MATERIAL WANTED FOR FOOTBALL TEAM

Football material will be in demand at the south side ball grounds again Sunday. Games have been arranged with Anaconda and the Butte Y. M. C. A. and a contest will be pulled off next week between the Missoula team and a squad from the fort, which, report has it, can back up against the best school team in a practical football is being played and it is an opportunity for getting back into the game of which a good many old college stars are taking advantage. Practice will begin sharply at the appointed hour and all candidates will be given a chance.

VARSITY TO TACKLE HIGH SCHOOL TODAY

The first real football game of the season will be played on University field this afternoon, when the varsity meets the high school team in a practice game. The high school boys have been practicing hard for a month and, with the fastest and heaviest team which has ever represented the school on the field, expect to give the college aggregation a hard rub. The varsity squad has been handicapped so far during the season through lack of good scrimmage work and today's game will be the first of a series of similar contests which are expected to act for the general good of both teams. No admission is to be charged and the first game of the season promises to be a fast one.

HIGH SCHOOL STUDENTS HOLD FOOTBALL RALLY

Specific were heard from the members of the team and the faculty and announcement was made that the team would play the varsity on Montana field today. Thayer Stoddard, manager of the university team and an old high school star, presided at the meeting. The team will leave for Anaconda a week from next Friday to meet the high school there with the best team which the school has ever put out and a good fast game is expected.

PRINT PAPER MILLS MAY MOVE

AMERICAN INSTITUTION MAY BE FORCED TO CANADA BY IMPENDING WAR.

New York, Sept. 24.—The committee on paper of the American Newspaper Publishers' association today gave out a statement concerning the impending issues between Canada and the United States. The statement says: "At the outset the dominion claimed that if the American mills wanted to obtain their supply of pulp wood from Canada the American paper makers should not object to a reasonable rate of duty on paper made in Canada from pulp wood. A committee of the house of representatives, after a 16-month study of the subject, approved that view which was confirmed and ratified by the ways and means committee and by the house of representatives. Senator Hale objected to such arrangement and the senate, to please him, upset it and raised the rate above that passed by the house. The provinces of Canada declare that since the United States has refused to admit print paper upon reasonable terms, they will protect Canadian interests by meeting retaliation with retaliation and will force many of the American print paper mills to move to Canada. "The most serious feature of the prospective war is that which affects wood products, valued at \$30,000,000, brought into the United States from the dominion."

ROADS MUST ESTABLISH TRACK CONNECTIONS

PRESIDENT OF LEAGUE

CHARLES F. MOLL, President of Wisconsin-Illinois League.

Milwaukee, Sept. 24.—There is one baseball league in organized ball that deserves more attention than it receives, and the same holds good for the president of the organization—Charles F. Moll of Milwaukee. It is the Wisconsin-Illinois league over which Mr. Moll presides, and the league has made rapid strides because of the good administration by its president. Numerous are the good players who are sent to the big leagues from the Wisconsin-Illinois league. Ward Miller, Pitcher Warhop, Pitcher Loise, First Baseman Ketchy, "Coss" Donnan and others are graduates of Moll's organization. Good umpires, too, are turned out by him. Brannan, recently signed by President Hoyle of the National league, was in the Wisconsin-Illinois this season. President Moll has a unique rule regarding players who do not behave, and one which will undoubtedly be adopted by other leagues that have a low limit for carrying players. If a player is unruly during a game he is benched, and if the umpire is forced to put him out of the grounds, that player remains suspended for a day and cannot get on the fields the next day. Mr. Moll has been interested in baseball for years and likes the sport. He is a bowler of national reputation, and was one of the prime movers in getting the A. B. C. tourney in Milwaukee a few years ago. He never misses a bowling congress.

MONTANA STATE ASSOCIATION OF POSTMASTERS OPENS ANNUAL SESSION.

Butte, Sept. 24.—In the name of all its people, Mayor Charles P. Nes in this morning welcomed the postmasters of Montana to Butte. The occasion for the address was the opening session of the Montana State Association of Postmasters, which began its third annual session this morning in the federal building. J. C. Sorenson of Glendive was to have made the response to the welcome, but he had not arrived, and Malcolm Gillis, president of the association, replied briefly. The session of the postmasters promises to be an important one. In addition to employees of the postoffice department, the association will have with it the postmaster general, Frank H. Hitchcock, who is expected tomorrow, and he will make an address. It is the aim of the association to be of practical benefit to the postmasters and it proposes to do no little work at its various sessions; however, the social features will not be lacking. Chief of these will be the banquet in honor of the postmaster general at the Thornton.

THE MISSING BROKER REAPPEARS

JOHN DICKINSON SUDDENLY RETURNS TO CHICAGO—SURPRISES HIS LAWYER.

Chicago, Sept. 24.—John Dickinson, head of the defunct stock and brokerage house of John Dickinson & Co. of Chicago and New York, who mysteriously disappeared on the eve of the \$1,000,000 failure of his firm on May 17, and for whom creditors have been searching, reappeared in Chicago yesterday. Dickinson's appearance came as a surprise to his attorneys, and the Chicago Title & Trust company, receivers for the concern, as it was reported that the bankrupt broker had recently been in Paris, in Mexico and in California. Dickinson visited the court of referee in bankruptcy, Sydney C. Eastman, and was questioned by Francis J. Honihan, attorney for the Chicago Title & Trust company. He said that all the assets of the firm had been turned over to the receiver, so far as he knew. "What are the assets of the concern?" "It is impossible to tell. I have been ill and have not been able to go over the books." "What are the liabilities?" "I understand about \$2,000,000. The books, I understand, are in such a jumbled condition that it will take some time to find out just how we stand." Mr. Dickinson's attorneys said he had suffered a nervous breakdown, but that he did not say where he had been or assign any cause for the failure.

COOKED ON BLEACHERS

The Chicago Americans have released Pitcher Flene to the Minneapolis club. St. Seymour has come back to life and is hitting and fielding nicely for the Giants. That's a real battle between Milwaukee and Minneapolis for the American association pennant. It Promme and Gasper continue to improve the Cincinnati Reds will have two star fingers next season. Pitcher Browning, the San Francisco crack, should make good in Detroit. He is the Pacific coast sensation of the season. George Gibson is making a swell showing with Pittsburg. He has caught nearly all the games the Pirates have played this year. Collins of the Athletics, Egan of Cincinnati and Miller of Pittsburg are three of the best youngsters of the season, and all second basemen. Now that the Tigers have hit the road, will they continue the fast going? If they do, it's good-bye Philadelphia and Red Sox sure. President Johnson says that the present season has been the greatest known in the history of the American league, every team in the organization making money.
