SUBSCRIBERS' PAPERS

The Missoulian is anxious to give the best carrier service; therefore subscribers are requested to report faulty delivery at once.

SATURDAY, AUGUST 7, 1909.

JUST RIGHT.

Looking back over the weeks of registration, there is no result of the developments of the period that affords better and greater satisfaction to the friends of the Bitter Root valley than the fact that pleasanter and closer relations were established between Hamilton and Missoula and the intervening country.

OUR APPLE SHOW.

Now for the apple show. The rush of the registration period is over and we have now before us the preparation for the western Montana autumn exposition which has been planned to properly present the merits of our fruit.

THIS DAY.

Today is the anniversary of the date upon which Robert Fulton demonstrated the practicability of steam navigation. It was August 7, 1807, when he sailed the Clermont up the Hudson and marked the beginning of a new era in marine transportation.

TRAILING BEHIND.

Champ Clark has spoken; dragging behind, about twenty-four hours, Mr. Clark comes up with a defense of the democrats in congress regarding their attitude toward the tariff bill.

no truth in the statement of Mr. Clark. Even he, himself, hidebound partisan that he is, admitted that there might be merit in the imposition of a duty on lead and lead ores; that was because his old Missouri produces lead and a lot of it.

Whatever the cause of the quarrel, Ben Glover's fractured skull is evidence that a fight with shovels is a poor way to settle differences.

Judging from the registrants who visited Missoula, the reservation opening will bring some mighty good citizens to western Montana.

There are nine thousand men in the Chicago street railway strike. See what Missoula is coming to when her road gets started.

There should be no indifference here concerning the irrigation congress meeting. It is of great importance to this section.

The motor engine made the automobile possible, and it will, as a certainty, make the airship practicable.

The wall of the critics of the tariff law is but the echo of democratic bancombe speeches of 1878.

The fact that Mr. Taft signed the tariff bill is, for us, good-enough evidence that it is all right.

The closing hours of registration were as quiet as the close of the presidential session of congress.

When all else fails, Butte can depend upon gamblers—white or yellow—to furnish excitement.

If Walter Wellman starts for the north pole in his balloon next week he will fool us all.

The "first chance" farm has already been located in 4,000 places on the reservation.

Take time to visit the new court house. You will see a mighty good building.

With the registration and the tariff debate closed, there isn't much noise now.

Business will strengthen now, although it has been remarkably good.

There has been a downward revision; that's a promise kept.

Boost now for the apple show.

STEAMSHIP COMPANY ENJOINS UNCLE SAM

Washington, Aug. 6.—The Consular Trans-Atlantic, which transported the Spanish prisoners of war from Manila to Spain in 1908, today began suit before the supreme court of the District of Columbia to enjoin the secretary of the treasury from paying J. M. Ceballos & Co., steamship agents of New York the judgment of \$26,614 awarded by the United States supreme court to cover the difference between the actual allowance for transportation of the Spanish officers and their families as third class and first class passengers.

MAYOR EBY TRIES TO SECURE BAIL

Philadelphia, Aug. 5.—Abraham C. Eby, the mayor of Burkeville, Va., who was committed to jail in default of \$10,000 bail on a charge of sending letters to the president of the Pennsylvania railroad, threatening the destruction of railroad property unless \$15,000 was paid him, entered into communication today with friends at Burkeville in an effort to obtain bail.

TO SETTLE ALASKA WITH NORWEGIANS

Seattle, Aug. 6.—Norwegian Consul Thomas K. Keelstrup said today that he is in full sympathy with the enterprise of Captain J. Mikkelborg, now at Cordova, Alaska, to colonize Alaska with Norwegians.

TRAIN DITCHED.

Winnipeg, Man., Aug. 6.—The Canadian Pacific railroad express, east-bound for Toronto, was ditched at Woman river today. Four cars, including sleepers, rolled down a steep embankment. Many passengers were injured, but none killed.

