EMBEZZLING SPOUSE IS SOUGHT

T. H. WALKER ALLEGED TO HAVE FORGED WIFE'S NAME TO CHECK FOR \$1,200.

One of the most peculiar cases with which the local authorities had to deal for some time is that of T. H. Walker, erstwhile proprietor of the "Laborer's Home," on West Pine street, who is alleged to have left the city with \$1,200, which his wife claims was obtained by forging her name to a check for that amount. Mrs. Walker went to County Attorney Mulrooney yesterday and told of the disappearance of her spouse. She could assign no reason for his desertion, as their home life had been most happy. Upon her complaint a warrant charging grand larceny was issued and search is being made for her husband. It is understood that he left the city late Friday night. The bank officials declare that the signature of Mrs. Walker to the check is genuine, as is proven by other signatures known to them. They explain the matter by stating that Walker had probably gotten his wife to sign her name to a blank check, which had later been filled in by him. But, at any rate, there is something wrong somewhere and the officers are determined to find out, through Walker's arrest, just what it is.

STATE LAND BOARD ISSUES UKASE

AGENT NEILL IS TO OUST TRESPASSERS FROM PROPERTY OF COMMONWEALTH.

Helena, Sept. 25.—That the state land agent should at once go into the field and take with him such assistance as is necessary to oust from the tract of land in question all trespassers and persons asserting rights against the state of Montana. Such is the wording of an order issued today by the state board of land commissioners in what is known as the Belton controversy between the commonwealth and the forestry officials, involving title to a certain tract of land in section 16, township 32 north, range 19 west.

May Use Force. Literally construed, it means that the state land agent is directed to oust the forestry officials even to the extent of resorting to force. Mr. Neill, the land agent, could not be seen today and it is not known if he will make requisition for state militia or avail himself of the services of residents of the community. But one thing is certain and that is that the state will not tolerate the alleged trespass of the forestry officials, who not only warned all persons against purchasing land when offered for sale recently by the land agent, but also built a fence around the tract and essayed to set it aside for "administrative purposes." At this sale, the Great Northern Railroad company was the purchaser, despite the protest of the supervisor, the price paid being \$10 an acre. The forestry officials refused to vacate the land, but as a compromise later permitted the railroad company to enter there under a lease and begin the construction of buildings.

Lots of Land. The railway company then made demands upon the state, through a request upon the land agent, that the property be delivered in fee simple. The board watched the matter with the result indicated. It is estimated that 1,600,000 acres are involved in the dispute.

VICTIM OF ACCIDENT HAS LARGE FUNERAL

Many friends attended the funeral services over the remains of Logie Anderson, the young boy killed a few days ago by being run over by a wagon, which was held yesterday afternoon at the residence of the boy's aunt, Mrs. McMullen, in the Orchard Homes. Rev. Walter Lennie-Smith officiated. The floral offerings were extraordinary in number and beauty of design. Six young schoolmates of the dead lad acted as pallbearers and escorted the body to its last resting place in the Missoula Valley cemetery.

TRUNK SALE PROVES A DECIDED SUCCESS

The bargain-day excursion to the Evans Brothers' trunk factory yesterday proved a decided success, and all day long the 'busses which made the trip were well filled with prospective buyers. The Evans Brothers have worked up their business here to a good size during the last few months and all who visited the factory yesterday were amazed at the sight of the work which is going. The 'busses started every hour from the depot until 5:30 o'clock p. m.

Mr. Morris says that there is an impression in some quarters that ladies are to be invited, but that this is not so. The gathering will be a meeting of business men for business. The place of the banquet will be announced soon.

CHOOSE GREAT FALLS FOR MEETING

GERMAN LUTHERANS HOLD SECOND SESSION AND TRANS. ACT BUSINESS.

