NOTES OF WALLACE

Wallace, July 18.—J. A. Walden has resigned as traffic manager of the Idaho Northern railroad with headquarters at Enaville and will be succeeded by Abe Wymann, former auditor of the road. Mr. Walden will become cashier of the new Kellogg bank.

Wallace and Wardner Eagles will meet in a series of baseball games to begin this week.

The O. R. & N. has been compelled to put on additional coaches between here and Harrison to care for the rush of land applicants.

A fine body of shipping and milling galeons has been opened up in the Sunson mine. Shipments will be started this summer.

Counting all the way from Wales to register for lands in the reservations about to be opened, three brothers have filed their declarations of becoming citizens of the United States. Their name is Gwynn. They were informed by friends living in the Coeur d'Alenes of the opportunity of obtaining homesteads.

The ore in the Black Bear fraction has widened out to eight feet of solid ground. The permanency of the ore body has been established by a 1,000-foot drift and the mine will become a producer with little more development.

ASSOCIATED WRITERS GATHER IN SEATTLE

Seattle, July 18.—The National Editorial association will meet in Seattle tomorrow and continue in session until Saturday. The 250 delegates and their wives will be guests of the Seattle club. The eastern delegates arrived today on a special train, which was met at North Yakima, Wash., by a committee from the club.

The association will elect officers and transact some other business, but their entertainers have prepared excursions, dinners, theater parties, a banquet and a night on the Pay Streak at the Alaska-Yukon-Pacific exposition and it is likely that the business session of the convention will be brief.

Your table linen has lost its lustre; do you know why?

Is it not because you have allowed your laundry to wash it with ordinary laundry soaps, which, being overstrong in alkali, "cut" the fabric and make linen look like cotton?

Use Ivory Soap and your linen troubles will cease.

No "free" alkali in it; no coloring matter; nothing but soap, soap that is 99 1/2% per cent pure.

IT'S UP TO YOU

IF YOU WANT to see a first-class proposition and prove by your own eyes that Kennedy Creek Coal & Coke Company stock at 20c per share is the best buy on the market today—not only here but anywhere—we invite you to go with us to the mine in our new auto this morning. The trip is a delightful one and is absolutely free. No man can offer a reasonable excuse for not looking into any proposition put up to him in this way, for we will positively prove to you that we have the most extensive surface showing of first-class domestic coal ever uncovered in the entire northwest, and we will also show you how profitably we can sell it throughout this whole region, because of the great saving in freight. Think of the enormous demand that will be created by lowering the price of this coal, and think, too, of the profits that will be made.

We need more money in the treasury for further development, and every day's development adds to the worth of the stock, so you are helping both yourself and the company. We want you to see the property and judge of its value for yourself. We want you to actually know that we have a property with real merit. Come in and make your reservation now and let us prove these statements to you. We may have to refuse some applications, through inability to carry all who desire to go, so don't fail to let us know at once when you want to go.
