

# "SALVATION NELL" CROWDS HARNOIS

### MRS. FISKE IN PLAY OF THE SLUMS PLEASES LARGE AUDIENCE IN MISSOULA.

An unclean love that is cleansed by spirituality—rough and ready spirituality—is the basic theme of "Salvation Nell," in which Mrs. Fiske played at the Harnois last evening to an audience that packed the handsome theater to overflowing. There is not so very much "to" "Salvation Nell"—the sides Mrs. Fiske and the scenery. The play is invested with a setting so elaborate that the realism of its parts is perfect, and for two and one-half hours last night part of Missoula was taken to the slums of New York and given the best of opportunities of seeing how the "other half" lives. At that the part given Mrs. Fiske is not up to her requirements, her artistic deserts. It might be said, even, that the scenery of "Salvation Nell" is better than Mrs. Fiske's part in the play.

The star shares honors with Holbrook Blinn, as Jim Platt, and Mary Madison as Hallelujah Maggie. A delay to the scenery of last evening's play kept the audience waiting until almost 10 o'clock.

# TUMOR OF FOUR YEARS GROWTH

### Removed by Lydia E. Pinkham's Vegetable Compound

South Bend, Ind.—"Lydia E. Pinkham's Vegetable Compound removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They said that only an operation could help me. # CLEVER COMPANY AT GRAND

WAYNE AND COMPANY AT THE GRAND.

Last evening the Grand theater bill was every bit as good as it was claimed it would be. William Rowe has a pedestal dance which is of his own origin and something very much out of the ordinary, entirely new and novel. For a mystic act, that of the Waynes is a most excellent and apparently difficult one. They feature

the famous "trunk mystery" which always did and always will puzzle even the most scrutinizing observer. Their act is one that is seldom equalled. The Newsboy Trio, is known from coast to coast as one of the most attractive musical acts ever presented to an audience. They were seen at their best last evening at the Grand and met with a goodly share of approbation. Each member of the trio is possessed of a clear, sweet voice and is endowed with the necessary spirit of willingness, which, coupled with their ability, makes their act all the more entertaining. The motion pictures and the illustrated song were new and novel. It is promised that at this evening's shows there will be several special features added to the performance.

much stronger, although it is feared they have succumbed to the ordeal of 24 hours in the water. Those still unaccounted for are:

Captain R. L. Battison and wife; C. H. Dudley, circulation manager of the Tribune; Mrs. Charles Johnson; A. Groveland.

The yacht Mayflower, which brought the survivors to Galveston, left Cedar Bayou at noon, and an hour later fell in with the launch Maud, which had the five men on board. The Maud was bound for the Cedar Bayou and passed within a short distance of one of the men, who, while at the point of giving up, was still able to hang on to pieces of timber. Four others were found hanging on to pieces of driftwood and in an exhausted condition.

### Fatalities in Louisiana.

New Orleans, July 22.—That there was greater loss of life in western Louisiana than was reported up to 1 o'clock today is believed. Several hundred people have taken refuge in the United States biological station at Caremoh, La. The waters of the gulf last night covered a large portion of the parish, rising to a point within six inches of the high water mark made by the storm which destroyed Galveston nine years ago.

Much stock has been destroyed. The gravest fears are still being entertained in connection with the fate of many persons at coast towns. Between Galveston Pass, La., and Sabine Pass, Texas, there are several hundred people who have failed to get into communication with the outside world since the hurricane.

Heavy damage and possible loss of life is feared at Johnson's Bayou, La. Bay City, Texas, has sent an appeal for aid to Houston. Reports of damage at settlements and towns as far south as Brownsville, Texas, are coming.

# BRIAND NAMED FOR PREMIERSHIP

### SUCCESSOR TO CLEMENCEAU IS A PRONOUNCED SOCIALIST —NOT ACCEPTED YET.

Paris, July 22.—Aristide Briand, scholar, orator and avowed socialist, was summoned to the Elysee palace tonight and asked to reconstruct the Clemenceau cabinet. M. Briand promised his answer tomorrow, stating that unless he could unite the republican groups he would go no further. President Fallieres intended to make the first offer of the premiership to Leon Bourgeois, former minister of foreign affairs, but the delay in M. Bourgeois' arrival in Paris induced the president to save time by offering the premiership direct to M. Briand, who already is consulting with his colleagues with a view to reconstructing the cabinet.

Considerable opposition to M. Briand developed, especially among the more conservative senators and radicals, on the ground that the selection of a socialist at the head of the government would be equivalent to proclaiming the bankruptcy of the radicals.

Should M. Briand succeed in forming a cabinet, as his friends believe he will, the tendencies of the new ministry will be distinctly more socialistic than those of the outgoing cabinet.

A Briand cabinet would be exceedingly distasteful to the monied classes, who at least knew that Clemenceau was not afraid to resist those of revolutionary tendencies.

### ENGINEERS AT WORK.

Spokane, July 22.—The advance guard of the Northern Pacific engineers working on the Lolo cutoff from the Montana side has joined the Northern Pacific locating party on the Upper Lecha, according to a report from Kootkia, this fact indicating that a connection of the main forces will be made within a few days.

The exact location of the party working from the Montana side cannot be ascertained, but it is known to be in the Clearwater watershed, as all supplies for future work will be packed out of Kootkia.

The cross-section work out of Kootkia has been completed to a point 30 miles above there, and a third profile map of 20 miles is expected to be available to the right-of-way department within a few days.