At the session of the German Lutheran conference yesterday an instructive and interesting paper on the 15th chapter of the gospel of St. John was read by Rev. J. Essig of Miles City. A paper by the Rev. H. Raub of Billings could not be presented at the meeting because the great amount of business to be transacted occupied both morning and evening sessions. A committee was appointed to consider the matter of either joining the Washington and Oregon or the North Dakota district of the Lutheran church body. The editor of the "Lutheran Watchman" reported most favorably on the standing of the paper, both financially and as to the service it renders the church in this state. The reports of the ministers on the condition of the church is growing in all parts of the state. It was unanimously decided to have the conference incorporated under the laws of Montana and a committee was appointed for that purpose. A lay member of the church donated \$500 to the church extension fund of this state. It was decided to hold the next conference in Great Falls.

ISIS THEATER HAS INTERESTING SHOW

Decidedly an innovation in the motion picture art was the number rendered on the Isis theater chronophone the last two evenings. The picture and its accompanying phonograph presented a regular minstrel show. Quips and jokes were exchanged between the interlocutor and the end men and a song was sung by one of the end men, in the chorus of which he was joined by the entire company. The production was a marvel and made a decided hit. A. J. Yocst, singing "I Love My Wife but, Oh, You Kid," also won a great deal of applause. "A Mother's Sorrow," a tale of peasant life containing a rather unique love affair with a sad ending, made an impression on the audience. "The Seventh Day," a story where-in divorce figured largely, was an interesting picture and had a happy culmination to add to its charm. Three clever comic pictures, "Charity Begins at Home," "The False Alarm" and "The Bachelor's Visit" brought laughter from the audience. There will be an entire change of program Monday evening.

TAFT UPHOLDS POLICY OF ROOSEVELT

(Continued from Page One)

give my best efforts in the future, as in the past, to promote the conservation and development of our forests, waters, lands and minerals, and to defend the conservation policies whenever the need arises. Especially I shall continue to advocate the control of water power monopoly in the public interest and the use of our institutions, laws and natural resources for the benefit of the plain people. I believe in equality of opportunity and the Roosevelt policies and I propose to stand for them as long as I have the strength to stand for anything. (Signed) GIFFORD PINCHOT.

Bullinger's Threat Sore.

It was thought yesterday that the meeting here of the president, Secretary Bullinger and Mr. Pinchot might call out further statement from Mr. Taft. Mr. Pinchot came on especially from California to seek an interview with the president. With the exception of the meeting at the station yesterday when neither attempted to speak to the other, Secretary Bullinger and Mr. Pinchot were not thrown in contact during their stay in Salt Lake. Mr. Pinchot attended several functions along with the party escorting the president today, but Mr. Bullinger, pleading a sore throat, normally indorses most of the time. His private secretary met him here and he devoted much of his time to disposing of business matters. Mr. Bullinger had no comment to make tonight on the latest phase of the discussion. Friends of both Mr. Bullinger and Mr. Pinchot declare that the president's statement is such that both officials can consistently remain in the government service and work toward the same ends. Mr. Pinchot has declared himself in favor of a strong conservation policy. Mr. Bullinger has declared himself in favor of keeping within the law. President Taft finally declares himself as being in favor of a strongly progressive policy, kept within the law, with such amendments to the law as may be necessary to carry out Mr. Roosevelt's ideas.

Taft's Ideas.

In an address here this afternoon Mr. Taft had this further to say regarding conservation: "We are going to move on congress and ask congress to help us out. Of course, congress may have a differing view, and perhaps those of us that are most enthusiastic, those of us that have a clear idea of what will have to be done, will have to modify our views in some way and arrange a compromise. But life is a compromise, progress is a compromise, popular government is a compromise by 90,000,000 people."

The conservation of resources is the issue which the president will be confronted with during the next two weeks of his travel. Senator Borah of Idaho saw him with regard to a proposition of the government issuing bonds to carry on the conservation work more rapidly than is now possible. Senator Borah will accompany the president through Idaho and will take the matter up again.

Second Day.

