

DO YOU KNOW

That the Bitter Root valley is the largest of the famous fruit-growing districts of the northwest?
 That the Bitter Root is larger than the combined areas of the Hood river, Wenatchee and Yakima valleys?
 That the McIntosh Red apple attains its highest state of perfection in the Bitter Root?
 That the largest private irrigation scheme ever undertaken is being carried out in the Bitter Root?
 That there are more than 500,000 acres of orchard lands in the Bitter Root?
 That there are hundreds of new settlers coming to the valley this summer?
 That the university settlement in the Bitter Root is bringing to the valley some of the most celebrated college professors in the country, who will make their summer homes here?
 That there are at least three other settlement plans to be carried out this summer, which will bring men of wealth, refinement and influence to the Bitter Root?
 That there is no other district so attractive as to scenery and climate as the Bitter Root?

The Bitter Root Valley

A Pacific Slope Land
 Famed for Its Perfect Fruit
 and Its Great Profits

The Valley of Opportunity

A single acre of land in this valley has been known to produce a net profit of over \$1,800 in one year; \$500 annual net profit from an acre of land is a common event.

Crops never fail, fruit pests are unheard of and fatal diseases among stock, hogs and poultry are unknown.

Water for irrigating purposes in accessible and inexhaustible quantities.

The beautiful mountain scenery, an abundance of pure water, healthful mountain air, unrivaled climate, good means of transportation, convenience to markets, good schools, close proximity to state university, and the lowest cost of living all combine to make this locality the most ideal place for a home in the great northwest.

NEW SERVICE READY IN SIXTY DAYS

OFFICIAL OF INDEPENDENT TELEPHONE COMPANY TELLS OF CONSTRUCTION.

Hamilton, June 26.—F. O. Hopper of the Independent Telephone company stated this morning that he was well satisfied with the progress his company is making in the Bitter Root. It is his opinion that Hamilton people will have both long distance and local service over his company's lines within 60 days. They are looking for a location to open up an office here now. General Superintendent H. V. Calhoun and District Superintendent J. C. Ball have been in Hamilton a good deal of late and it is the intention of the company to push the work to completion. The company has already found a location in Stevensville and will be doing business from there before long, according to a statement made by Mr. Hopper. A gang of men is at work now staking out the line up the Bitter Root valley from Missoula. The company feels confident of meeting with success in the valley.

What Others Think

Of Missoula Electric Power Resource

Below is printed an exact copy of a letter received by the Missoula Light and Water company from the Otis Electric company, the largest elevator manufacturing concern in the world.

OTIS ELEVATOR COMPANY.

Salt Lake City, May 3, 1909.

Mr. S. R. Inch, Manager Light Department, Missoula Light & Water Company, Missoula, Montana.

Dear Sir:

Your letter of April 26th was referred to me on my return from an eastern trip, and I thank you for the information given as to the power conditions.

From the best data which we have, Missoula has more elevators, both in number and in horse-power capacity, than any city of similar size in the United States. This data is, of course, taken from our own records, and applies to our own installations, but the writer feels sure that it is correct, even when all other manufacturers are considered. We, in this office, are quite proud of the fact that in a town of fifteen thousand there are installed and under contract 12 modern electric elevators.

Yours very truly,
 OTIS ELEVATOR COMPANY,
 J. FRANK ELAM,
 Manager Rocky Mountain Department.

MISSOULA LIGHT & WATER CO.

ASSISTANT FORESTER VISITS IN THE CITY

Mr. and Mrs. R. S. Kellogg of Washington, D. C., are spending a few days in the city. Mr. Kellogg is an assistant forester in the forest service and has charge of the statistics of that branch of the government work. He is in Missoula to look over the data for various projects in the local office of District No. 1. After a few days he will go to Alaska where together with a botanist from the department of agriculture, he will investigate conditions at the head of the Yukon river, going from there to the interior of the country, where he will spend some time.

DANDRUFF DON'T WASH OUT.

The Germ That Causes It Has to Be Destroyed, to Cure Dandruff.

Many a woman spends an hour twice a week scouring her scalp, thinking that by scrubbing off the scurf she will cure the dandruff. Two hours a week, at the age of 40 years, she has spent 260 days of 12 hours each, or two thirds of a year of her life, in that vain hope; vain because you can't cure dandruff without killing the dandruff germ, and the only hair preparation on earth that will do that is Newell's "Herpicide"—also a delicate hair dressing, and thorough antiseptic against all contagion from use of other's hair brushes. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c and \$1. Missoula Drug Co., special agents.

WILL GO TO CALIFORNIA.

John D. Jones, a well-known alumnus of the state university, who has just completed his junior year in the law school at Ann Arbor, arrived in the city late Friday night from Ovando, where he has been visiting his parents since the close of school. He will visit friends in this city for a few days, after which he will leave for California where he has been assigned to duty on the Sequoia national forest.
