

# THE BIG WHITE SHOE STORE REOPENS ITS 98c FAMOUS SALE OF LADIES' OXFORDS AT 98c

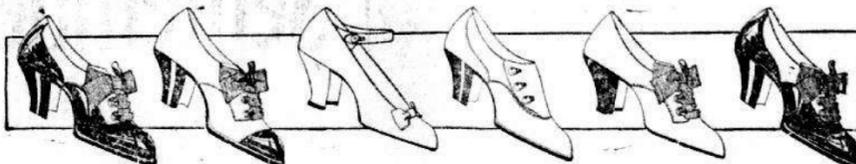

Positively Values as Illustrated, Selling Regularly Up to \$5.00

The greatest attendance and the heaviest buying ever known in the state of Montana, larger towns not excepted, was witnessed here last week during our "Famous Sale of Ladies' Oxfords." All regulation and order was swept aside by a swarm of eager shoppers.

For the reason that the shoes became mismated and the stock disarranged, the sale was discontinued indefinitely. Today we are prepared with the same bargains under better conditions of service. Come now, with full expectations of being well served.

### The Bargains Are As Good

as they were last Saturday, for the same qualities and styles are offered. The stock has been neatly arranged and sorted and there are still some 1,500 pairs of ladies' and misses', boys' and youths' Oxfords in nearly all styles and leathers of the season. Choose from the immense assortment, containing values at \$3, \$3.50, \$4, \$4.50 and \$5, at the one great reduction price. **98c**

### You Can Help Yourself

to these big bargains by following the signs. All the Oxfords are removed from the shelves, taken out of the cartons and emptied into bins on tables; each bin is labeled according to size. Whatever your size may be you may go to that bin, plainly labeled, and select your size, in many instances, from a score of styles. An efficient corps of help has been engaged especially for today.

## Charming Display of Ladies' and Misses' Ready-to-Wears for Fall

See our big Higgins avenue window. It shows Dame Fashion's Fascinating Fancies for the coming season. New arrivals daily with every incoming train.

### New Fall Suits

The newest fashions of the fall season are the Moyen Age style, showing the long waisted effect desired by women of fashion. Ours is the most comprehensive showing ever displayed by any one institution in western Montana. The house of Donohue Co. maintains a close relation with all eastern designers and manufacturers, thereby gaining the advantage in our suits of being distinctive, refined, exclusive and superior in quality.

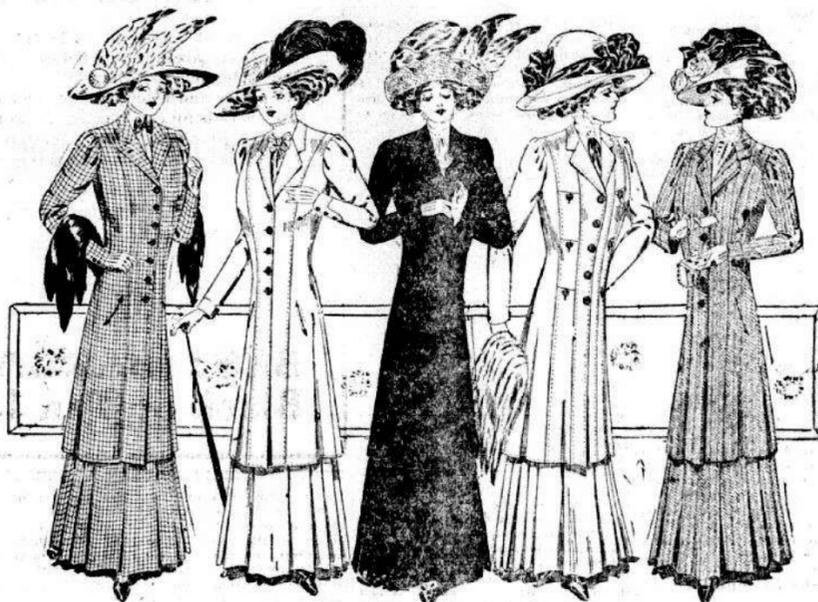

**THE MATERIALS** are chiffon broadcloth, serges, homespuns, prunellas and mannish mixtures, the latter featuring very prominently in the showing of New York's most reliable ladies' tailors.

**THE COATS** are three-quarters, seven-eighths and full length, skillfully lined with white or gray Skinner's satin. In some instances the lining is in matched tones with the material, particularly in the higher colorings. A noticeable feature is that in many modes the jacket is a desirable style for wear as a separate coat.

**THE SKIRT** is generally full plaited, though the plain gored skirts are almost as prominent in the showing. Hip yokes supplemented with plaits extending from the knee down are to have a great vogue.

**THE COLORS**—Mannish mixtures are the leaders, undoubtedly, though gray, taupe, wisteria, catwba and, of course, black and navy, are as prominent as ever. The season's new color is raisin.

Prices are from **\$25 to \$60**

### First Coats to Arrive

## FALL SHOWING OF MEN'S CLOTHING Most Superb Line In Montana

The gentlemen of taste and those who wish to conform to fashion will not accept any extreme of fashion such as loud or boisterous trimmings or exaggerated cuts. No doubt we shall see some such suits on the various men we meet, but rest assured they are not stylish, not tasty, but are almost vulgar. Those styles that Dame Fashion accepts are found in our far-famed
