To the Citizens

of Missoula.

Geo. F. Peterson, druggist, has in his possession what can be honestly termed a Godsend to humanity, and he will prove it if given the opportunity. Go to his store if you are troubled with rheumatism, in any form, eczema or salt rheum. Buy a bottle of Irish Liniment, follow directions as found on page three of the little book that goes with the bottle, give it a fair trial and then if Irish Liniment does not relieve you, to your entire satisfaction, go back to Geo. F. Peterson, tell him so, and he will on your word, pay back the amount of money you paid him. Besides the ailments mentioned, please see the little book about a burn or sprain. It will remove soreness and stop neuralgia pain instantly.

This leaves the matter entirely in your hands.

feated St. Louis without much difficulty today. Score: R. H. E. Philadelphia 5 11 0 St. Louis 2 15 1 Batteries—Bender and Thomas; Waddell and Graham, Stephens.

Opening of fall meeting of Montreal Jockey club.
Western Canada championship polo tournament at Winnipeg.
Association team golf championship for the Olympic cup at Wheaton, Ill.
Rhode Island state tennis championship tournament at Providence.

ONE OF THE BEST

Second Baseman McConnell, of Boston Americans.

Boston, Mass., Aug. 28.—Never playing a professional baseball game until he was 30 years of age, Second Baseman McConnell of the Boston Americans is one of the strongest members of the team that now threatens Detroit and Philadelphia for the American league lead. McConnell had been noted for years as a semi-pro player, but the professional game did not appeal to him. Finally he was signed by Detroit, and in 1908 was a near leader in the race for American league batting honors.

EXAMINING PAPERS.

Hamilton, Aug. 28.—The county educational examining board is now busily engaged in going over the papers of candidates who were examined last Friday and Saturday for teachers' certificates and for eighth grade diplomas. There were four candidates for entrance to the high school and 10 also tried for teachers' certificates.

The latest official calculation of the area of the United States by government experts places it at 3,743,344 square miles, or 3,026,887 square miles, exclusive of Alaska, the canal zone and island possessions.

To aid miners to crawl around slippery places in safety, an inventive genius has patented a knee pad, consisting of a concave piece of steel, with two sharp points turned outward,

FOUR HUNDRED ARE RECOVERED

(Continued from Page One)

Its destitute, there is fear of a shortage in the near future. There have been several washouts on the National railroad between Laredo and Matilla and not a train has entered Monterey today.

All wires over the National railroad were down all last night and until late today, when a line was restored.

Hundreds of telegrams have been passing through here to Monterey today requesting information as to the fate of friends and relatives. Communication has been established through a circuitous route and the telegrams are being answered as rapidly as possible. Their import is: "Don't worry," "Am safe," "All well."

Messages Pathetic.

Some of the telegrams are pathetic. They report the drowning of entire families, missing fathers, mothers, children and relatives.

The bodies, as fast as recovered, are placed along the banks of the river on the higher ground to await identification.

The bodies are guarded by soldiers, who escort any searcher for a missing friend or relative along the lines of dead.

Arrangements likely will be made tomorrow to inter the dead. It is estimated that the river has risen 50 or 60 feet.

More than 400 bodies of persons drowned in the flood at Monterey had been recovered tonight. Hundreds of others, doubtless, are dead. The number of victims is variously estimated at from 500 to 1,000. The property damage is between \$5,000,000 and \$12,000,000.

The flood waters of the Santa Catarina river overflowed on their rapid course throughout the night. The rain fell in torrents and brought great suffering to the thousands of homeless persons, who had congregated on the plazas.

Swept From Homes.

The flood reached its crest in the early part of the day and many families were swept away to death with hardly a chance to fight for their lives. With the rush of the waters many were swept from their homes on the tops of which they had sought shelter, never anticipating that the water would reach such an unprecedented height. Piteful appeals for assistance could be heard above the roar of the waters by those on higher ground, who were powerless to render aid.

Last night every effort was made to shelter the refugees and the greater part of the women and children were cared for.

Accompanying the rescue work is the search for bodies. Scars are lodged at various places along the stream and it will be weeks, if ever, before all are found. Many families have been divided by the disaster, and the grief of the survivors is pitiful.

Still Threatens.

At 11 o'clock today rain was still falling and the Santa Catarina had worked out for itself a new channel, dividing into two raging streams and separating in such a manner that another and more modern constructed part of the town was threatened. It was said warnings had been sent out to many of the hotels and business houses in the center of the city to be prepared for the worst.

The modern portion of the city is considered high enough to escape the ravages of the flood, but it has been considered wise to warn all in the threatened territory.

Losses Heavy.

Monterey smelter, one of the largest in Mexico, suffered a loss estimated at from \$1,000,000 to \$2,000,000. The Monterey steel plant, the cost of which was \$10,000,000 was damaged from \$2,000,000 to \$3,000,000. The electric light and street railway system constructed about three years ago, was damaged about \$1,000,000.