The president had a busier time than he expected on this the second day of his visit. With Governor Spry, Senator Smoot and others of the local committee to accompany him, he breakfasted at the Commercial club, made an excursion to Saltair and saw the Great Salt Lake for the first time, attended an organ recital at the Mormon tabernacle and expressed to the organist and to the soloists who helped in the program his appreciation of their splendid music; had luncheon and spent the early afternoon at the country club, held a public reception and spoke out of doors at Liberty park at a meeting presided over by the mayor of the city; held a reception tonight at the University club for Yale graduates and Ohioans resident in Salt Lake and ended up the day at a banquet in honor at the Alta club.

The excursion to Saltair was arranged by Senator Smoot and on it the president was introduced to a large number of merchants, including President Joseph F. Smith. President Smith sat with President Taft also during the organ recital. The conflict of opinion between the Mormon and anti-Mormon elements of Salt Lake's social, political and religious life has been stirred by the president's visit, but Mr. Taft has taken occasion to say in his speeches that he believes his welcome has come from all the people and is an expression of their loyalty to the government and to the man who temporarily is at the head of the government.

At Liberty Park.

In his speech at Liberty park this afternoon the president said: "I want to thank the governor of the state, the two senators, the congressman and the mayor of Salt Lake for their very great kindness in welcoming me when I came out of state, and for their attention and courtesy—an attention and courtesy which I am glad to say, I believe I have real reason for thinking, is an expression of the sentiment of the people who elected me president."

"I stand here in the presence of a community in which the first effort for the reclamation of the arid and semi-arid lands was made successful and that development is bound to make this country a most important part of the United States. That brings me to the subject of the conservation of our resources. I don't intend to discuss that in detail this afternoon, but there has arisen within the last seven years and in less than that time a deep feeling on the part of the people that we must conserve the resources that the Lord gave to this continent in order that our posterity may not be embarrassed, straightened and even starved. It involves the saving of the forests and the reforestation of land which has been denuded of forests. It involves

THREE MEN DESCEND INTO CRATER

MAW OF MOUNT KILAUEAU IS EXPLORED FOR FIRST TIME IN HISTORY.

Honolulu, Sept. 25.—L. M. Hale, J. Reynolds and Ernest Moses, a photographer, descended today into the pit of the crater of Mount Kilaueau, remaining a half hour on the edge of a boiling lake of lava and fire. This is the first time this feat has been accomplished. The members of the party ventured almost to the rim of the seething lake and attempted to take photographs. The heat was intense and at times the adventurers walked over partially molten areas. After completing their observations they returned safely to the rim of the crater, where a half dozen friends had witnessed the descent. Kilaueau is one of the largest active volcanoes in the world, on the east slope of Hawaii island. Its latitude is 4,400 feet and the circumference of its crater is about nine miles with a depth varying from 700 to 1,100 feet, depending upon the level of the molten lava. Violent eruptions occurred in 1797, 1840 and 1866 and since the latter date there have been several outbreaks of less severity.

GOVERNOR JOHNSON

Softly, softly draw the curtain, See! the chieftain sleeps; He is sunk in peaceful slumber, And a nation weeps.

All his earthly cares are over, He has reached his goal; Peace, a blessed peace, is given His majestic soul.

Never crisis, that he feared it, Never care he fled; Never sorrow, but he cheered it— Words of comfort said.

It is given unto many This world's work to do, But to do the mighty tasks is Given unto few.

Spare him, ah, how can we spare him! With so much undone? Who can carry on the labor He has but begun?

Softly, softly draw the curtain Where the chieftain sleeps; Children, drape his bier with flowers, While a nation weeps. —R. W. Missoula, September 25, 1909.

Vagaries of a Cold.

You can never be quite sure where a cold is going to hit you. In the fall and winter it may settle in the bowels, producing severe pain. In the summer it may give you colic with diarrhoea or summer complaint. Do not be alarmed nor torment yourself with fears of appendicitis or inflammation of the bowels. At the first sign of the pain or cramp take Perry Davis' Painkiller in warm, sweetened water and relief will come at once. There is but one Painkiller, Perry Davis'. It is now put up in a large 35c size as well as the regular 50c size. West Virginia's production of coal last year was 41,875,843 short tons, a decrease from the output of the year before of about 12 per cent.
