Opportunities

Will not always knock at your door; they are knocking now, and if you will awaken to the opportunities that present themselves to you now you will be better off in one year from now than you are today. There is an opportunity for you to make 25 to 100 per cent. profit in any of the following prices of property:

=====

\$350 for a beautiful corner, 60x130 feet, close in to the built-up district in South Missoula, only a short distance from car line, on city water mains, a southeast front, level, good soil and a first-class investment.

=====

\$450 for two choice lots in Cleveland street, three blocks from car line, city water, beautiful, level lots, a choice building site, an excellent investment; part cash will handle.

=====

\$1,050 — Two choice lots on Blaine, not over 200 feet from junction of University and Higgins ave., in block 10, S. M. These lots are actually worth \$1,500 and they will bring this before this year ends. Here is a bargain.

=====

\$2,750 for a new 7-room house, nicely arranged, just across the street from Judge Knowles' residence, a 50-foot lot and beautiful home.

=====

\$3,750 for one of the most complete homes in the city, a strictly modern 5-room cement block house, new and nicely arranged, a beautiful 50x130-foot corner, cement walks and cellar, a very attractive home at a bargain; part cash; located close in on South Second street.

=====

\$3,250—A dandy South 5th street home; five beautiful rooms, new, neat and clean, modern and well constructed, a swell 50x130-foot lot, cement walks, in short a splendid home and investment.

=====

\$3,000 investment located in West Spruce street, two full lots, 60x130 feet, with two houses, one 4-room and one 3-room, both plastered, stone foundations, city water. This property is sure to double in value in one year; it is a splendid investment.

Homes

=====

\$1,700 for a new 5-room house, 50x130 lot, on South Third street west, excellent location; \$700 cash, balance on long time.

=====

WELL KNOWN PIONEER PASSES AWAY

FRANCIS WOLFF, SON OF HERO OF REVOLUTION, CLAIMED BY DEATH.

Spokane, June 30.—Francis J. D. Wolff, of Philadelphia, born in Philadelphia on June 15, 1832, and son of Henry Wolff, a hero of the revolution, who died on the Vivian ranch near Meyers Falls, Wash., north of Spokane, a few days ago, was one of the first settlers and probably the most adventurous pioneer of the northwest. His work during the last half century is a monument which any man might be proud to leave behind.

He came to the Pacific slope in 1852 by way of the isthmus of Panama from Fort Gates, Mich., with the Fourth United States Infantry, under Lieutenant Colonel Bombsville, and was first stationed at Vancouver, Wash. When, in 1852, Major Alvord, afterward paymaster general, called for volunteers from the ranks to go to meet Governor Stevens, who was then on his way across the Rocky mountains with the commission of the first governor of Washington territory, Mr. Wolff and 12 men volunteered, and qualified under Lieutenant Saxon, and with a pack train, started on the perilous journey, and met the governor at Fort Stevens.

Going by the way of Walla Walla, the little expedition crossed the Spokane river six miles above Spokane, thence by the Senesqueoten and Jocko. In the Bitter Root valley, in western Montana, camp was established, where the larger part of the supplies were left and the place called Stevensville.

When Fort Benton was reached it was found that Governor Stevens had been there two days with 50 mounted men. James Higgins, afterwards a banker at Missoula, was first sergeant of the Stevens expedition; John Mullen was lieutenant and engineer, and on reaching Stevensville was left with 17 men, including Mr. Wolff, to remain until conditions were favorable for making a railroad survey westward from that point. Mullen's expedition reached The Dalles, Ore., in November, 1854. While the Indians were at bitter warfare with each other in all the interior country at that time the Mullen expedition was not disturbed.

Many Killed.

Mr. Wolff was with the Frasier river expedition, which was routed in McLaughlin's canyon in the Okanogan country, where there were many killed. He went to Colville, Wash., with a stock of merchandise in 1855, but met with such severe opposition from the Hudson Bay company that he was obliged to discontinue on two occasions, on the first of which he was robbed of his stores and driven out of the country by Indians. It was largely through his influence that the governor established the post at Fort Colville in 1859, and he was appointed sheriff by governor Stevens for the first attempted organization of Spokane county.