The water and sewage systems suffered a loss estimated at about \$1,000,000 or more. This damage together with the loss resulting from the destruction of about 5,000 adobe houses and mud houses and more pretentious structures will make the financial loss approximately \$7,000,000.

Financial Ruin.

Both the electric light and street railway systems; the waterworks and drainage systems were dominated by Canadian capitalists. A hard fight was made by Canadian companies to secure concessions for the installation of these modern improvements a few years ago, and their loss may mean financial ruin to many.

Hundreds of residents devoted the day to moving to higher ground. This was especially of the American families, many of whom resided at the downtown hotels.

APPOINTMENTS FOR STATE ANNOUNCED

(Continued from Page One)

Gardner, L. H. Mickel; Red Lodge, C. E. Miller; Red Lodge circuit, to be supplied by James Thompson; Sidney, E. C. Hartlett.

P. M. Adams, professor in Montana Wesleyan university, was chosen a member of St. Paul's, Helena, quarterly conference, and G. C. Stull, chaplain in the United States army, was elected a member of the Billings quarterly conference. J. S. Anderson was chosen missionary to Utah, and George F. Klein, George M. Carter and W. P. Dowell were assigned to the same work in the Black Hills mission. Jacob Mills was selected as conference evangelist. Isaac W. Kingsley, Daniel H. Fleet and Samuel Taylor were left without appointments, to permit them to attend one of the church schools.

Two Best School Shoes Made \$1.25 to \$2.50

SWEATERS

Full and complete line of boys' and girls' wool sweaters.

OPPRESSION CHARGED BY MORRISON

SECRETARY OF LABOR ORGANIZATION ISSUES STATEMENT AT M'KEESBURG.

Washington, Aug. 29.—That laborers employed by the Pressed Steel Car company at McKee's Rocks, Pa., the scene of the present strike, are not paid the share to which they are entitled under the protective tariff system is asserted by Secretary Morrison of the American Federation of Labor in a statement made today. The charge is embodied in a request forwarded by Mr. Morrison to Secretary Nagel for an investigation.

Mr. Morrison takes the position that, as the company is enabled by the protective system to charge much higher prices, the government should make an inquiry. The request is based upon section 8 of the act of February 14, 1903, which requires the secretary of commerce and labor to make special investigations, either upon the request of the president or of either house of congress, or upon his own initiative.

Reduced to Desperation.

Pointing out that the strikers are aliens and not members of any labor organization, Mr. Morrison declares that their wages have been "reduced by officers of the Pressed Steel Car company to the extent that in sheer desperation they decided to cease work until their many grievances, which they could no longer bear, were remedied and a higher wage rate was paid."

Mr. Morrison takes the position that the rioting and needless sacrifice of human life should not be permitted to divert attention from the fact that these regrettable incidents are "the direct result of the unbearable and unbelievable conditions that have been forced upon these defenseless and helpless wage workers."

Rev. A. F. Toner, pastor of St. Mary's Catholic church at McKee's Rocks, is quoted by Mr. Morrison as saying that "conditions under which the employees work and live are such that they are unfit for publication."

HURT IN AUTO.

Tacoma, Aug. 29.—In an automobile accident this morning, this side of Ohop hill, 23 miles from Tacoma, E. A. Hartman, a dry goods merchant of Chicago, was seriously injured, while George B. Burke of Tacoma, manager of the Bankers' Trust, was severely bruised. The automobile was running at the rate of about 20 miles an hour when the steering gear snapped off and the car swerved almost at right angles.

HOT IN LOS ANGELES.

Los Angeles, Cal., Aug. 29.—Today was the hottest Los Angeles has experienced in 24 years. The thermometers registered from 101 to 105 degrees, but because of the low humidity there were no prostrations.

Advertising Missoula

The Electric Sign Is Indorsed by Visitors

THEY WILL GO BACK TO THEIR HOMES AND TALK ABOUT IT

LOTS OF IT.—They stood at the Florence corner one night and looked up the avenue along the lengthy line of illuminated signs. There were four of them and they were strangers in the city; they talked enthusiastically of some of the things they had seen here and were particularly interested in the electric signs. "I'll bet you," said one of them, "that there is more electric power represented in those signs on that one street than is used in our whole city at home." Wherever he came from, that young man is the sort of visitor that Missoula likes to have. He is representative of the people, as a whole, who are registering. And it is worth while to have this sort of fellows stop with us, if it is only for a day. They learn something about us and they like us and go away with good words on their tongues for Missoula and her people. There can be no mistake made in the proper treatment of the strangers who are with us this summer. It is to the lasting credit of the people of the city, especially of the hotel men, that visitors are going home well pleased.

Electric Lighting and Electric Advertising Boosts the City

as a whole as well as the progressive merchant who uses it liberally.
