

BUST OF COMPOSER IS UNVEILED

NORWEGIAN COMPOSER GRIEG IS HONORED AT THE SEATTLE EXPOSITION.

Seattle, Aug. 30.—Norway's day at the A. Y. E. exposition was featured by an elaborate program, speeches and music and the unveiling of a bronze bust of Edward Grieg, the composer. The most eminent Norwegian in this country, United States Senator Knute Nelson of Minnesota, was unable to be present, but many thousands of Norwegians came from all parts of the Pacific northwest. The exercises began with the arrival of a Viking ship, which, rowed across Lake Washington by 40 oarsmen in Viking dress, bore Leif Erickson, the sea king, his queen and her attendants. The ship, 60 feet long, is an exact replica of one of the royal vessels in Christiania and every detail of dress and arms was historically correct. As the ship's dragon prow neared the exposition shore a scull on board sang an ancient ballad. St. Olaf's college band of Northfield, Minn., played a welcoming air. The Vikings landed and took part in a parade representing nine periods in Norwegian history, beginning with the invasion of the ancient Roman empire by the Goths and Vandals and ending with the invasion of Alaska by the modern Scandinavians which is now in progress. Five hundred people in costume participated in the pageant and were followed in the march by the members of all the Norwegian societies in the northwest with banners and floats.

The musical and literary exercises and the unveiling of the bust of Grieg took place in the natural amphitheater in the afternoon. The music played by the St. Olaf band was that of Grieg. The United Norwegian singers of the Pacific coast joined with the great audience in singing the Norwegian and American national hymns. The Pacific Coast Sangerforbund will give a concert tonight in the natural amphitheater. The society has voted to hold its next annual meeting in Eureka, Cal.

MAY BECOME SPEAKER

Charles Townsend, congressman from Michigan, favored by President Taft to succeed "Uncle Joe" Cannon as speaker of the house.

Is the reign of "Uncle Joe" Cannon to be brought to a close? The recent attack by ex-Chairman Fowler of the finance committee on the warrior from Danville has again precipitated the speakership question. Many there are who firmly believe Speaker Cannon will not succeed himself when congress reassembles.

Charles Townsend, Michigan's representative, is very close to President Taft. The recent appointment on the commission to draw up new anti-trust laws shows clearly the president's confidence in Townsend. He has the reputation of being one of the most capable lawyers in congress.

Representative Townsend is out after Senator Burrows's toga, and refuses to talk speakership at the present time. He says this will take care of itself, and he is not worrying much over the matter this summer. Last fall he was urged by many friends to become a candidate against Speaker Cannon, but at that time he refused, just as President Taft refused to enter into a contest with Speaker Cannon.

What the conditions will be this winter cannot be predicted, but it is quite evident that the president intends to go after the speaker, and in all probability if he does Charles Townsend of Michigan will be his choice to succeed "Uncle Joe."

TO HOLD CONFERENCE WITH TAFT

SECRETARY BALLINGER TO MAKE TRIP TO BEVERLY TO CONSULT WITH PRESIDENT.

Beverly, Mass., Aug. 30.—Secretary of the Interior Ballinger will make a hurried trip here to see President Taft as soon as he can dispose of some important matters in Washington.

Mr. Ballinger notified the president today that he would endeavor to be in Beverly within ten days. President Taft said there was no particular matter he desired to take up with Mr. Ballinger. It is understood, however, he has called on the secretary of the interior for certain reports regarding transactions which have figured in the forestry controversy.

Mr. Taft announced that a successor to Ormsby McHarg, assistant secretary of commerce and labor, has been chosen, but no announcement will be made until it is learned that the man the president has in mind will be able to accept the office. Secretary Knox discussed with the president today the details of his meeting with President Diaz at El Paso, October 16. The arrangements for the exchange of courtesies are being made through the state department by direction of Secretary Knox. When he receives President Diaz at El Paso, the president will be accompanied by four cabinet officers—Secretary Knox, Secretary Dickinson, Postmaster General Hitchcock and Secretary Nagel.

A detachment of United States troops also will be drawn up at "attention" to lend dignity to the occasion. After receiving President Diaz on American territory, President Taft will cross the international bridge and return the visit at Juarez. Mr. Taft then will return to the United States for a period of rest and later in the evening will go again to Juarez to attend a banquet tendered by the Mexican government.

Among other announcements today was the selection of Henry Hoyt, former solicitor general, as counselor of the state department. The counselor will deal with legal questions, and will have supervision over the negotiation of treaties. The Japanese treaty is to be entered into within the next two years, and Mr. Hoyt will devote himself to this measure.

Secretary Knox also took up with the president the organization of the new far-eastern bureau. It was stated several days ago that Edward T. Williams, United States consul general at Tien Tsin, China, had been selected for work on this bureau.

Today Mr. Knox announced that Randolph Stevens Miller, Jr., Japanese secretary and interpreter of the American legation at Tokio, would return to the United States to enter the new department.

Charles M. Pepper and M. H. Travis, special agents of the department of commerce and labor, have been transferred to the new bureau of trade relations on the tariff in the state department. Mr. Taft made known his plan to establish his summer camp in Beverly again next year.

REORGANIZATION PLANNED.

Cheyenne, Wyo., Aug. 30.—A reorganization of the Shoshone River Canal company, with the expenditure of \$2,000,000 for the development of the Oregon basin reservoir project, abandoned some years ago, is being considered by capitalists from Chicago, who are consulting with the state officials. It is proposed to reclaim 250,000 acres of land.

Lifting the Curse from Kansas

Remember the old lines
 "Oh the terrors, they grow small
 And they dig them in the Fall
 And they eat 'em skin and all
 In Kansas."

That was before Coburn got busy. He's the man who turned the tide and made everybody prosperous and happy.

G. W. Ogden, a brilliant western author, has written about Kansas and Coburn.

Here's a graphic matter-of-fact story of toil and an infinite faith, grit and gumption that reads like a romance. It is one that will enthuse every man and woman in the United States and one that every Kansan will be proud to read and talk about. The story of a man who has done more towards reclaiming land and building up a state, than anyone else in the country's history. You must read it in