Mr. Wolff carried mail from The Dalles to Walla Walla on horseback in 1858, when frequently there were not half a dozen letters in the sack. He was also a messenger to carry a dispatch from Colonel Wright to Colonel Steptoe, at the time the latter was seriously repulsed in the Palouse campaign against the Indians, and was one of the survivors of the Frasier river Indian war in 1858. He captured the Indian who slew Judge John Watson, the first member of the legislature, when on his return home from the Washington legislature at Olympia in 1859.

In official life Mr. Wolff was always active, and among the official positions held has been probate judge, United States inspector of customs, sheriff and county commissioner. He married Miss Celestia McCloud at Fort Colville in 1859, who, with six children, Kate, Lottie, Frank, Lawrence, Percy and Ester Wolff, survives. The funeral took place at Colville, Wash., Rev. G. H. Wilbur conducting the services, which were attended by members of the Stevens County Pioneer association, of which he was founder.

Put in Jail

Very accurately describes anyone's feelings who is confined to the hospital with an attack of rheumatism, lumbago, stiff joints or muscles. Ballard's Snow Liniment cures the growing, relieve the pain and make you as supple as a two year old. Sold by George Freisheimer.

WILL EXPERIMENT WITH FOREIGNERS

Spokane, June 30.—Plans have been completed by J. C. Crawford of Heppner, Ore., to place 1,000 German and Hungarian families on 18,000 acres of wheat land in the northern part of Morrow county, southwest of Spokane. The land was formerly part of the Woolery estate, and is now owned by Portland people. The colonization is to be completed by the coming fall. Mr. Crawford says the heads of many of the families are men of means, and the others are familiar with the various branches of agriculture, thus making a valuable addition to the southern part of the Inland Empire. Plans are also under way to send parties of colonists into Stevens county and other points along the Columbia river in the northern part of Washington, where are thousands of acres of lands adapted to growing cereals and all kinds of vine and tree fruits. There is also a movement on foot in Spokane to provide lands owned by the government, and the state to those who are not successful in the big lottery organized by Uncle Sam to dispose of 750,000 acres of Indian lands in Washington, Idaho and Montana in August.

SOFTNESS OF SEALS KIN.

is Rivalled by Human Hair Where Dandruff is Eradicated.

Seal skin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft wavy curls dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c in stamps to the Herpicide Co., Detroit, Mich. Two sizes, 50c and \$1. Missoula Drug Co., special agents.

REAL ESTATE BROKER TAKES POISON

DEGREES CONFERRED AIRSHIP LIFTS SELF TRANSFERS THE TITLE TO MILWAUKEE

RALPH E. LOGAN SAYS HE SWALLOWED LAUDANUM AND REFUSES ANTIDOTE.

Special to The Daily Missoulian.

Stevensville, June 30.—Ralph E. Logan, real estate broker, is expected to die before morning. His friends and his physician don't want him to, but he insists that it is the thing for him to do and he refuses to take any antidote for the ounce of laudanum which he swallowed this evening about 7 o'clock. The doctors say that Logan will die before morning unless the laudanum is pumped out of him or unless its effect is counteracted in some way. Logan stands pat and declares that he will take nothing to avert the doom which he has framed up for himself.

Logan is 24 years old and is a member of the real estate firm of Logan & Cochran of this town. A short time ago he was divorced from his wife, and since then she has married again. It is thought that it was despondency over this affair that led him to swallow the ounce of laudanum which he selected as the means of transition from this world of sorrows.

He purchased the drug this morning at a local store. Tonight at 7 o'clock he told his partner what he had done and bade him good bye. He said he had swallowed the whole ounce and the bottle is empty; the doctor who was summoned by the partner is skeptical as to Logan's having swallowed the stuff, the empty bottle does not prove anything, and there are symptoms lacking which are considered essential to complete proof that Logan has the ounce of laudanum in his tank.

