SURVIVORS OF WRECK ARRIVE

THOSE RESCUED FROM OCEAN QUEEN ARE LANDED AT GOLDEN GATE CITY.

San Francisco, Oct. 9.—Several passengers, the captain and a portion of the crew of the Norwegian steamship Ocean Queen, which was wrecked September 16 on a reef off the coast of Tahiti, arrived here today on the steamship Mariposa from Papeete.

The Ocean Queen left Papeete on September 15 and early the next morning while passing the settlement of Maunua on the east side of the island the engines stopped running.

The Ocean Queen was making her maiden voyage. She left England March 10, under lease to the phosphate company.

DR. DODD ARRIVED CHICAGO HAS WORST FIRE IN HISTORY

SUFFERERS FROM EYE OR NEAR-VISUS TROUBLE SHOULD NOT FAIL TO CONSULT HIM.

Dr. Dodd found his office at the Savoy hotel in readiness yesterday morning. He comes to Missoula with a reputation for ability and for conscientious treatment which he has well earned, so that his success here will not be a matter of surprise to those who are informed as to the nature of his work. Dr. Dodd uses no drops, such as atropine, belladonna or cocaine for paralyzing the eye muscles, hence, he subjects his patients to no possible injury or inconvenience such as attends the institution of these dangerous drugs. He has mastered a method of measuring the eyes and fitting them with glasses, which is now recognized by all authorities whose opinions are worth while, to be more exact than ever could have been hoped for by the old method of paralyzing the eye muscles. Dr. Dodd claims that the only excuse for practicing the old method is one's lack of ability and knowledge of the new and more scientific one, that he quit paralyzing eye muscles more than 19 years ago.

Testimonials at Dr. Dodd's office at the Savoy hotel, which all are invited to inspect, prove conclusively that he does all he claims to do, and that there is hope for all those who are tired of experimenting with drugs and operations.

The above pictures are of a young lady whose eyes had been crossed 13 years; they straightened readily when proper glasses were fitted. She had tried glasses without any benefit whatever, but when she consulted Dr. Dodd he explained to her why the glasses she wore could never straighten her eyes, and why his glasses would straighten them in 15 days. They were straight in 10 days. The doctor who had made a failure, naturally told her that an operation was the only thing that would straighten them.

OFFICERS ABANDON CHASE FOR WHILE

San Bernardino, Cal., Oct. 9.—Willie Boy, the Indian murderer, will have a few days' rest after a two weeks' continuous chase, if he is not already dead by his own hands, as members of Sheriff Ralph's posse are inclined to believe. The sheriff and his men have decided to abandon the chase temporarily. After 1 o'clock on Thursday, Willie Boy did not fire any more shots, though the movements of the posse left him many opportunities. Late at night, as the posse proceeded down the canyon with Deputy Sheriff Kiehn, who has been wounded, a shot was heard from the direction of the Indian. It is believed that he may have used his last cartridge to destroy himself.

The United States Government Gives Railway Mail Clerks \$800 a Year to Start, and Increases to \$1,200.

Uncle Sam will hold an examination for postal clerks and letter carriers in Missoula, Mont., in November; for other positions on different dates. It is estimated that 50,000 appointments will be made this year. The government wants people over 18 years to take the examination; will pay them well and give them an annual vacation with full pay. The Bureau of Instructions, Rochester, N. Y., with its thorough knowledge of all the requirements, can fit anyone in a few weeks to pass. A government position means employment for life. Prepare now for the examination. Any reader of The Missoulian can get full information by writing the Bureau of Instructions, 414 Hamlin building, Rochester, N. Y.

CHICAGO HAS WORST FIRE IN HISTORY

PROPERTY OWNERS ARE WARNED OF WHOLESALE CONFLAGRATION.

October 9, yesterday's Missoulian said editorially: "Today is an anniversary that is a reminder; it was October 8, 1871, that the Chicago fire started its three days of devastation and ruin. The recurrence of this date always makes men shudder who recall the terror of those three days almost forty years ago; it is a stark warning against fires that have been neglected it should bring forcibly the suggestion that there should be no further delay in fortifying against a possible invasion of the fire king. To Missoula, right now, this reminder is especially strong. With exception of the recent replacement of worn-out horses and apparatus, the local department is no stronger than it was five years ago. The city has grown apace; there is urgent need for an electric alarm system, and for more and better apparatus. When there has been a fire that has seriously damaged the city it will be too late to consider this matter. Now is the time. No matter how efficient Chief May is, he cannot do good work without the equipment that is necessary."

There is but one thing to say after such a warning, and it's just this: Insure your property with the best agent you can find, and at the same time get absolute protection by insuring with Wheelock, Fernald & Rossi, the progressive, live insurance men. Then you can breathe easy.

MARKET MOVEMENTS OF THE DAY

New York, Oct. 9.—The Saturday trading in stocks proved to be the quietest of the week. There was some evening up of accounts and not much disposition to enter on new commitments at the end of the week and with only one business day to intervene before another holiday on Tuesday. A desire to see the complexion of the bank statement also restricted activity. In view of the activity on the selling side during the week it was natural that closing up of accounts should be covering over shorts for the most part. It was this that marked prices upward after the week opened. Stock exchange loans made on Friday are carried over until Monday, so that the call loan market was nominal today. The leading money brokers had a good many applications to arrange loans for Monday to carry over until Wednesday and the limited supply and growing demand were thus disclosed, although rates for these accommodations were made below 5 per cent. There were heavy withdrawals of gold from the Bank of England for shipment to Turkey, to Egypt and to other points, disclosing the effectiveness of the bank's present discount rate to check this drain. The distinctive feature of the week's stock market is plainly shown by the fact that of the aggregate sales of all stocks for the week of 5,843,390 shares, 2,637,200 shares were of United States stock. The stock maintained its prominence today, selling down over a point at the opening and sharing in the general tendency toward recovery in the whole market.

Bonds were unchanged for the week. Grain and Provisions. Chicago, Oct. 9.—Wheat trading was quiet and news was generally bearish. Foreign markets failed to respond to the upturn here yesterday because of a revised estimate of the total world's supplies for the week as given out by leading European crop statisticians, which placed the amount at 13,740,000 bushels. December sold between \$1.01 1/4 and \$1.02 1/4. The market closed easy with December at \$1.01 1/4@1.02.

Oats showed relative firmness and closed steady with prices unchanged to 1-4c lower. Provisions were firm, closing 5c lower to 7 1/2c higher. Metal Market. New York, Oct. 9.—The metal market was quiet today and generally unchanged in the absence of cables. Tin ruled steady at \$30.45@30.52 1/2. Copper was nominally unchanged, with lake quoted at \$136.15@137; electrolytic, \$12.62 1/2@12.87 1/2; casting, \$12.50@12.75. Lead was dull at \$4.35@4.37 1/2; spelter unchanged at \$5.75@5.95.
