Friday, August 27, 1909.

THE WEST LOOMS UP.

As the harvesters click off the long miles that measure the wheat fields, leaving behind them a trail of golden grain...

The harvest is now begun in many sections and results are reported as satisfactory. It is still too early for any satisfactory data as to corn...

If the automobile club has never interested itself in the improvement of the city streets, we would respectfully suggest that these highways present an inviting field at present.

HARRIMAN AND STOCKS.

That the influence of Mr. Harriman's health upon the security market is exaggerated is the opinion of Henry Clews, the New York financial expert.

A great deal more importance is attached to Mr. Harriman's health than would be necessary if his securities were selling strictly on their merits.

These rate hearings are all right, but we would prefer some new rates.

The Idaho - Clearwater country draws closer to Missoula every day.

As the center of a new placer boom, Helena feels like herself again.

The new Fort Missoula is becoming a reality without much noise.

DEATH LIST GROWING.

Los Angeles, Aug. 26.—Engineer W. F. McVie of the Santa Fe freight train which was wrecked at Mojave yesterday, died today at the Santa Fe hospital.

MAXWELL DISCHARGED.

San Francisco, Aug. 26.—William Maxwell, a contractor, who shot and killed Ed Pinous, a saloonkeeper, on the street, was discharged from custody today on the ground that there was not sufficient evidence to justify a trial.

bility is that the leading shares will be protected, for the present at least, against any additional violent break.

A SNEEZEFEEST.

Bethlehem—New Hampshire, not Palestine—famous as the seat of comfort for hay-fever sufferers, is more than ever this week the Mecca of sneezers.

The occasion of this great assemblage of sneezers and sneezers is the sixth annual meeting of the United States Hay Fever Association, an organization with a membership of several thousands and an eligible list of several millions.

The association was formed for the purpose of getting information on the subject of sneezing from sufferers in all parts of the United States.

The officers in charge of the convention are: President, Samuel A. Harlow, Grafton, Mass.; vice president, Clayton E. Delmator, Providence, R. I., and secretary, William M. Patterson, New York city.

If the automobile club has never interested itself in the improvement of the city streets, we would respectfully suggest that these highways present an inviting field at present.

The Alabama fellows who are out of a job on account of the new prohibition law may find good openings on the Lolo trail.

With the editors of the state in session at Hunters Hot Springs, an improvement may be expected in the quality of the Montana newspapers the rest of the week.

Pratise be to San Antonio. Her faith in the completion of the Panama canal is so great that she is planning a world's fair to celebrate the event.

Where the automobile club has worked the improvement in roads is apparent. Hence the suggestion of an extension of jurisdiction.

Missoula hopes that Mr. Harriman will remain at the helm long enough to guide a line of his railway over the Lolo pass.

There are many good things to be said about Butte, but her news agencies persist in digging up all the bad stories.

Despite the talk about adulterants and germs and bacteria, we continue to eat the canned stuff and to thrive upon it.

The ease with which Sam Resurrection recovers from fatal accidents indicates that the old chief is well named.

However, Mr. Harriman is not so ill that Wall street doesn't sit up and take notice when he speaks.

If Silver Bow gets a good grand jury at work, the Butte date line may lead some lively news stories.

These rate hearings are all right, but we would prefer some new rates.

From Anaconda comes a sigh of relief over the closing of the race meet.

The Idaho - Clearwater country draws closer to Missoula every day.

As the center of a new placer boom, Helena feels like herself again.

The new Fort Missoula is becoming a reality without much noise.

Lolo is reveling in the activity of a sure-enough railway center.

MAXWELL DISCHARGED.

San Francisco, Aug. 26.—William Maxwell, a contractor, who shot and killed Ed Pinous, a saloonkeeper, on the street, was discharged from custody today on the ground that there was not sufficient evidence to justify a trial.

TENNIS TOURNAMENT INTERESTING VESSEL ABANDONED IN MID-OCEAN

CHAMPIONSHIP MATCHES AT NEWPORT ATTRACT MUCH ATTENTION. MEN REACH SHORE IN OPEN BOATS, HAVING SAILED 200 MILES.

Newport, R. I., Aug. 26.—It took three-out of four hard-fought sets from Maurice F. McLaughlin, the Pacific coast champion, in the United States national lawn tennis tournament today, W. J. Clothier of Philadelphia won the right to play William A. Larned for the national championship.

Seldom has there been more intense interest in a challenge match than that of tomorrow, only the first American champion, R. D. Sears, who maintained that position for seven years, has exceeded Larned's record in national title holding, and only one other, R. D. Wrenn, has equaled it.

IS WOMAN SUFFRAGE DANGEROUS?

SCIENTIST ARMSTRONG IS VERY PESSIMISTIC REGARDING THE MATTER.

Winnipeg, Man., Aug. 26.—"The most disquieting feature of the times is the revolt of women against their womanhood and their claim to be on an equality with men in every way."

This statement was one of the salient features in the address made by Professor M. E. Armstrong, Ph. D., F. L. R. S., president of the chemical section of the British Association for the Advancement of Science, which began its sessions here today.