Since his divorce, Logan has been living with his partner at the latter's farm outside the town limits; it was here that he broke the news tonight. To the urging of his friends, Logan said he would take any medicine that his mother would prepare for him, but he would take nothing from anybody else. Later, he fidgeted on this and would not take anything from anybody. The doctor says Logan will die before morning if he took the laudanum and if he takes no antidote. Logan says he took the stuff and he wants to die. Stevensville is all excited over the proposition and is divided in opinion as to whether Logan is to be completed or is only faking. There will be many of the townspeople sit up till the end comes or until the matter is otherwise settled.

ANNUAL COMMENCEMENT EXERCISES OF INSTITUTION ATTENDED BY MANY.

New Haven, Conn., June 30.—Commencement day at Yale university was especially honored by the presence of the chief executive of the nation, William H. Taft, 78, who, following precedent as a fellow, donned the robes as a corporation member and walked in the procession of the several hundred officers of the university and the candidates for degrees.

The president arrived in the city at 3:05 this morning and his special car so that he might sleep undisturbed until the hour of starting, which was shortly after 8 o'clock. Then he was driven to the home of President Hadley.

From President Hadley's office the president of the United States and the president of the university walked to Woodbridge hall to attend the final corporation meeting of the year. Most of the business of the commencement was transacted by the corporation on Monday, and today's sitting was a brief one.

The procession of officers, graduates, candidates for degrees and invited guests was formed under the elms on the college campus. The march was carried by Professor Gustav Schwab, the marshal of the day. In the long line there were 250 candidates for degrees, besides the guests upon whom were to be conferred the honorary degrees.

FOR FIRST TIME IN AMERICA A HELICOPTRE IS SUCCESSFULLY OPERATED.

Washington, June 30.—For the first time in America a helicopter, a heavier than air type of flying machine, which depends on aerial screws for its lifting power has successfully lifted itself with an operator. A machine built by J. Newton Williams of Derby, Conn., and Emile Bertinier of this city, lifted Mr. Williams from the ground on three occasions. The experiment was made a day or two ago at Mr. Bertinier's laboratory at Britwood, a suburb of this city. The only other machine which is known to have made a similar performance is that of M. Cornu, a French inventor. Scientists have already had great respect for the helicopter type of flying machine. The Williams helicopter with the operator weighs 600 pounds, and has a lifting surface of only 80 square feet. This surface consists of two pairs of propellers revolving horizontally in opposite directions at the end of a vertical shaft. The propellers are eight feet, eight inches in diameter.

RAILROAD COMPANY SECURES VALUABLE ACREAGE IN BROADWATER COUNTY.

Helena, June 30.—Milton Bennett of Toston, son of Willard Bennett of Helena, was in the city today for the purpose of transferring title to 4,700 acres of land to the Three Forks Land company, representing the Milwaukee railway. This land is situated in Broadwater county, between Toston and the Jefferson river, the largest portion of which is around what was known in the early days as the Galen stage station between Crow creek and Three Forks.

The land was bought from the Northern Pacific Railway company by Willard Bennett in 1898 and was used for grazing sheep thereon. It was transferred to his son, Milton, three years ago, under contract to purchase.

The land sold today for about seven times the original cost. This is one of the many large sales that has been made this summer to the Chicago, Milwaukee & St. Paul people, and it is understood that it is the purpose of the land company to parcel it into small lots to sell to dry farmers. However, by a system of substantial dams, flood waters can be retained to irrigate a large quantity of the land.

EVERYONE WOULD BE BENEFITED BY TAKING FOLEY'S URINO LAXATIVE FOR STOMACH AND LIVER TROUBLE AND HABITUALLY CONSTIPATION.

It soothes the stomach and breaks the bowels gently, stimulates the liver and regulates the bowels and is much superior to pills and ordinary laxatives. Why not try Foley's Urino Laxative today? For sale by Garden City Drug company, George Freisheimer, proprietor.

