SUBSCRIBERS' PAPERS The Missoulian is anxious to give the best carrier service...

THURSDAY, APRIL 28, 1909.

A STRINGENT CODE.

Yesterday the governor of Alabama signed the entire code of prohibition laws just passed by the legislature of his state. This step makes Alabama about the driest of the "dry" states...

POLITICS ELIMINATED.

That President Taft intends to make good his promise that politics is to be eliminated from the taking of the next census is shown by yesterday's telegraphic news...

PAVEMENTS.

Recently one of the most prominent citizens of Missoula publicly pledged the city to pave Higgins avenue within a year. It is a pledge that should be redeemed...

WOMEN AND CHILDREN FIRST.

There is something about the wreck of the excursion steamer Columbia in a collision at the entrance of Montevideo harbor that makes the blood of the average man boil...

tire crew of the Columbia was saved. The dispatches tell these facts, but are silent on the point that must have followed the first intimation of disaster...

HARRIMAN, THE FIGHTER.

Whatever public opinion is as to E. H. Harriman, railroad magnate, a great measure of respect is due to E. H. Harriman, fighter. There is something besides millions to the man on whose home coming the financial world waits on the tips of anxiety and expectancy...

Poor Italy, still trembling from the cataclysm of a few months ago, is again attacked by an earthquake. The land of the Caesars is losing rank as a resort for tourists.

There should be an negira of denials to Mulai Hafid's stamping grounds, for the sultan has ordered the death of all his women prisoners to be pulled.

The National Bakers' association insists that there is no harm in eating white bread, and now we can all sleep again in peace.

Paved streets will be the sash around the waist of Missoula's new winter dress, now being prepared with great enthusiasm.

The Sahara desert will be a land of milk and honey compared to Alabama when the new code gets in its first kick.

By torturing his prisoners, Mulai Hafid shows that he possesses all the real qualifications of an up-to-date sultan.

Were the Pittsburg strike located in the Balkans, it would be described in the dispatches as a "war cloud."

The majors and the colonels of Alabama might as well beat their workshirts into toothpicks now.

"Women and children first" is a command evidently unknown in South America.

Harriman believes in opening new territory, and so, by the way, does Uncle Jim Hill.

Alabama will probably become known as the state without a "smile."

El Rhedi has been captured at last. He has lived up to his name.

Dry farming will now be popular in a certain state in Dixie.

Taft thinks that politics and census taking will not mix.

HONEST PROPERTY OWNER IN TEXAS

San Antonio, Texas, Aug. 25.—This is a city in which the swart-off-year tax-bill does not seem to flourish in any degree. When County Tax Collector Ruth, a few days ago, came to add up the value of property people had owned up to be found that his own estimate, none too conservative at its best, was short almost \$1,000,000 of what the rolls carried. Making sure that his calculations were right he took a hitch in his faculty of judgment and resolved that hereafter all things would be possible.

WASHINGTON NEWS THE MISSOULIAN'S SPECIAL SERVICE.

Washington, D. C., Aug. 25.—The annual year book of the department of agriculture for 1909, or, as it is commonly called, "The Farmers' Book," or the "agricultural report," has just come from the government printing office, and is up to its former standard of quantity and quality...

The book also contains 21 popular papers by experts of the department of agriculture, designed to interest and instruct farmers, covering 300 pages. They cover the field almost as wide as agriculture itself, and are new and original. A long article on the waste of farm land by growing the same crop year after year, treating of the subject from the beginning of colonial days, together with suggestions of diversifying crops, is one of the most interesting. The benefits to the farmer of wild birds and mammals, thereby causing the farmer to be a friend to them, are explained in an interesting article. During recent years the department has sent its agents into foreign fields to gather new crops for the American farmer to grow, and these searches for fruits, vegetables, vines and flowers in India, Japan, Siberia and China, from which countries valuable species of these articles have been obtained and introduced into American agriculture...

The consul says the Italian system of cars each carry 20 passengers. The route is four and a half miles long, and the committee found these cars well able to "reverse, turn around, and maneuver without the trolley being removed, and to take heavy gradients over bad and muddy roads without difficulty, vibration or noise." The operation of the car was similar to the Vienna system, as is also the German system of cars. This latter car carries seated passengers, and only its front wheels have rubber tires, causing the vibration and noise not noticed in the others. The single motor drives onto the front axle, so that the steering is heavy. The consul reports that on all the three systems very few hitches have occurred, and owing to the comparative lightness of the vehicle, each being slightly over two tons, the surface of the road suffers less than in the case of cars carrying their own petrol or other engines. It is generally considered to be very adaptable to suburban, interurban and thinly populated districts.

AMERICAN MISSIONARY DIES IN SOUTH SEA MUCH MONEY MADE BY ONION RAISERS

San Francisco, Aug. 25.—Through a cablegram received in this city today it was learned that Captain Alfred C. Walkup, who left this port a few months ago in command of the five-ton schooner Hiram Jinkham, for the purpose of spreading Christianity among the natives of the South Sea islands, is dead. The cable was sent from Sydney. Captain Walkup, who held a master's certificate as well as ordination as a minister, was sent out by the American board of foreign missions. His son and daughter, with a servant, made up his party. Who last reported he was at Ocean Island.

JUSTIFIABLE MURDER SAYS CORONER'S JURY

San Francisco, Aug. 25.—The coroner's jury in the case of Ed Finney, well known in the Tenderloin, who was shot and killed on a crowded street by William Maxwell, a contractor, today returned a verdict of justifiable homicide. The men had quarreled over a lease and when they met Finney is said to have made an insulting remark about Maxwell. The latter claimed Finney had the right to kill him and he did not wish to take any chances.

SAYS BREAD IS ALL RIGHT.

Minneapolis, Aug. 25.—At today's session of the National Association of Bakers, August Junge, president of the Missouri association, protested against the attacks made in local magazines on white bread, advocating abstention from it because it was unwholesome. He said leading chemists had pronounced it wholesome.

TO CROSS OCEAN IN AIRSHIP

Across the Atlantic in an airship within the next year is not only a possibility but a probability. This is the opinion of experts after learning of the successful sailing of an airship recently in Europe. Now that the basic principle has been established, rapid developments are expected which will result in perfecting these airships. The basic principle of health is a strong stomach, and it is an established fact that no man is stronger than his stomach. Therefore, the first and most important thing for the man or woman to do who suffers from a weak stomach is to get a bottle of Hostetter's Stomach Bitters and let it tone and strengthen this important organ, as well as the kidneys and the bowels. It thus prevents indigestion, dyspepsia, liver and kidney ailments, costiveness, sick headache, general weakness, and malaria.

Conservative Lawyer

Judge J. M. Evans, Missoula representative of W. A. Clark, says why he believes in Missoula's Future

NOW JUDGE EVANS

was not particularly trying to call attention to the great investment opportunity afforded by Car Line Addition, but— Read what he says—

Then think a minute and decide what you think lots 30 x 127 feet in an addition to have city water and street cars are worth.

We will sell you such lots for \$50, or \$60, or \$65 on terms of \$5 a month.

Come out in our auto and see these lots.
