INFANT MORTALITY TELLS LURID STORY ALARMING

NEED FOR PROTECTION FOR BA-
BIES IS GROWING GREATER
DAY BY DAY. TRICK PLAYED ON TENDERFOOT
RESPONSIBLE FOR SENSATIONAL TALE.

Chicago, July 12.—More babies, more heat, higher milk and higher costs for mere existence of parents this year have made the problem of the baby in Chicago, and presumably other cities, more pressing than ever before. Over acres of hot tenements and square miles of huddled homes the midsummer specter of the infant mortality has loomed up again, bigger than ever, demanding its solution or more baby sacrifices than ever.

Free distribution of ice was begun several years ago, but it has been found that it only nipped the sword death swings almost momentarily. But when the ice box is merely a rickety old pall or box, or washtub or dishpan in a ten-pound heap of ice doesn't last very long. The infant welfare committee of the United States charities was dismayed. The health department's last bulletin said, "With the advent of hot weather comes the serious problem to many poor families of how to properly preserve the day's milk. Clean milk requires not only cold to preserve it, but very few poor families possess a refrigerator. The cost of an ordinary ice box and the expense of filling it is really too great for many families."

The department described how an ice box could be made for small cost, but the settlement workers have tried that, and with encouragement from club women they have seized upon the so-called "thermos" bottle, which, by means of a vacuum, keeps liquids at a fixed temperature, pointing out that the free ice would be a hundred times as useful if it could melt so soon as it does in a tin pail on the window sill of a tenement house. This plan contemplates a municipal appropriation for the infant welfare committee for the purchase of thermos bottles, to be loaned at a nominal rental to the residents of the congested districts through the milk dispensing stations. Also special efforts to raise funds for private contribution for the purchase of these bottles. "The device used by the rich for picnic lunches and automobile refreshments seems likely to be impressed into the service of the poor. It has been found that fresh milk, cooled, can be kept in one of them at stationery temperature for 12 to 36 hours. Instead of leaving the milk exposed to the air of squallid homes and germs it can thus be kept hermetically sealed.

"Pure milk when it leaves the dispensing station may be very impure before it has been in a tenement house an hour," one of Chicago's most indefatigable charity workers, Mrs. Herman Falkenstein, said. "Crowd a whole family into two or three rooms, and a couple of boarders or more, and a sick and ailing baby, and then mix the whole up with a dose of Chicago summer weather, what happens? How long does 20 pounds last in your up-to-date ice box or refrigerator, even, under the best of conditions? Not very long, does it? Then how do you expect ice to keep baby's milk sweet during the hot summer days and nights in the stifling tenements? It is no exaggeration to say that the ghetto buries a city full of babies every summer. The money that purchases 800 or 900 coffins every warm season would buy food for a great many babies, wouldn't it, now?"

"If the city can afford to put up turning poles and lay out playgrounds for children from 5 to 15 years of age," said Mrs. Katherine Weaver McCollough, justice of the peace in Evansston, "it seems to me that they can afford to provide life preservers for children of more tender years. Certainly the babies deserve municipal aid to the extent of receiving everything necessary to the preservation of life. If the parents through poverty or ignorance are unable to furnish it, it is civic duty to provide preventives of infant mortality."

MORE MEN QUALIFY.

The following men signed the book at the land office yesterday and thus qualified to act as notaries public during the Plattehead reservation registration period: J. H. Bryan, John M. Price, H. A. Stephens, Eugene Westinger, F. G. Trimmer, Theodore Lentz, William Napton and A. K. Anderson. This makes a total of 38 thus far qualified.

Foley's Honey and Tar not only stops chronic coughs that weaken the constitution, and develop into consumption, but leads and strengthens the lungs. It affords comfort and relief in the worst cases of chronic bronchitis, asthma, hay fever and lung trouble. For sale by Garden City Drug company, George Freishelmer, proprietor.

S.S.S. BLOOD HUMORS REMOVES

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it, and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S. S. S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S. S. S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. When the skin, instead of being irritated and diseased by the exuding acid matter, is nourished, soothed and softened by this cooling, healthy stream of blood, S. S. S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

El Paso, Texas, July 12.—A "tenderfoot," frightened almost into insensibility by the lurid tales of blood-thirsty Indian and Mexican bandits, and a sudden midnight fake attack on the camp, was responsible yesterday for the spreading broadcast of a tale of wholesale murder of horsemen near Afton, N. M., by a band of Indian or Mexican bandits.

