REVIVAL SERVICES CONTINUE

SPECIAL FEATURE OF SUNDAY IN MISSOULA WILL BE EVANGELIST BREEDEN.

At the Christian church today everything will bend to the revival services being conducted by Dr. H. O. Breeden. He will preach at 11 a. m. in the church on "The Shepherd Psalm." This service will be followed by the Sunday school at 12:30. At 3:30 p. m. there will be services for men only at the Harmon theater. At this service special solos will be sung by H. S. Saxton, and Mrs. Saxton will render a violin solo. Dr. Breeden will talk on "Reaping the Whirlwind." At 8 p. m., at the same place, there will be a great mass meeting for everybody, and Dr. Breeden will deliver his great sermon on "The Divinity of Christ." The music at this service will also be of a specially attractive character.

Dr. Breeden is a representative minister in the Christian church, and his preaching reflects its best type of thought—the thinking that is being done at the top. The spirit manifested by him is the true spirit of the great religious movement he represents. Those who hear him know what the brainy, broad-minded and big-hearted men of the church are thinking and preaching everywhere. His type of evangelism is the type for which the most representative ministers and churches stand. You are invited to come to hear him, that you may know how to classify the people he represents.

CHURCH WOULD HAVE NEW NAME

SOUTHERN METHODISTS DESIRE TO REMOVE SECTIONAL LIMITATION.

Rev. G. H. Gibbs left yesterday morning for Spokane, where he will attend the sessions of the East Columbia conference of the Methodist Episcopal church South. Before he left Missoula, Rev. Mr. Gibbs was shown a message from Spokane stating that the conference had adopted a resolution memorializing the general conference to "change the name of the Methodist Episcopal church South, that as to remove all sectional limitations therefrom." "This," said the minister, "is in line with a policy that has been gaining friends for several years. There is a committee, appointed jointly by the Methodist Episcopal church and the Methodist Episcopal church South, that is considering plans for the amalgamation of the two branches. But the Spokane resolution has nothing to do with such a move. When the Methodist church was originally divided, its property was shared between the Methodist Episcopal church North and the Methodist Episcopal church South. At the same time there was an agreement that one should operate in the north and the other in the south, that Mason and Dixon's line should mark the division of religious activity. After a time, our good brothers of the north saw fit to break this contract and invaded the south. This left open to us the world, and our church began its extensive work, principally in the west. Now, as the south is no longer our sole territory, it is deemed best to change the name under which we are operating."

COMMISSION WRITES APPROVAL

STATE RAILWAY OFFICERS CONGRATULATE GREAT NORTHERN ON ITS LINES.

Showing their appreciation of the development and improvement that the Great Northern has been carrying on along its main line, the state railway commission recently wrote a letter of commendation to General Manager Gruber of the road in St. Paul, complimenting him upon the condition of the road and suggesting co-operation between the state and the railway company in colonizing the country along the line. The letter is as follows: "Helena, Mont., Sept. 20, 1909.—J. M. Gruber, General Manager, Great Northern Railway, St. Paul, Minn.: Dear Sir—We have just completed an inspection over your main line and branches in Montana, covering 2,360 miles of track, and feel it incumbent upon the commission to advise you as to the physical conditions of the Great Northern in this state as they appeared to the members of this board. "You have a good railroad, particularly the main line; the track is well ballasted, good sub-drainage, grade revisions and line changes, all of which indicate large expenditures for betterment. The result is a track that it is a pleasure to ride over, and these improved conditions should minimize the accidents incident to travel. "General Superintendent Brown, Division Superintendents Nicholson, Smith and Lowry, and Assistant General Freight and Passenger Agent McCaughey, who accompanied us over their respective territories, are ever in every facility for a thorough inspection, and for which we feel very grateful. "It is unfortunate for your company, as well as the state of Montana, that so much of your road runs through an undeveloped portion of the state, especially the Indian reservations, where there are thousands of acres of level fertile land that should be under cultivation, furnishing homes for hundreds of thrifty families, thereby not only producing a large increased local population, but adding to the population of Montana a class of citizens who would develop her greatest resources—that of agriculture—and place the Treasure state where she belongs as one of the large factors in the world's granary. The Great Northern railway will have the cooperation of every department of the state government in inducing bonafide settlers to come in and develop our great commonwealth. Respectfully yours,

"THE RAILROAD COMMISSION OF MONTANA." LOW RATES. The Northern Pacific and the Chicago, Milwaukee & St. Paul Railway companies have announced that rates of one and one-third for the round trip will be granted to Butte on Taft day, September 27. President Taft is to speak in the Copper City on this day.