POSTAL SAVINGS ARE DISCUSSED CHAMP APPEARS TO BE A TRIFLE SORE

INTERESTING PAPER READ AT SESSION OF MONTANA BANKERS' ASSOCIATION.

At the state bankers' meeting an adverse argument on the subject of "Postal Savings" was written by C. F. Morris of the Security State bank of Havre and read by Secretary Borgart, which was very interesting.

Under the proposed law postoffices are to receive in the sum of \$1 in the first instance. This may be followed by additional deposits of not less than 50 cents so long as the total deposits do not exceed \$200 in any one month, and one person may not have a total deposits in excess of \$500.

The purposes are stated to be: First, the forming of habits of economy and thrift by the great mass of the people; second, providing a place for the deposit of funds; third, bringing into circulation vast sums now hoarded or sent out of the country by foreigners.

The status of New York and Massachusetts "savings" institutions giving practically as strong security to depositors as that which will be furnished by the postal savings banks, just as convenient and accessible as it is possible to be furnished, and certainly as much so as the postoffice department can make them, for one has but to place his remittance in the United States mail and send it to any point he may desire.

Much has been said about the foreigner sending his money out of the country because he has no faith in our banking institutions. No matter what the laws be, he will continue to send his earnings back to the fatherland, just as the boy who comes west sends money back home, and besides, what the foreigner sends out of the country is only against us in balance of trade.

They say that the scheme is not intended to injure the existing banks, and will not, but on the contrary, will be a sustaining force behind such banks. We answer that if there are available deposits in any community of \$100,000, any schoolboy of 10 years of age knows that if the postal savings bank absorbs \$25,000 of them, there will be but \$75,000 left, and to say that banks that have had 25 per cent of the cash resources of their community taken away have not lost anything and have not been injured is just as reasonable as to tell a man

CHAMP CLARK OF MISSOURI.

Washington, Aug. 6.—In reply to what he terms "the misrepresentations of democrats in the papers," Champ Clark, leader of the minority in the house, today gave out the following statement regarding the course of the democratic members of the house in connection with the consideration of the Payne bill.

"The old saying that habit is second nature never more strikingly illustrated than by the fact that many newspapers—generally republican or non-republican—and more individuals keep mouthing about the discussions among the democrats and the perfect unanimity among the house republicans, notwithstanding the truth known of all men who care to know that the house democrats came out of the tariff fight more thoroughly united on that question than they had been in a generation, and the republicans same out of it worse shattered than ever before.

"Some papers, either through carelessness or malice, have gone so far as to say that the democrats were not present in large numbers unopposed, they would have defeated the report of the tariff bill. There is not a syllable of truth in it, and the charge is either unadvised malice or criminal negligence.

"Now mark how plain a tale will put them down on my motion last spring to recommit the Payne bill with instructions which instructions constitute a comprehensive democratic platform, so far as the tariff is concerned—all democrats voted for it except four. On the Payne bill itself, voted on immediately after my motion to recommit was defeated, the republicans lost one vote and the democrats lost four, a net loss to the democrats of three—a more nearly unanimous democratic vote than has been cast on a tariff bill in a generation.

"Let's examine into the comparative majority among the democrats and republicans. On Mr. Payne's motion to recommit the conference report all the democrats except one voted for it and 20 republicans voted with us, so that the republican party was victorious by only five majority, although they had a majority of 45 in the house. On that vote there were about six democrats and five republicans.

"The reason Chairman Payne moved to recommit was that he fooled himself into the belief that we were going to offer a motion to recommit with instructions, and he wanted to head that off, and by an agreement with the speaker undertook to do so, but we had no idea of moving to recommit with instructions, for the republicans who voted with us in favor of the Payne motion simply to recommit would have voted with the republican members against our motion to recommit with instructions—which instructions would have been democratic propositions.