The "tenderfoot's" yarn was investigated early today by officers who had hurried to the scene of the reported slaughter and found it to be nothing but a hoax.

According to the story told by E. W. Scott, who had just joined a party driving horses overland, the camp was attacked last night by the outlaws and every man except himself killed.

Scott said he feigned death until the outlaws had departed, then he ran a mile and a half in his stocking feet to Afton to spread the lurid news of the massacre.

It develops that the horsemen played upon Scott's ignorance of the horsemen and their ways and put in all day Sunday relating tales of theft and murder by Indians and Mexicans. When Scott retired he was badly scared. After everyone had retired Scott and shooting suddenly started from several points around the camp, and Scott, half clad, made record time to Afton, with his tale of murder.

IN ALL WALKS OF LIFE.

Herpicide is Used to Cure Dandruff.

E. H. Lyon, New York, N. Y., says: "I am very fond of Herpicide and enjoy using it. It is refreshing."

Dr. J. H. Bush, Toledo, Ohio, writes: "Newber's Herpicide has given me better satisfaction than anything I have ever used."

Mrs. Borkey of Chadron, Neb., says of Herpicide: "It cleaned my head of dandruff and stopped my hair from falling out. It is the best remedy for dandruff I ever used, and I have used a great many."

R. S. Coleman, Ann Arbor, Mich., says: "I have used two bottles of Herpicide and derived benefit therefrom."

Sold by leading druggists. Send the stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c and \$1. Missoula Drug Co., special agents.

NUMEROUS CHANGES IN BUSINESS WORLD

San Antonio, Texas, July 11.—Momentous changes are taking place in the business world of Mexico, which promise a gigantic industrial struggle or another sweeping industrial victory. Announcement is made by Governor Landu y Escandian of the federal district of a new oil company that has been formed with a capital stock of \$25,000,000, which will take over the Weetman Pearson interests and practically have all the oil concessions in Mexico. The personnel of this company comprises men high in official life in Mexico, including relatives of President Diaz.

For some time a bitter warfare has been waged between the Standard Oil company and the Pearsons of London, represented by Sir Weetman Pearson. This fight has centered for the control of the great oil field of Tampico, which is said to be the greatest in the world. Owing to his connection with the government, Sir Weetman Pearson is supposed heretofore to have had the better of the contest. However, he has denied that the new company will take over his interests, and Mexican officials have affirmed it, and a break seems to have been precipitated.

It is announced that the new company will carry on the fight against the Standard Oil company. Meanwhile J. H. Harriman is pushing his railroad on the west coast of Mexico to completion and is projecting a new railroad from San Antonio to the City of Mexico down the east coast, and it is hinted that he will be a powerful ally with the Standard Oil company, since their interests have been friendly in the past.

WALLACE LEAVES.

Bridgeport, O., July 12.—Thomas Wallace, president of the United Mine Workers' association, left here today for Pittsburg, Kas. When questioned concerning the threatened strike of 13,000 coal miners in the Pittsburg district he said the strike did not and would not have the sanction of the national organization.

The Money Man Wants to Get In

Have you a spare room in your house? Why not find a congenial, pleasant boarder to change the monotony, and bring fresh ideas into the family? Put a Munnimaker ad in The Missoulian. Some reader of this paper may be looking for just such a room. Have you any spare space in your barn? Some reader of The Missoulian wants to rent it for a storage purpose. You might as well get the money for it. Put a Munnimaker ad in the classified columns of The Missoulian. For two days the following class ad appeared in The Missoulian. On the second day the room was occupied:

FURNISHED ROOM—SUITABLE for gentlemen. Thoroughly modern. Conveniently located to business center of city. 722 West Pine.

It is quicker to hunt for an occupant for your spare room through the columns of The Missoulian classified page than through any other way on earth. You're always sure to get a desirable, intelligent roomer, too.

COPY OF DECISION RECEIVED TRAFFIC IS TIED UP ON ROADS

BEAN'S JUDGMENT IN FAMOUS BUTTRICK CASE IS FILED IN HELENA.

