STEEL GANG SCORES FIRST VICTORY

TWO BIG NINETY-FOOT GIRDERS ARE PLACED ACROSS THE RIVER.

The first effect of the resumption of work on the new bridge and of the installation of a new crew with a new foreman became evident yesterday, when, after a little balancing of the derricks and considerable hard work on the part of the steel gang, the first big pair of steel girders were lifted into the air and safely placed across the south channel of the river. The placing of these big girders was no small task. At this point the work fell down almost two weeks ago and this is the problem which the bridge people have been facing ever since the preliminary work on the south end of the bridge was finished. After weighing down the derrick on the bridge, the task was finished yesterday, however, and when the whistle blew time last evening the first pair of the big beams was resting safely across the river. A big crowd of interested spectators watched the work all day long, but, aside from a few moments of excitement when the first beam threatened to tip the derrick into the river, the crowd was able to see little but careful, rapid and methodical work. The girders, as was originally planned, were placed temporarily on a supporting beam on the second pier and they will be raised to their proper position by jacks after the structural steel has been riveted into place. The placing of the first pair of girders is the biggest part of the task, for after the south channel is spanned, it will be necessary only to place each set of girders in its proper position and rivet them down without the long preliminary work which had to be done the first time. Today the cross-pieces and the supporting steel will be placed and then it will be necessary to place each pier being placed in quick succession until the erection is finished. The concrete work on pier No. 10 has been finished, and operations have been transferred to pier No. 9, so that everything on the north end will be in shape for the steel crew by the time they have advanced that far. As soon as the concrete work is finished on the north end of the bridge the bridge people expect to transfer the crew across the river and start the concreting on the body of the bridge.

FOREIGN SWINDLERS ARE IN TROUBLE

LETTER FROM GOVERNOR NORRIS SHOWS THAT SPANISH GRAFTERS WILL SUFFER.

That the day of the "Spanish swindle case" is about over is evidenced by a letter received yesterday by Thomas P. Conlon, clerk of the district court, from Governor Norris. This letter authorizes Mr. Conlon to take the deposition of Andrew Magee of St. Ignace as to propositions made to him by Spaniards representing themselves to be attorneys in a position to help him to gain a vast estate, in the securing of which a political prisoner and his beautiful daughter are featured. Hundreds of residents of the United States have been misled of considerable sums by this scheme, and Mr. Magee is one of the many in Montana who have received letters from the promoters of this graft. He failed to take the bait, but wrote several answers to see how far the foreigners would go. His story was told in The Missoulian some time ago, and yesterday's letter to Clerk Conlon is probably a sequent.

Accompanying the governor's letter is an appeal from Spanish officials for help in convicting Antonio Pedraya del Castillo and others, whose case is now pending in the Chamber district court of Madrid. It is now probable, since the Spanish government has laid the writers by the heels, the notorious letters from alleged lawyers and fake priests will cease to come.

COMMISSIONERS MEET.

At yesterday's meeting the county commissioners received a plat of the Missoula street railway's right of way from this city to Bonner and a recommendation from Superintendent S. R. Inch that a highway be established along the new line near Marshall grade, thus eliminating the bad stretch of road there.

LICENSED TO WED.

Marriage licenses were issued yesterday to Fred Trudeau and Catherine McMahon, both of Hamilton, and to Joseph Ira Raney and Bertha Bode, both of Missoula.

Hay's Hair Health

ACTUALLY, POSITIVELY, INVARIABLY RESTORES GRAY HAIR TO THE COLOR AND VIGOR OF YOUTH.

You can look young if your hair is gray, faded, dull and lifeless. Hay's Hair Health will bring back the natural color, just as it was when you were young. Stops dandruff and falling out. Makes hair bright, silky and full of life and beauty—no dye—won't color or soil your skin.

16 AND 50c BOTTLES, AT DRUGGISTS, and all fine stores. Hay's Hair Health will bring back the natural color, just as it was when you were young. Stops dandruff and falling out. Makes hair bright, silky and full of life and beauty—no dye—won't color or soil your skin.

Some people like freckles; other people don't.

Those who don't like them and want to get rid of them should try this recipe:

Shave down a cake of Ivory Soap. Add just enough water to dissolve it. Set on back of stove. When thoroughly melted, remove from the fire. Add the juice of one lemon. Beat hard for a few moments and pour into moulds to harden. Use just as you would use a cake of toilet soap.

RAILWAY COMPANY WINS.

The Northern Pacific Railway company scored a decided victory yesterday when Judge Webster handed down a decree in the case of the corporation against Thomas J. McHugh. The suit involved land near Bonita, and the decree holds that the plaintiff is entitled to a perpetual injunction against the defendant, preventing him from interfering with any move the road may make in regard to the property in question. The plaintiff is also granted judgment for the costs in the case.

FOREST FIRES RAGE IN VALLEY

SUPERVISOR WHITE IS CALLED TO FIGHT BLAZE ON LOST HORSE CREEK.

Supervisor W. W. White of the Bitter Root national forest left yesterday morning on receipt of a message from the upper end of the valley stating that another fire was raging in that section, this time on Lost Horse creek. Since the attention of most of the rangers is being devoted to the fire on Warm Springs creek, it was necessary for Mr. White to attend to the work of combating the new fire. It is not known in the local forest service offices what is the cause or extent of the fire on Lost Horse creek. While word has not been received in the Missoula offices regarding the destructive fire on Warm Springs creek, about 45 miles south of Hamilton, which last week burned over an area of 600 acres, it is believed that the conflagration is now under control, and that further loss will be small.

It was learned yesterday that the fire which was last Saturday reported by Ranger Jarvis of Phillipsburg to be burning in the Medicine Lake country was but a continuation of the fire on the Bitter Root forest, which has been raging on Warm Springs creek for the last several days.

TODAY'S THE DAY.

Barring rain and the weather report says "fair"—today will be a memorable occasion in the annals of the Baptist Sunday school, providing that institution maintains any such record. Today the Baptist Sunday school holds its annual picnic, and the trip up the Lolo will be made on a special train of two coaches, which is to leave the Northern Pacific depot at 8 o'clock this morning. The south side delegations will board the train at the flouring mill.

UNEASINESS IS FELT.
