SATURDAY, SEPTEMBER 11, 1909.

ONE THING LACKING.

You may mix flour and water and salt and butter and what not, but if you leave out the yeast you will have no bread; you'll have just a mess. And that is what Missoula has on her hands right now—a mess, and a bad one.

An excellent start was made yesterday; a sentence of 90 days is impending over the head of the first of the secretary class to be tried. The county attorney deserves congratulations upon the outcome of the case.

THE RIGHT WAY.

Cancelling his European engagements, Dr. Cook is hastening to America to face the music and to submit his proof. Meanwhile Commander Peary remains aloof at Battle Harbor, sending his penny-a-line story out ahead of him, but saying nothing that is in substantiation of his assertion that Cook is a liar.

DISCOUNTING DEATH.

The reports from the financial centers, which are also the gambling centers, tell us this morning that the death of Mr. Harriman had been discounted as to its effect upon the markets, and that the bears were disappointed in their expectation that the demise of the great leader would demoralize the market.

FREAKS OF FATE.

The other day a miner in Butte, who had for years been engaged in labor thousands of feet underground, was killed. He was asleep in his bed, three hundred feet from any mine,

when the hoisting engine at the Colorado mine flew into pieces and a chunk of steel crashed through the roof of the miner's home, killing him as he slumbered. A story that comes from New York tells of a similar freak of fate. A man whose occupation was that of a steepjack, and who had been for twelve years climbing towers and spires, fell from a chair in his home, a distance of about two feet, and sustained internal injuries which resulted in his death. You never know when it is coming; the best way is to be ready for it at any time.

The contest for priority in the rights to publish Peary's special story was settled by the Butte Miner and the Anaconda Standard much more quickly than the Peary-Cook conflict will be.

The north pole may have been discovered, but it will take a better searcher than either Cook or Peary to find the union label on the Missoula Herald.

It begins to look as if Jeffries is the man who will have to change the complexion of the world's boss fighter, and he will have to be up on his toes to do it.

Meanwhile Orville Wright continues to fly about, and one of these days he may make a dash that will enable him to light on the pole from northward.

Pittsburg appears to have the best of the pennant argument, but baseball championships possess some of the uncertainties of polar discovery.

The popular verdict will be, which ever way the decision goes, that Peary acted in very bad form in hurting the lie from Labrador.

Manager Harnois is furnishing us with an abundance of good entertainment, and it is not his fault that the shows come in bunches.

Both the Harriman and the Hill life stories give the lie to the assertion of the socialists that the poor boy has no chance.

The secretaries are here, the laws to check them are here, the officers to enforce them are here. Action is lacking.

The saloon business in Lolo pass does not present the inviting field which it offered a week ago.

Bank statements and postoffice reports furnish an accurate index to Missoula's business activity.

Up to date, Dr. Cook has submitted just as much proof as Commander Peary has offered.

It will take more than Saratoga spring water to cure the ills of the democratic party.

Mr. Harriman's shoes are not very big, but it will take a big man to fill them.

Mr. Harriman was an instance of a minister's son who didn't go wrong.

OPINIONS IN SUITS ARE HANDED DOWN

Helena, Sept. 10.—Opinions in two equity suits were handed down today by Judge Hunt in the federal court. In both suits he found for the defendants, orders the complainants' bills dismissed and the defendants to recover their costs.

In the case of Nellie Mae Moore against N. B. Smith, the Smith Brothers' Sheep company and Mary M. Smith, executor of the estate of J. A. Smith, in which the complainant alleged that N. B. and J. M. Smith had conspired together to defraud her out of her share of the stock of the Smith Brothers' Sheep company, by selling it to J. M. Smith greatly below its real value, Judge Hunt found that N. B. Smith, in all matters connected with the executorship of the estate, had acted in good faith and with due regard to the rights of the heirs.

In another opinion, Judge Hunt sustains the findings of the master in favor of the defendant in the suit of A. S. Wright against John D. Waite and others involving the ownership of 76,576 shares of stock in the North Moccasin Gold Mining company, and orders the bill dismissed.

OPINIONS RENDERED BY ATTORNEY GENERAL

Helena, Sept. 10.—Several opinions were rendered today by the attorney general's office, in response to queries from various state officials. In one it is held that married women may not file upon Carey lands unless qualified as provided by the homestead laws. In another it is held that the stenographers serving at inquests are entitled to remuneration at the rate of 15 cents a folio, but with no expense account other than this. In still another the power of the state board of health is defined as being supreme in all matters pertaining to the public health, and may, therefore, inspect and require reports as to water, sewage and drainage systems and the like, and that it is empowered to prevent the pollution of streams. The others are of less consequence.

DEMOCRATS ADJOURN.

Saratoga, N. Y., Sept. 10.—After adopting a declaration of principles which included an indorsement of a federal income tax, and effecting a continuation of its efforts for the rehabilitation of the party, through the organization of the democratic league, the democratic conference concluded a two days' session today and adjourned until tomorrow.

LARGE ATTENDANCE EXPECTED

MORE THAN TWO THOUSAND MAY ATTEND AMERICAN MINING CONGRESS.