Helena, July 12.—There was received today for filing a copy of the opinion of United States Judge Bean at Fort-land in the injunction of the Buttrick Publishing company of New York against the Anaconda Typographical union and other Montana labor organizations. Judge Bean was sitting in Montana for Judge Hunt. Judge Bean holds that the Montana Federation of Labor is a party to the unlawful combination, or "boycott," and that the complainant is therefore entitled to injunctive relief against it. He further holds the evidence fails to sustain the charge against the Anaconda Clerk's union.

Continuing he says: "The exception to that part of the masters report in which he recommends that judgment be awarded against the Anaconda Typographical union and its officers for treble the amount of the damages sustained by the complainant on account of the action of such union will be sustained. The suit cannot be maintained because of a violation of the Sherman anti-trust law."

Delay in commencing treatment for a slight irregularity that could have been cured quickly by Foley's Kidney Remedy may result in a serious kidney disease. Foley's Kidney Remedy builds up the worn out tissues and strengthens these organs. For sale by Garden City drug company, George Freishelmer, proprietor.

LOADS OF HYACINTHS THROWN UPON DUMP

San Antonio, Texas, July 11.—Hyacinths by the cartload have been joggling through the city streets for several days on their way to the ash dump. To the flower lover who has only known these beautiful plants in florists' shops, the blossoms rising like a purple mist in the long exposure of green pads, the hyacinth war now being waged on the upper reaches of the San Antonio river seems wasteful destruction. City ditchmen with picks and shovels clashing through beds of these rarely beautiful flowers started a protest from the lovers of the beautiful. The city engineer, however, explained that the matted and quick-growing hyacinth threatened to choke the entire channel of the San Antonio river. A stray pad will break off, float down the stream and wherever it lodges a week later will spring up another hyacinth bed. These beds seriously obstruct the flowing of the stream, absorb much water and form a breeding place for mosquitoes, so a fleet of hyacinth destroyers are cruising the San Antonio river. Poets and lovers are protesting at the vandalism which this average citizen accepts as part of the war on the mosquito.

Put in Jail

Very accurately describes anyone's feelings who is confined to the house with an attack of rheumatism, lumbago, stiff joints or muscles. Ballard's Snow Liniment will cure the trouble, relieve the pain and make you as supple as a two-year-old. Sold by George Freishelmer.

DETOURING OF TRAINS OVER THE MISSOURI PACIFIC CAUSES CONGESTION.

Kansas City, Mo., July 12.—With the main line of the Missouri Pacific railroad between Kansas City and St. Louis congested because of the great number of trains of other roads detoured over it in an effort to reach Chicago, railroad traffic between Kansas City and Chicago today was at a practical standstill.

The Atchison, Topeka & Santa Fe road had annulled all of its Chicago morning trains and the Burlington and Rock Island officials were making no promises to Chicago passengers as to arrival time in the Lake city. The two latter roads were detouring via St. Louis. Western trains were running on schedule time.

The Kansas and Missouri rivers showed practically no further rise here today.

At Topeka, the Kansas river reached a maximum of 18 feet 10 inches last night, but showed a fall of 7 inches today. Heavy rains fell during the night, between Manhattan and Clay Center, Kas., in the Kansas river watershed. These rains will have a tendency to cause slight rises along the river within the next 24 hours.

At Ottawa, Kas., where the Marias Des Cygnes is running through the center of the town, the river reached its crest last night and has fallen six inches since midnight.

WOULD PREVENT STRIKE.

Pittsburg, Kas., July 12.—Strong efforts are being made today to prevent a strike next Thursday between the United Mine Workers of America and the Pittsburg Coal company. There are involved 38 mines, employing 18,000 men. The grievances include the use of "safety" explosives and alleged violations of the eight-hour law.

FATALLY BEATEN.

Butte, July 12.—Eoss Titus, an attendant of the Sells-Floto circus, was fatally beaten on the grounds at 2 o'clock this morning and died later. The police suspect a miner, who has disappeared. Nothing can be learned of Titus' history.

Everyone would be benefited by taking Foley's Orino Laxative for stomach and liver trouble and habitual constipation. It sweetens the stomach and breath, gently stimulates the liver and regulates the bowels and is much superior to pills and ordinary laxatives. Why not try Foley's Orino Laxative today? For sale by Garden City Drug company, George Freishelmer, proprietor.

Start the Day Just Right

You can get breakfast at Ye Oldie Inn at 7 o'clock and on through the morning. Hot waffles a specialty.