"The full democratic attendance was largely due to the fidelity, diligence and industry of the democratic whip, Thomas M. Bell, and to his two assistants, John N. Garney and William Hughes. They did all that mortal men could do to have every democrat present.

"Many newspapers are trying to make it appear that the Payne-Aldrich-Smoot bill is a revision downward. This is absolutely untrue. The average of rates of the Payne-Aldrich-Smoot bill is about 2 per cent higher than the average rate of the Smoot bill. When the maximum goes into effect March 31, 1910, the average rate will be about 17 per cent higher than the average of the Dingley bill.

"It is paternalistic and paternalistic is not defensible except on the plea of necessity, but give us more paternalism.

"It has been said by one of our wisest statesmen that the sum of good government is to restrain men from injuring one another and to leave them otherwise free to regulate their own pursuits of industry and business. This is the doctrine that is dear to the heart of every true American. This is the idea of good government as contrasted with the idea that government is a necessary evil.

"The proposed law would have the national government become the postmaster for individuals to teach them what to do with their savings—a doctrine of soul-destroying to the genuine American, and a theory that smacks too much of the divine right of kings.

"Attempts to prevent the hoarding of money by individuals by substituting hoarding by the government. It asks the government to strike down the savings banks now being established by private individuals under state laws and trust to an experiment by the national government, thus giving way to the tendency, far too general already, to have the national government assume functions formerly within the exclusive jurisdiction of the several states."

Iced Drinks Dangerous

The American people consume during the hot weather a very large quantity of iced drinks of various kinds and colors and pay dearly for it with disordered stomachs that refuse to perform their work; bowel complaints, exhaustion, congestion, sunstroke and many other ills follow, and from these causes the loss of life is great. Doctors say all danger can be prevented by the proper use of a teaspoonful of Duffy's Malt Whiskey in each glass.

Duffy's Pure Malt Whiskey is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus producing a liquid food requiring no digestion in the form of a pharmaceutical whiskey, which is one of the most effective tonic stimulants and invigorators known to science.

Duffy's Pure Malt Whiskey is sold everywhere by druggists, grocers and dealers or shipped on order. Our consulting physician will send to every reader of The Missoulian advice and interesting illustrated medical booklet free of charge.

CHICAGO STRIKE IS NO LONGER FEARED

Chicago, Aug. 6.—Positively no strike. "Signed" ST. B. HERRELEY. The foregoing statement was issued by writing by the City Traction expert this morning.

"I cannot go into details," explained Mr. Herreley, "but there is going to be a compromise. There is no possibility of a strike."

JAPANESE STRIKERS DECLARE STRIKE OFF

Honolulu, Aug. 6.—Circuit Judge John T. Tobalt has received an anonymous communication threatening that if any of the Japanese implicated in the strike conspiracy are convicted in the trials now in progress before him he will meet a worse fate than that of Editor Shoba of the Hawaii Shingo, who was stabbed and wounded last week.

The trial of the men charged with conspiracy will be pressed despite the abandonment of the strike. The trial was postponed until tomorrow because one juror was too drunk to officiate. The strike was called off yesterday.

ENOUGH PENNIES FOR PRESENT.

Philadelphia, Aug. 6.—The order of the treasury department to discontinue until further notice the coinage of the new 1-cent pieces was received today by the superintendent of the Philadelphia mint. The coinage of the new pennies was begun in June and up to the time the order was received today 27,955,000 of the coins had been minted. About 14,000,000 of the coins have already been distributed throughout the country and the remainder will be shipped as rapidly as the demand develops.

The Health of Your Horse will be best promoted—best preserved—if you are ready to give the proper remedy at the proper time. The proper remedy for all strains, sprains, or colic, is Perry Davis' Painkiller. The proper time to use it is when the trouble first shows itself. Be prompt and you'll not only save the horse suffering, but you'll spare yourself a long time waiting. You ought to have a bottle ready. The new size bottle costs 25 cents; one larger 50 cents. Be sure your druggist gives you Perry Davis'.