"We have been living in a time of sensational discovery," he said, "in a period when advertisement is favored and the desire for notoriety rampant. Unhappily that caution which appeared to be regarded as a priceless prerogative of the scientific worker in the early part of the past century, is no longer our recognized watchword."

Dr. Armstrong declared his faith in the progress of chemistry toward solving the problems of life and sex. He found fault with present conditions which he said placed no hindrance in the way of the unfit.

"No problem can compare in importance with that of the future of our race. Not only do we discourage deterioration at the lower end of the scale of intelligence, but we now are through our system of education, courtship failures at the upper end. It has been stated that in the United States the higher education of girls has been proved to sterilize them."

TIRES OF AFFINITY, RETURNS TO HUBBY

Oakland, Cal. Aug. 26.—Mrs. Emma Allman Tompkins, wife of former State Prison Warden John W. Tompkins, who left this city four weeks ago and was discovered recently in the company of W. F. Gordon, a former convict, has returned to her husband's home here.

"DRY" BY BIG MAJORITY.

Boise, Idaho, Aug. 26.—Idaho county, Idaho, voted "dry" yesterday under the local option law. Canyon county also voted out saloons by a majority of 1,850. These were the first local option elections in the state.

San Francisco, Aug. 26.—A cable dispatch from London received by the Associated Press reports that the French bark Gael, bound from London to Oregon ports, has been abandoned at sea and that part of the crew arrived at Bunbury, West Australia.

Men Reach Land. PORTLAND, Wash., Aug. 26.—The first officer and 12 men of the crew of the French bark Gael, Captain Metzer, from London, May 22, for Portland, Ore., have come into Bunbury in an open boat.

G. BARROW, PIONEER, IS DEAD

FORMER MONTANA CATTLEMAN PASSES AWAY AT GIBSON CITY, ILL.

Helena, Aug. 26.—George Barrow, an old time Montana cattleman and resident of this city, is dead at Gibson City, Ill. Mr. Barrow was a resident of Helena up to three years ago when he suffered a stroke of paralysis and went to Gibson City, where relatives reside.

GUESTS HAD FRIGHT.

Boise, Aug. 26.—The Ellis hotel at Ploverville, in the Boise basin, was totally destroyed by fire early this morning. Forty guests were asleep in the hotel at the time and they barely had time to escape in their night clothes.

THIRD OPERATION PREVENTED

By Lydia E. Pinkham's Vegetable Compound

Chicago, Ill. — "I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me. I was so sick that two of the best doctors in Chicago said I would die if I did not have an operation. I had already had two operations, and they wanted me to go through a third one. I suffered day and night from inflammation and a small tumor, and never thought of seeing a well day again. A friend told me how Lydia E. Pinkham's Vegetable Compound had helped her, and I tried it, and after the third bottle was cured."

Mrs. ALYSSA SPERLING, 11 Langdon Street, Chicago, Ill.

If you are ill do not drag along at home or in your place of employment until an operation is necessary, but build up the feminine system, and remove the cause of those distressing aches and pains by taking Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

For thirty years it has been the standard remedy for female ills, and has positively restored the health of thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Flathead Stage and Express Line

CHARLES ALLARD, PROP. Daily service between Ravalli and Polson. Leave Ravalli 6 a. m., connecting with steamer for Kalspell.

Conservative Lawyer Judge J. M. Evans, Missoula representative of W. A. Clark, says why he believes in Missoula's Future

"I think I could assign a hundred potent reasons why Missoula is destined to grow, any one of which naturally appeals to a man looking for a home.

"We have a climate unsurpassed by any locality in the world, and, as Senator Clark said when he started the construction of his power dam at Bonner, we have the mountain passes through which the transcontinental railroads must pass. We now have two transcontinental roads, two branches, the Lolo Pass road under construction, the Blackfoot branch to the Canadian line an assured fact, surveying parties already in the field preparing to build across the Flathead reservation, and other transcontinental roads projected through this section of the country.

"We have the Bitter Root valley, destined to be one of the world-renowned valleys; at our door, and every man and every pound of freight that goes into or out of the Bitter Root valley goes through Missoula.

"We have the Flathead reservation opening with an area of tillable land equal in extent and quality to the Bitter Root valley, with not yet a furrow turned.

"We have unlimited water for power purposes running to waste every day in the year; we have already 5,000 horsepower developed at Bonner and less than 2,000 in use.

"We have the finest drinking water and the finest and cheapest system of electric lighting in the state of Montana.

"We are so strategically located that we command the territory in a commercial way from Garrison on the east to Wallace and Trout Creek on the west, and for 200 miles north and south, and with no competing town to interfere with our commercial supremacy.

"We have a system of public schools equal to any in the state, and have the state university, which from a standpoint of commercialism is of more value to a community than the state capital of a great state, and I predict with the completion of the electric line and better facilities to get to and from this institution that the attendance will double and quadruple in a period of three years.

"Missoula now has probably 20,000 population, and I give it as my judgment that it will double that population in five years' time."—Interview in Missoulian of August 15.

Monday, September 6 LABOR DAY Big Parade, Two Bands, Barbecue, Sports Two Grand Balloon Ascensions With Parachute Drops. COME TO MISSOULA One and One-Third Fare on All Railroads