Goldfield, Nev., Sept. 10.—The United States, Canada and Mexico will be represented by about 2,000 delegates to the American Mining congress which will hold its 12th annual session in this city September 27 to October 2. Twenty-five political subdivisions of this country, including Alaska, will have representation. Leading mining and educational experts appointed by President Taft, the governors of the various states, mayors, boards of supervisors, commercial and scientific organizations will assemble in the hippodrome September 27 and the six days' session will be devoted to discussions of many topics of interest to the mining world.

In a statement issued by President J. H. Richards, that official says: "The sessions are designed to be an open forum for the discussion of all problems concerning the production, treatment, transportation, marketing and use of minerals, and the relation of the mining industry to the state and federal governments in connection with legislation to control and investigation to stimulate and make possible a larger development and a wiser conservation of the mineral wealth of the United States."

Bureau of Mines. One of the most important subjects will be that of the proposed national bureau of mines. The house of representatives of the 6th congress passed a bill creating such a department, but it failed in the senate and an effort will be made in the coming convention to organize a second campaign for the bill's passage.

Revision of mining laws, mining accidents, increased use of silver, mine inspection, fraudulent mine promotions, smelting rates and the conservation of mineral resources will be the subjects of papers and addresses and the following committee reports will be submitted:

General revision of mining laws, Dr. W. R. Ingalls, New York City; standardization of electrical equipment used in mines, Dr. Edward B. Ross, Washington, D. C.; revision of Alaskan mining laws, J. L. Steele, Landlock, Alaska; vertical side line law, George W. Ritter, Salt Lake City; coal tax insurance fund, Samuel A. Taylor, Pittsburg, Pa.; national forest service, A. G. Brownice, Denver, Colo.

Call to Order. The first day's session will be called to order by Joseph H. Hutchinson, chairman of the local executive committee, and address of welcome will be delivered by Charles S. Sprague, president of the Goldfield Chamber of Commerce; State Senator George D. Pynes and Governor Dickinson. Responses will be made by President Richards and a report of each state and country participating. Senators Francis G. Newlands of Nevada and Charles Dick of Ohio are expected to speak.

Among the entertainment features planned by the Goldfield committee are a rock-drilling contest, open to the work and a street carnival.

IN GOOD CONDITION.

Washington, Sept. 10.—The machinery of the Atlantic battleship fleet is in good condition, according to a report of Commander Ernest L. Bennett, the fleet engineer. Such repairs as are necessary will be made when the ships go to the various navy yards, following their participation in the Hudson-Palton celebration.

MANY INDICTMENTS RETURNED BY JURY

Helena, Sept. 10.—The federal grand jury submitted its report to Judge Hunt this afternoon and was discharged. Of the 55 cases considered, only one escaped without the return of indictments. Only those involving persons in custody were made public today, and as a rule, they are for minor offenses, such as selling liquor, introducing liquor on reservations, thefts, larceny and the like. R. W. Moore was indicted on the charge of importing his wife from Canada for immoral purposes.

JAPS TO BE TRIED.

Washington, Sept. 10.—The 17 Japanese purchasers recently taken prisoners in Alaskan waters will be tried at Valdez on October 4, according to a dispatch to the revenue cutter service office, received here today.

CLAIM IS SETTLED.

Caracas, Venezuela, Sept. 13.—The claim of the Orinoco corporation against the Venezuelan government has been settled. Venezuela will pay the company \$338,000 in eight annual installments.

PRIZE MONEY GIVEN BY HILL

CONTRIBUTES ONE THOUSAND DOLLARS FOR PRIZES AT DRY FARMING EXHIBIT.

Billings, Mont., Sept. 10.—In recognition of the importance of the dry farming congress J. J. Hill, chairman of the board of directors of the Great Northern Railway company, has given \$1,000 to be awarded in cash premiums at the International Dry Farming exposition to be held in connection with the fourth dry farming congress here October 25 to 29. Mr. Hill also has accepted an invitation to attend and address the congress. The \$1,000 will be divided into a number of class prizes for exhibits of dry farming products in competition open to the world. The speakers at the congress include beside Mr. Hill the governors of several western states, Senators Carter and Dixon of Montana, Congressman Mondell of Wyoming; Director Newell of the reclamation service, officials of the federal agricultural farmers, Governor Norris of Montana, president of the congress, will preside over the sessions. Fifteen nations are represented in the congress and a majority will send delegates.

NEARING COMPLETION.

Washington, Sept. 10.—Advices received here are to the effect that the negotiations incident to the allotment of the Hankow-Sze-Chuen Chinese railroad loan of \$4,000,000 are rapidly nearing completion, with the rights of the United States fully recognized. The United States, Germany, Great Britain and France have each been allotted approximately one-fourth the whole amount.

JAPS TO BE TRIED.

Washington, Sept. 10.—The 17 Japanese purchasers recently taken prisoners in Alaskan waters will be tried at Valdez on October 4, according to a dispatch to the revenue cutter service office, received here today.

CLAIM IS SETTLED.
