Mr. Riley leaves a good many friends here, all of whom wish him the success in his new venture which his long experience in the hotel business is almost certain to accomplish.

Nearly everybody knows that Ivory Soap is the best of bath soaps.

But a great many people do not know that Ivory Soap is just as good for toilet use as for the bath and for fine laundry purposes.

It is, though; and for the very same reason. It is pure soap; and nothing else.

Work will be resumed on the new Northern Pacific tin-card within a few days and the schedules will be gotten into the hands of the printers as soon as possible. The date for the issuance of the new card has not been set as yet, but the trainmaster's force will start stringing it again at once in order to have it ready when the proper time comes.

SELL WOOL.

Sydney, N. S. W., Sept. 28.—The Co-operative company, which is in no way connected with the dispute between the wool buyers and the brokers that yesterday prevented the progress of the annual wool sales, today sold 2,700 bales of wool at a price 5 per cent above the August prices.

DILDINE DRAWS CASE OF CUCUMBERS

ASKS FOR MAIL AND GETS A BOX OF VEGETABLES FROM HEADQUARTERS.

E. E. Dildine, assistant superintendent of telegraph for the Northern Pacific, was here this week inspecting local conditions and endeavoring to arrange for better service generally. Mr. Dildine says that five divisions of the Northern Pacific are now satisfactorily using the telephone, exclusively for dispatching. Speaking of telegraph errors, Mr. Dildine told of a good one that occurred recently. From Anacosta he wired St. Paul to forward his "accumulated mail." Either the operator at Anacosta or at Silver Bow "billed" the message to read, "Send at once a case of cucumbers." The St. Paul office was much mystified, but nevertheless obedient. The dining car department was notified, and instead of his "accumulated mail," Mr. Dildine received at Billings a case of cucumbers.—Dawson County Review.

HOODOO LOCOMOTIVE IN TROUBLE AGAIN

The unlucky 1519, the engine which was in the wreck at Lothrop, and which jumped the track on its way back from the scene of the collision, added a new mislay to its error column yesterday, when it left the rails near the Woody street crossing. The train was not moving at a very fast rate, so none of the cars jumped, but the big locomotive managed to tear up things a little and to get itself into such a position as to require the help of the wrecker before it could be replaced on the track. The crossing was cleared early in the afternoon, however, and the engine was given another chance to make good.

DIRECTORS GET HERE SOME TIME TONIGHT

The directors' special over the Puget Sound is scheduled to arrive this evening, according to the latest bulletin, and the trip up into the Blackfoot country will not start until Thursday. Yesterday the last preliminary arrangement for the long trip was finished and the directors will be taken over the survey on a good, fast and well-planned schedule. Just who will go with the party out of Missoula has not been decided, but it is very likely that several Missoula people will go as far as is possible in automobiles and that only the officials of the road will make the whole trip.

PUGET SOUND YARDS SHAPING UP FINELY

Under the hands of a big gang of Montenegrin laborers, work on the Puget Sound yards is coming along fast and already the line, from the water tank to the Van Buren street bridge, is beginning to look like the real thing. The trucks have all been ballasted and the ground, clear through the yard, has been graded to track level with gravel, so that everything is slick and span. The roadway leading down to the freight depot has been covered with earth and the rockbed leveled off for the heavy travel and in a few days the entire yards will be ready for the heaviest of traffic.

DEPOT BOILER ROOM READY FOR FURNACE

Yesterday work was finished on the boiler room in the Puget Sound freight house and everything is in readiness for the installation of the furnace. This building is one of the finest of its kind on the road and is being finished up fast. Already, however, it is taxed to the limit. The freight traffic is abnormally heavy and the depot is crowded to the limit all the time. The furnace is expected to arrive every train and as soon as it is put in the big depot will be ready for the whiter.
