERS

Spokane, Wash., June 17.—Preparations are being made in Spokane, Coeur d'Alene, Idaho, and Kalispell and Missoula, Mont., to provide temporary quarters for at least 150,000 persons, expected to participate in the workings for Indian lands on the three reservations to be opened in Washington, Idaho and Montana, on August 9 and the following days. From 500 to 750 homeseekers are coming daily to the four cities to look over the lands. The rush is expected between July 15 and August 5, when registrations will be made. The Spokane Chamber of Commerce and the commercial organizations of the other cities have arranged for rooms, and when these are filled it is planned to establish tent cities. The local organization has arranged for 250 tents, which will be put at Natatorium park. It is also promised there will be no advances in the cost of food and rooms in Spokane.

BREACH OF PROMISE SUIT TO BE SETTLED

Spokane, June 17.—Martin Waldson, formerly of Missoula, a member of the firm of Coughren & Waldson, railroad contractors of Spokane, said that the suit instituted by Miss Edwidge Elliot of Helena for \$25,000, alleging breach of promise to marry, will be dropped. He added: "The whole matter will be settled, and the suit will be dismissed when it comes up. Aside from that I have nothing to say. The suit will be settled."

Miss Elliot claims that the Spokane man asked her to marry him in January, 1905, the date being set for the wedding for the following July.

When the time for the ceremony came, it is alleged that Mr. Waldson postponed the event, and since that time it has been a series of unkept promises until finally the plaintiff charges that Mr. Waldson does not intend to marry her.

TWO BOYS ARRESTED FOR COUNTERFEITING

San Francisco, June 17.—Harry Maibler and Richard Howard, both under 19 years of age, were arraigned today before United States Commissioner Hancock and held to answer for counterfeiting. It developed at the hearing that the alleged counterfeiters, when arrested, were in possession of 25 one-cent pieces, together with over 200 bogus quarter-dollars.

Both have confessed to secret service officers that they had planned to coin half dollars in another week. They are believed by the authorities to have placed in circulation many bogus coins in and about this city.

NAVAJO INDIAN BOY SENTENCED TO JAIL

Salt Lake, June 17.—Dan Tsong, a 15-year-old Navajo Indian boy, pleaded guilty today in the United States district court to the charge of murdering four of his relatives several weeks ago in a remote part of the state. He was sentenced by Judge Marshall to serve a term of 10 years imprisonment in the federal prison at Leavenworth, Kans., and pay a fine of \$100.

The boy killed his aunt, uncle, sister and a cousin in resentment of a threat of the uncle to punish him for his refusal to work.

NEWS OF WALLACE

Wallace, June 17.—The mystery of the ledge in the Jack Waite property near Murray has been cleared up finally after 25 years spent in seeking the source of the fine galena discovered in the gulch. It has always been supposed that the vein crossed Tributary gulch. A tunnel was started years ago in the hillside a short way up from the gulch and was run along the hill following the gulch. Shatts were sunk and other tunnels run but no trace of the vein could be found. Large quantities of galena in big boulders were discovered in the gulch bottom and it was supposed this ore had been washed from the ledge on the hill some place. The ore was piled on the hillside until thousands of dollars worth of ore was ready for shipment. A few days ago the work was resumed at the property after a year's layoff. A dam was built across the gulch at a point about 75 feet above where it was believed possible for the ledge to be. The waters confined in the dam were released suddenly and boomed down the gulch. The results far exceeded anticipations. A ledge with the richest sort of lead-silver ore sticking out of the ground was opened up for 400 feet, the rush of water tearing away the foot and more of earth that had hidden the vein. The surprise came, however, in the fact that the vein was found to run lengthwise with the gulch and in the very bottom of the creek. The workings of the past scores years had all been within a few feet of the vein but running along side of it. In the widest part the vein is six feet. From one to three feet of the vein on the surface is shipping galena and the rest is all high grade concentrating ore. These concentrates will run about eight tons of ledge matter to the ton of concentrates. The ledge is entirely true in its course. The Jack Waite is owned by Senator Lee Mantle of Butte. The property has been in litigation for the past several years but on the settlement of the legal difficulty recently Mr. Mantle ordered that work be resumed this summer and ore shipped from the dump. The Waite adjoining the Phedora property and much excitement has been caused among the owners of the latter property.

PURCHASING HORSES FOR EASTERN MARKET

Helena, June 17.—Olson & McLean, horse buyers of Sioux City, Iowa, have been making a thorough canvass during the past two months of Lewis and Clark and Cascade counties and have secured between 1,200 and 1,500 head, which will go to the Miles City and St. Louis markets. The first shipment of nine carloads was made yesterday and the remainder will be made during the summer and in September.

The biggest bunch of horses which Olson & McLean purchased was that of Felix Landry, on Ten Mile. About 400 heavy draft animals were in the band, and the price is rumored to be about \$70 a head, the best figure ever obtained in the state for unbroken animals. The contract calls for September delivery.

THROUGH SERVICE TO BE INAUGURATED

Butte, June 17.—Yesterday, June 21, the Chicago, Milwaukee & Puget Sound Railroad company will inaugurate through time freight service from Chicago to the Pacific coast. Freight service has been no further west than Butte, but has been inaugurated this far since last fall. The new schedule, the details of which have not yet been worked out, will lower the running time between Chicago and Butte 17 hours, giving a fifth morning, instead of a sixth morning delivery, as at present. The total running time between Chicago and Seattle, as stated by Chief Clerk Wright, in the office of General Superintendent H. B. Farling, will be 144 hours.

DIVISION OFFICES ON COAST CHANGED

It was announced in the local Puget Sound offices yesterday that a change has been made in the division offices on the coast. Hitherto the work on the division there has been largely in the hands of the construction department, which had its headquarters in Seattle, and yesterday the work was transferred to the regular division headquarters at Tacoma. This change is made following the opening of traffic on the division there, and marks the end of construction and the beginning of operation.