WHY SALVES FAIL WHILE A SIMPLE LIQUID HAS ACCOMPLISHED THOUSANDS OF CURES.

It is now thoroughly established among the best medical authorities that eczema is purely a skin disease, due to a germ, and curable only through the skin. It is not a blood disease at all; in fact, thousands of people suffer with skin diseases and are perfectly healthy otherwise, and thereby prove they have no diseased blood.

Sneaky salves cannot reach the germs because they do not penetrate the skin. The only way to reach the germs is by means of a penetrating liquid.

Such a liquid can be obtained by simply mixing ordinary oil of wintergreen with thymol, glycerine and other healing agents. This compound, known as D. D. D. Prescription, stops the itch instantly—and the cure all appear to be permanent. In fact, it took thousands of cures, case after case, before the best scientific authorities were convinced of the absolute merit of this remedy. D. D. D. Prescription kills the germs in the itching skin. Its effect is seen within one minute after the first application. We especially recommend D. D. D. Soap in connection with the treatment. Geo. Freisheimer, G. F. Peterson.

FOLEY'S HONEY AND TAR NOT ONLY STOPS CHRONIC COUGHS THAT WEAKEN THE CONSTITUTION AND DEVELOP INTO CONSUMPTION, BUT HEALS AND STRENGTHENS THE LUNGS. IT AFFORDS COMFORT AND RELIEF IN THE WORST CASES OF CHRONIC BRONCHITIS, ASTHMA, HAY FEVER AND LUNG TROUBLE. For sale by Garden City Drug company, George Freisheimer, proprietor.

SHEARS OTHER SHEEP AND GETS ARRESTED

Miles City, June 30.—An arrest in the person of J. W. Sweetzer, president of the First National bank of Forsyth, it developed today, has been made in this city, who, with one of his men, has been placed under bond for appearance in justice court for hearing July 8. They were arraigned today. It was alleged that Sweetzer sheared 204 sheep belonging to H. M. Howard and placed the wool in his own sacks, besides branding the sheep with his own brand after shearing.

Sweetzer claims that the sheep were sheared by mistake and the wool placed in his sacks in the same manner and that he gave Howard back 2,204 pounds of wool to make good the mistake.

BANK GUARANTY ACT BLOCKED BY COURT

Lincoln, Neb., June 30.—In the federal court today Judge Vandeventer and Munger granted an injunction to restrain the new state banking board from putting into effect the bank guaranty act.

The constitutionality of the act will be discussed in opinions to be filed later.

The bank deposit guaranty act was to become effective July 2. Fifty state and two private banks appealed to the federal court alleging that the act confiscated property without due process of law.

LAST DAY'S PLAY PROVES VERY HEAVY

San Francisco, June 30.—The last day of the reign of the nickel-in-the-slot drink and cigar machines in this city was marked by an unusually heavy play on these seductive gambling devices. Thousands of dollars were poured into the slots and the players around favored machines stood in crowds for hours waiting to get a chance to play or watching the varying fortunes of those so engaged. The ordinance forbidding the continuance of the machines went into effect on the stroke of 12 tonight and the police have received instructions to see that it is obeyed. Extra men, both in uniform and plain clothes, were detailed to cover even the most outlying sections of the city and the rattle of nearly 4,000 machines was silenced promptly on time.

LAST DAY'S PLAY PROVES VERY HEAVY

Extra men, both in uniform and plain clothes, were detailed to cover even the most outlying sections of the city and the rattle of nearly 4,000 machines was silenced promptly on time.

Many people with chronic throat and lung trouble have found comfort and relief in Foley's Honey and Tar; as it cures stubborn coughs after other treatment has failed. L. M. Ringgold, Reasnor, Iowa, writes: "The doctors said I had consumption, and I got no better until I took Foley's Honey and Tar. It stopped the hemorrhages and kept my lungs and they are now sound as a bell. For sale by the City Drug company, George Freisheimer, proprietor."