POPULAR YOUNG MAN QUILTS ROAD'S SERVICE

Announcement was made yesterday that Harry C. Mitchell, material clerk for the Northern Pacific, had resigned his position to become bookkeeper for the Palace meat market. He has the best wishes of all his associates, however, in his new field and he will always have a warm welcome when he visits the Northern Pacific offices.

FOWLER SPENDS DAY IN LOLO DISTRICT

Superintendent Fowler of the Northern Pacific spent yesterday in Lolo, looking over the work which is being done in the way of building commercial spurs for the contractors and inspecting the depot. Mr. Fowler has recovered from his illness and is at the grind again. Mr. Goodell will be probably over the division next week and the formal inspection of the division will be started then.

Donald Goddes succeeds his father, Peter Geddes, resigned, on the directorate. Rosewell Miller, William Rockefeller and John A. Stewart were elected. David L. FIVE ARRESTED IN KANSAS CITY FOR AIDING THE DESPICABLE TRAFFIC. Kansas City, Sept. 18.—Five arrests were made here last night following the unraveling by the police of what appears to be a well-developed "white slave" traffic. Evidence was procured, the police assert, that will convict at least two persons of dealing in young girls. The case came to the police through a complaint that a 16-year-old girl was being detained at a house against her will. The girl was taken to the station, and there told Captain Whitsett that her mother had sent her to the house. "She not only sent me there," said the girl, "but gave me to understand that it wouldn't be well for me if I refused to remain there." The girl further asserted that the keeper of an uptown cafe had made a business of procuring young girls. As a result the police caused the arrest of the woman who kept the house, the mother of the girl, the proprietor of the cafe and a book agent, and held the girl as witness.

LUMBER STATISTICS FROM THE FOREST SERVICE ARE INTERESTING. Washington, Sept. 18.—A record of the wholesale prices of lumber for the quarter including April, May and June, last, based on reports submitted by more than 2,000 of the largest manufacturers of lumber in all parts of the country, has been issued by the United States forest service. Requests for data for the second quarter, ending September 30, will be sent out in a few weeks, and will be published in the early part of October. The record covers the principal items of all the commercial woods cut in nearly every state. The compilation was undertaken for the double purpose of having a continuous statistical record of such prices and to show, in contrast to market prices—which include the important items of freight charges and selling costs—just what the manufacturers of lumber receive for their product at the mill. For more than a year, a monthly record has been compiled showing the prices of lumber in 18 of the largest markets of the country. The market prices published do not show what the lumber is worth at the mill, as the freight charges, selling costs, and other items were included, but the quarterly record eliminates these items and shows the mill price. Only a few representative grades in each of the hardwoods and softwoods were taken, but from them lumbermen can draw deductions so as to give the approximate values of grades on which prices were not requested. In addition to the numerous items on which prices were secured, the value of the mill runs—the average of all grades of lumber produced—and also of all grades of the commercial woods.

THIRD RICH DISTRICT SHOWS UP IN ALASKA

Seattle, Sept. 18.—The Innoko and Editarod stampedes have been the feature of the summer in Alaska gold mining circles but the Korukuk district also making an unusual showing. G. E. Beatty, who arrived from Nome yesterday says there is much activity on Wiseman Nolan and other creeks. He estimates the output at \$500,000, which, according to the population, is about \$5,000 per month. The claims on Nolan creek are showing big pay, especially on Fingle's bench, where large nuggets can be picked up in the grass roots, but owing to the shortage of water little could be done this season.
